Significance: Agency Priority

Legal Authority: 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1424; 49 USC 1425; 49 USC 1428; 49 USC 1429; 49 USC 1430; 49 USC 106(g)

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This rulemaking was established to review part 25 to determine if the current allowable concentration of carbon dioxide in the airplane cabin and flight deck is appropriate in light of standards established for air quality in buildings occupied by the general public and with workplace exposure limits adopted by other regulatory agencies. This rulemaking was considered significant because of the safety implications.

CFR Citation: 14 CFR 25

Legal Deadline: None

Abstract: This action requires that an inert gas, such as nitrogen, be used in lieu of air, for inflation of tires on certain transport category airplanes. This action was prompted by at least three cases in which the oxygen in air-filled tires combined with volatile gases, given off by a severely overheated tire, and exploded upon reaching autoignition temperature. The use of an inert gas for tire inflation will eliminate the possibility of a tire explosion.

Abstract: The FAA established an aviation rulemaking advisory committee (56 FR 20492, May 3, 1991), within which several subcommittees were established to provide advice and recommendations to the FAA on the full range of aviation-related issues. The Air Carrier Operations Subcommittee has been tasked to suggest the criteria for autopilot engagement. The current regulation (section 121.579) does not address existing autopilot technology. The subcommittee will seek the expertise of terminal instrument procedures (TERPS) specialists, flight test engineers, and air carrier pilots in developing its recommendation.

Significance: Agency Priority

Legal Authority: PL 102-240, sec 4007

CFR Citation: 49 CFR 383

Legal Deadline: Final, Statutory, December 18, 1993.

Abstract: This action is in response to section 4007 of the Motor Carrier Act of 1991 (Title IV of the Intermodal Surface Transportation Efficiency Act of 1991). The Department must undertake a rulemaking on the need to require training of all entry-level drivers of commercial motor vehicles. If FHWA determines it is not in the public interest to issue a rule requiring such training, the Agency must submit a report to Congress, along with results of a cost-benefit analysis, as part of the rulemaking proceeding. FHWA is also required to submit a report to Congress on the effectiveness of private-sector efforts to ensure adequate training of all entry-level drivers. This action is considered significant because of substantial public interest.

Significance: Regulatory Program

Legal Authority: PL 100-690, Sec 9105

CFR Citation: 49 CFR 383

Legal Deadline: Final, Statutory, December 31, 1990.

Abstract: This action was initiated to improve identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Alternatives that were considered included retinal eye scans and advanced fingerprint technologies. After (1) further review (2) a careful analysis of public comments submitted to the ANPRM and (3) a review of demonstration project results, the FHWA has determined that current technology has not progressed to the point where an identification system could be established nationwide in a cost-effective manner and still provide the benefits for which a system was intended. Therefore, the FHWA has published an informational notice to summarize the results of the pilot study and the comments to the ANPRM to demonstrate how the technologies studied fall short of the demands in a commercial licensing environment. When information is available that the technologies would be beneficial to the CDL program and after completing additional studies on the accuracy of the current systems, the FHWA will propose standards for the biometric identifier. CFR Citation: 49 CFR 382; 49 CFR 391

Legal Deadline: Final, Statutory, October 28, 1992.

Abstract: This action would create a new 49 CFR part 382 addressing controlled substances and alcohol testing. This new part would conform to the requirements of the Omnibus Transportation Employee Testing Act of 1991 by encompassing intrastate and interstate commercial vehicle operators, including governmental employees, for uniform controlled substances testing. Any resultant final rule, however, would not preempt provisions of State criminal law. This action deals with controlled substances testing only. Alcohol testing is dealt with in RIN 2125-AC85. This action is significant because of substantial public and congressional interest.

Legal Deadline: Final, Statutory, October 28, 1992.

Abstract: This action requests comments on the applicability of alcohol and controlled substances testing requirements for foreign-based drivers of motor carriers under the Omnibus Transportation Employee Testing Act of 1991. The FHWA has published two notices of proposed rulemaking regarding controlled substances testing of CMV drivers. The FHWA needs information concerning foreign government laws and regulations that may conflict with the proposed rules. This action is considered significant because of substantial public interest.

Legal Deadline: None

Abstract: As a result of both a petition by the Delaware Department of Public Safety and an FHWA review of its regulations, the FHWA is considering an exemption from the Federal Motor Carrier Safety Regulations (FMCSRs) of vehicles with a gross vehicle weight rating (GVWR) of less than 26,001 pounds. The FHWA is also involved in a zero-base review of the FMCSRs, which is much broader in scope than the potential exemption. Because the regulatory review and the zero-base project are similar exercises, and because there is a lack of conclusive data about the relative safety risks of commercial motor vehicles in various weight categories, the FHWA will consider the proposed exemption in the broader context of the zero-base project.

This action is considered significant because of its potential impact on the motor-carrier industry.

Significance: Agency Priority

Legal Authority: 49 USC 3102; 49 USC app 2503; 49 USC app 2505

CFR Citation: 49 CFR 390

Abstract: This rulemaking would revise 49 CFR 390.21 concerning the marking of motor vehicles. The marking requirement was promulgated in part to identify the motor-carrier population subject to the regulations and to assist in maintaining a current, up-to-date census file of all those motor carriers. This action would consider the possible use of a postcard-type form for annual census purposes in lieu of Forms MCS-137 and MCS-150 and is considered significant because of substantial public and industry interest.

Abstract: Section 12009 of the Commercial Motor Vehicle Safety Act of 1986 establishes 21 requirements under the Commercial Driver's License (CDL) program which States must meet before October 1, 1993, to avoid losing a portion of their Federal-aid highway funds. This regulation will delineate the criteria and standards which the FHWA will use in determining whether a State is substantially in compliance with the 21 requirements. In addition, the rule will include a procedure governing initial and subsequent reviews of State compliance with these requirements. Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: This rulemaking will implement the statutory requirements of sections 8 and 15 of the Hazardous Materials Transportation Uniform Safety Act (HMTUSA) of 1990. Section 8 addresses the establishment of motor carrier safety permit regulations for motor carriers transporting Class A or B explosives, liquefied natural gases, hazardous materials designated as extremely toxic by inhalation, or highway route controlled quantity radioactive materials. Section 15 of the HMTUSA requires inspection of vehicles transporting those radioactive materials before each trip. The proposed rule will incorporate those provisions into the safety permit regulations. This action is considered significant because of substantial public interest and safety implications.

Abstract: 23 U.S.C. 303 requires the Secretary of Transportation to issue regulations for State development, establishment, and implementation of systems for managing: highway pavement of Federal-aid highways; bridges on and off Federal-aid highways; highway safety; traffic congestion; public transportation facilities and equipment; and intermodal transportation facilities and systems. The Secretary also must issue guidelines and requirements for the State development, establishment, and implementation of a traffic monitoring system for highways and public transportation facilities and equipment. States must be implementing each management system in Federal fiscal year 1995, or the Secretary may withhold up to 10% of funds apportioned under Title 23, U.S.C., or under the Federal Transit Act for any fiscal year beginning after September 30, 1995. The primary purpose of these systems is to improve the efficiency of, and protect the investment in, existing and future transportation infrastructure. The systems will provide additional information needed to make informed decisions for optimum utilization of limited resources. (cont)

Abstract: The FHWA requested public comment on how, under section 411(h) and 416(b) of the Surface Transportation Act of 1982 (STAA) (PL 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Legal Deadline: NPRM, Statutory, December 18, 1992. Final, Statutory, December 18, 1993. Other, Statutory, January 18, 1994.
Other deadline is for report to Congress.

Abstract: The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Public Law 102-240) mandates that the FHWA report to Congress by December 18, 1992, on the effectiveness of private sector efforts to ensure adequate training of entry-level drivers of CMVs. The Act also directs the FHWA to initiate a rulemaking by December 18, 1992, on the need to require training of all entry-level drivers of CMVs. This rulemaking must be completed by December 18, 1993.

DOT—FHWA

Proposed Rule Stage

If the FHWA determines as a result of the rulemaking proceedings that it is not in the public interest to issue a rule that requires training for all entry-level drivers, the FHWA must submit a report to Congress by January 18, 1994, on the reason for the decision, together with the results of a cost-benefit analysis conducted as part of the rulemaking proceedings.

2461. VIOLATIONS OF OUT-OF-SERVICE ORDERS—CDL DISQUALIFICATIONS

Significance: Nonsignificant

Legal Authority: PL 102-240, sec 4009(c); Intermodal Surface Transportation Efficiency Act (ISTEA)

CFR Citation: 49 CFR 383; 49 CFR 391.15; 49 CFR 390

Legal Deadline: Final, Statutory, December 18, 1992.

Abstract: The action would establish the sanctions and penalties for drivers violating out-of-service orders. Drivers convicted of violating an out-of-service order for the first time would be disqualified for at least 90 days; for convictions of subsequent violations of an out-of-service order, the driver would be disqualified for a period of five years. An employer who knowingly permits or requires a driver to violate an out-of-service order would be subject to a civil penalty. Civil penalties would also be prescribed for employees who are convicted of violating an out-of-service order.

CFR Citation: 49 CFR 385

Legal Deadline: Other, Statutory, January 1, 1991. Statutory prohibition became effective January 1, 1991.

Abstract: This action will amend the Federal Motor Carrier Safety Regulations to implement provisions of the Motor Carrier Safety Act of 1990 (section 15 of PL 101-500). This enactment prohibits a motor carrier that receives an "unsatisfactory" safety rating from operating commercial motor vehicles to transport hazardous materials in quantities for which vehicle placarding is required or to transport more than 15 passengers, including the driver. The prohibition is effective 45 days after receipt of an unsatisfactory rating and remains in effect until a satisfactory rating is secured. This action is considered significant because of substantial public and congressional interest.

CFR Citation: 49 CFR 390.5, 49 CFR 392.71; 49 CFR 1.48

Legal Deadline: NPRM, Statutory, January 15, 1992.

Abstract: This action would ban radar detectors from all commercial vehicles as defined in the Federal Motor Carrier Safety Regulations in 49 CFR 390. The proposal responds to the Congressional mandate in section 342 of PL 102-143 and to a petition filed jointly on July 18, 1990, by the Insurance Institute for Highway Safety and seven other organizations. FHWA is considering whether such a ban would further highway safety by enhancing commercial motor vehicle driver compliance with speed laws. This action is considered significant because of anticipated substantial public interest and controversy involving the use of radar detectors.

CFR Citation: 49 CFR 397

Legal Deadline: Final, Statutory, May 16, 1992.

Abstract: Currently, except for certain radioactive materials, DOT has not promulgated uniform, national standards for the highway routing of hazardous materials. The proposal would establish such standards and provide guidance to States and localities to minimize the promulgation of State and local routing requirements that are inconsistent with the Hazardous Materials Transportation Act. This rulemaking is significant because of the safety implications and possible federalism implications. The Hazardous Materials Uniform Safety Act of 1990 amended the HMTA to require the Secretary to issue Federal standards for highway routing.

Significance: Agency Priority

Legal Authority: PL 102-240, sec 1029; Intermodal Surface Trans. Efficiency Act of 1991 (ISTEA)

CFR Citation: 23 CFR 659

Legal Deadline: NPRM, Statutory, December 18, 1992. Final, Statutory, February 18, 1993.

Abstract: As a result of section 1029 of ISTEA, speed compliance and enforcement data will have to be collected on highways with speed limits up to 65 mph, in addition to data currently being collected on 55 mph highways. New regulations will be issued that ensure uniform monitoring programs by States, so that reliable data is submitted for use by the Secretary in determining compliance by each State with the speed limits. A compliance formula must be included, which takes into account the amount by which speed limits are exceeded, and differentiates between types of road on which the violations occur. Enforcement efforts and accident information must be considered in development of the compliance formula. This action is considered significant because of substantial public, State, and congressional interest.

Abstract: In response to the President's memorandum of January 28, 1992, "Reducing the Burden of Government Regulation," the FHWA, as lead agency for implementing the Uniform Act, proposes several amendments to the governmentwide rule implementing the Uniform Act. The amendments would enhance the relocation benefits available to displaced businesses and replace the language in Subpart G, relating to the application for certification, with a simplified provision. Also a proposed technical amendment would conform the language of one paragraph to the two statutes cited therein. The monetary relocation assistance benefits provided in the regulation are primarily established by the Uniform Act. This action is significant because of substantial public interest.

Abstract: This rulemaking action responds to a petition filed by the American Diabetes Association (ADA) and others. The current diabetic rule prohibits insulin-using diabetics from driving in interstate or foreign commerce. The ADA has petitioned to change the regulation to provide for exemptions. The purpose of this action is to consider the proposed exemption program. An NPRM requested comments on the development of medical evaluation procedures and risk assessment procedures for insulin-dependent diabetics. The FHWA published a Notice of Intent to issue waivers: Request for comments. Docket No. MC-87-17. This action proposed a pilot project to gather empirical data which will be used as the basis for future rulemaking.

Abstract: The Federal Highway Administration (FHWA) requested comments on a proposed amendment to the design standards which apply to interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards--Interstate System, AASHTO 1991" would be substituted for the previous version of these standards last revised June 20, 1967. If the Federal Highway Administration (FHWA) adopts the 1991 document, the new AASHTO publication would constitute the FHWA's policy on geometric design for all federally assisted construction and reconstruction projects on the interstate highway system.

Significance: Nonsignificant

Legal Authority: 49 USC app 2509; 49 USC 3102

Abstract: This action would amend the periodic inspection requirements for commercial motor vehicles contained in 49 CFR part 396. The periodic inspection final rule was published on December 7, 1988, at 53 FR 49402, and amended on December 8, 1989, at 54 FR 50722. The December 8, 1989, amendment included a request for comments. In response to the comments received and requests for interpretations from the industry, the FHWA has determined that the rule should be amended to clarify the requirements for periodic inspection decals; evidence of the inspector's qualifications; the response time for a motor carrier to transmit a copy of a self-inspection report to an authorized Federal, State or local enforcement official; identity of the motor carrier or other entity offering a vehicle for inspection; and documentation of a State periodic inspection, including proof of inspection on vehicles. The FHWA would also propose to amend the inspection criteria to make the requirements of appendix G to subchapter B consistent with part 393 and the North American Uniform Vehicle Out-of-Service Criteria. These proposed amendments concern inspection standards for brake (cont)

Significance: Nonsignificant

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 393

Legal Deadline: None

Abstract: By an Interim Final Rule published on 11/24/89, the FHWA amended 49 CFR 393, Parts and Accessories Necessary for Safe Operation, of the Federal Motor Carrier Safety Regulations (FMCSRs). The amendment allows Mexican motor carriers operating commercial motor vehicles in border commercial zones time to comply with the requirement that every commercial motor vehicle be equipped with brakes acting on all wheels. This action will facilitate the flow of trade and traffic between the two countries without interruption. The FHWA also removed the exception (paragraph (b)) from 393.1 which deferred application of part 393 to certain Mexican commercial motor vehicles until November 18, 1989. In this Interim Final Rule the FHWA requested comments on all issues addressed and expects to proceed to final action.

Abstract: To reconcile the training needs of the motor carrier industry with the requirements of the Commercial Driver's License (CDL) program and the Commercial Motor Vehicle Safety Act of 1989, the FHWA is proposing additional minimum Federal standards for State-issued learner's permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Among the alternatives under consideration: Applicants for Commercial Driver Instruction Permits (CDIPs) might need to possess drivers' licenses and undergo record checks analogous to those now required for CDLs; CDIP transactions might be entered in the Commercial Driver's License Information System (CDLIS); and CDIP holders might be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, the FHWA is proposing options that would allow a State to issue a CDIP to a driver trainee, or a 90-day CDL to a trained driver, without regard to his/her State of domicile.

Legal Deadline: Other, Statutory, January 17, 1992.
Section 1073 requires that this rulemaking commence within 30 days of enactment of the ISTEA.

Abstract: The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) requires the Secretary of Transportation to initiate a rulemaking proceeding to revise the guidelines and establish standards for the installation of roadside barriers and other safety appurtenances, including longitudinal barriers, end terminals, and crash cushions, that provide an enhanced level of crashworthy performance to accommodate vans, minivans, pickup trucks, and 4-wheel-drive vehicles.

Legal Authority: 49 USC 1801 et seq; PL 101-615

CFR Citation: 49 CFR 397; 49 CFR 1.48

Legal Deadline: Final, Statutory, May 16, 1992.

Abstract: The FHWA is incorporating, without substantive change, the preemption determination and waiver of preemption procedures currently contained in the Research and Special Programs Administration's (RSPA) regulation 49 CFR 107.201-107.227 into the FHWA's regulation at 49 CFR 397, Subpart E. This final rule also incorporates, without substantive change, the routing requirements for radioactive materials currently contained in RSPA's regulation 49 CFR 177.825 into FHWA's regulation 49 CFR 397, Subpart D. This final rule is necessary due to a redelegation of authority of highway routing from RSPA to FHWA.

Significance: Agency Priority

Legal Authority: 49 USC app 2505; 49 USC 3102

CFR Citation: 49 CFR 392; 49 CFR 395; 49 CFR 1.48

Legal Deadline: None

Abstract: The Federal Highway Administration (FHWA) proposes to amend a portion of the hours of service regulations for commercial motor vehicle drivers. This rulemaking would have permitted the on-duty-time limitation of 60 hours in 7 consecutive days or 70 hours in 8 consecutive days to begin anew after the driver had an off-duty "recovery period" of 24 consecutive hours or more. The proposal was withdrawn due to lack of adequate information as to sufficiency of the 24-hour recovery period, alternative on-duty/off-duty schedules, and relationship of the off-duty period to over-the-road driving exposure.

Abstract: This action eliminated the requirement that motor carriers submit accident reports to the FHWA and notify the FHWA of fatal accidents as currently required by 49 CFR 394. Instead, the FHWA, in cooperation with the States, implemented a new accident reporting system based on State-required police reports, which will be electronically transmitted from the States to the FHWA through the SAFETYNET accident reporting system. Motor carriers are required to keep certain information on file regarding accidents and make that information available to an authorized representative or special agent of the Federal Highway Administration upon request or inquiry.

Significance: Nonsignificant

Legal Authority: 23 USC 127; 23 USC 315; 49 USC app 2311 to 2313; 49 USC app 2316

CFR Citation: 23 CFR 658

Legal Deadline: None

Abstract: This rulemaking proposes to designate as specialized equipment van-type, drop-frame beverage semitrailers whose length, when equipped with an upper coupler plate that extends in front of the semitrailer, exceeds 28 feet, as illustrated in the appendix to the preamble. The resulting configuration would be subject to certain limitations in that the kingpin may not be mounted more than 28 feet from the rear of the semitrailer, exclusive of rear-mounted devices not measured in determining semitrailer length, and the upper coupler may not extend beyond the semitrailer's swing radius (measured from the center line of the kingpin to the front corner of the semitrailer). The rule would prevent States from imposing an overall length limit on such vehicles operating in semitrailer or double-trailer combinations and would guarantee tractor-semitrailer combinations of such vehicles the same access to points of loading and unloading as "pup" semitrailers in 23 CFR 658.19(a).

Abstract: North American Transportation Consultants (NATC), on behalf of explosive carriers, sought an amendment to the FHWA dromedary box regulations. The NATC requested that truck tractors equipped with dromedary boxes designed for the transportation of class A or B explosives, when empty or carrying such explosives, be subject to Federal rather than State length limits when in combination with semitrailers operating on the National Network. Under existing regulation, truck tractors equipped with dromedary boxes, decks, or plates may operate on the National Network with semitrailer lengths authorized under the Surface Transportation Assistance Act of 1982 (STAA) only if the dromedary equipment was installed on the trailer by December 1, 1982.

The petition was denied because FHWA concluded there were insufficient bases for changing the current rules, the States could address the problem identified by NACT, and Federal action was not required absent a national emergency.

Abstract: This action determined the procedures necessary for implementation of section 1054 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), which provides for a temporary waiver of State matching funds requirements. Section 1054 of the ISTEA allows a State to request an increase in the Federal share of the construction costs of a qualifying Federal-aid highway project, based on certification by a State's governor that sufficient funds are not available to pay costs of the non-Federal share. A State may receive up to 100 percent of Federal funds on a project for a period through September 30, 1993. Should the State fail to make timely reimbursement, 50

Abstract: This standard requires the provision of automatic occupant protection in the front outboard seats of passenger cars after September 1, 1989. Air bags and automatic safety seat belts are being installed to meet the standard. The agency will analyze the actual road experience of vehicles equipped with automatic occupant protection to measure the reduction of fatalities and injuries, observe operational performance, and assess public acceptance and costs. The regulation was selected for review because of its costs, potential benefits, and public interest; this review is considered significant because of substantial public interest.

Abstract: This notice proposes to implement the penalty provisions contained in section 153 of Title 23, USC, Intermodal Surface Transportation Efficiency Act of 1991. That section provides that a State that fails to adopt and put into effect motorcycle helmet and safety belt use law before the first day of FY 1994 (October 1, 1993) is subject to a penalty of having the Secretary of Transportation transfer funds from that State's Federal-aid highway and highway safety construction type programs to that State's apportionment under the section 402 safety program. This proposed rule sets forth the criteria to be used to determine a State's compliance or non-compliance with the Act and proposes the mechanism by which the agency will inform States of their compliance status. 2501. RULEMAKING TO DELETE "DUE CARE" PROVISIONS FROM THE OCCUPANT CRASH PROTECTION STANDARD

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1401

CFR Citation: 49 CFR 571.208

Legal Deadline: None

Abstract: In 1986, NHTSA added a provision to Standard No. 208, Occupant Crash Protection, allowing vehicles that fail one or more of the injury criteria in the standard to still be considered as complying with the standard if the manufacturer could show it had exercised "due care" in the design and construction of the vehicle. The Motor Vehicle Safety Act requires all safety standards to be expressed in "objective terms." Further, the courts have held that compliance with safety standards must be determined by objective measurements and without recourse to any subjective determinations. The inherently subjective nature of a "due care" determination precludes the use of that concept as an aspect of compliance with the safety standards. Therefore, the "due care" provisions would be proposed to be deleted from the crash protection standard.

Abstract: The agency has granted a petition from the United States Army Tank Automotive Command (ATAC), to amend Federal Motor Vehicle Safety Standard No. 106, Brake Hoses, and Federal Motor Vehicle Safety Standard No. 116, Brake Fluids. ATAC requested that Standard No. 106 be amended to require brake hose compatibility with a fluid that includes DOT 5 characteristics and that Standard No. 116 be amended to require compatibility of DOT 3, DOT 4, and DOT 5 brake fluids with elastomeric seals and cups internal to hydraulic brake system master and wheel cylinders. The agency believes that the changes suggested by ATAC warrant further consideration.

Abstract: The agency has been petitioned to establish a new safety standard that would result in the use of thermal locking safety radiator caps. The purpose of the thermal locking radiator cap would be to prevent the accidental scalding of motorists and gas station attendants who hastily open the cap on a hot radiator of a motor vehicle. As an alternative to petition denial or grant, the agency is considering soliciting comments from the public and industry regarding the need for a new safety standard to address the issue of radiator cap scaldings. Action must be completed within 26 months of ANPRM publication.

Abstract: On October 30, 1990 (55 FR 45722), the agency amended standard 214 to amend the current side door strength requirements in passenger cars to add dynamic side impact protection requirements. The NHTSA Authorization Act of 1991 directed the agency to initiate rulemaking to extend these requirements to light trucks and vans having a GVWR of less than 10,000 lbs. In response to this statutory mandate, the ANPRM announced that the agency is considering the issuance of this proposal. This action is considered significant because of substantial public interest.

Abstract: Horkey and Associates petitioned to prohibit the use of emergency locking retractors, alleging they fail to provide adequate protection against occupant rebound in rear impact. The petition was granted, as was a related one from Environmental Research and Safety Technologists. (See RIN 2127-AD08.) A subsequent NHTSA request for comments concerned recent agency analyses and a proposed research plan as to seatback performance in rear impacts.

Significance: Nonsignificant

Legal Authority: 15 USC 1407; 15 USC 1410

CFR Citation: 49 CFR 552; 49 CFR 571

Legal Deadline: None

Abstract: The California Highway Patrol (CHP) petitioned the agency to specify requirements in FMVSS No. 301 to reduce fuel spills from the fuel tank or fuel lines on heavy trucks and truck tractors over 10,000 pounds. The fuel spills, according to the CHP, are due to damage caused by road debris. The petition was granted pending the results of the forthcoming investigation of fuel-tank fires in over-the-road trucks, on which research is presently underway.

Abstract: Accidents involving heavy trucks have a higher fatality rate than all other motor vehicles. This rulemaking proposes to reinstate stopping distance performance requirements in Standard 121 so as to help improve heavy vehicle braking

performance and hence reduce the number of accidents involving these vehicles. Although a court decision found that Standard 121, as it then existed, was unenforceable, additional accident data and technical review have persuaded NHTSA that the court's requirements can now be met.

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, a second NPRM was issued.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: On January 8, 1981 (46 FR 2136) the agency published a notice of proposed rulemaking on rear underride crashes relative to small vehicles colliding with the rear of a heavy vehicle (a vehicle with a gross vehicle weight rating (GVWR) greater than 10,000 pounds). Rear underride occurs when the front of the smaller vehicle slides under ("underrides") the rear end of the larger vehicle. The agency received over 100 comments on the proposal, some of which raised issues about possible alternatives to the proposal and about the burdens of the proposal on small businesses. The SNPRM sought to retain the safety benefits of the earlier proposal while meeting the concerns about potential small business impacts. This rulemaking is considered significant because of substantial public interest.

Abstract: The ANPRM proposed rulemaking concerning the possibility of proposing special fuel integrity requirements for vehicles using compressed natural gas (CNG) and liquefied petroleum gas (LPG). The NPRM proposed to establish a new standard specifying performance requirements for CNG fuel tanks and vehicles using CNG as a fuel. NHTSA also requested comment on whether vehicles using LPG as a fuel should be subject to similar requirements, and whether the proposed requirements for CNG vehicles should be applicable to all vehicles designed to be powered by a gaseous fuel, such as liquefied natural gas or hydrogen. This action is considered significant because of substantial public and congressional interest.

Legal Authority: 15 USC 1392; 15 USC 1497

CFR Citation: 49 CFR 571.208

Legal Deadline: Final, Statutory, September 1, 1993.

Abstract: The NHTSA Authorization Act of 1991 directs the agency to initiate rulemaking to amend the automatic occupant protection requirements of standard 208 by mandating the installation of air bags. The Act requires that all passenger cars be equipped with air bags at the front outboard seating positions by September 1, 1997, and that all light trucks and vans be so equipped by September 1, 1998. The agency published a proposal to amend the standard requirements to conform to this statutory directive. This action is considered significant because of substantial public interest.

CFR Citation: 49 CFR 571.105; 49 CFR 571.135

Legal Deadline: None

Abstract: This rulemaking to establish a new standard for passenger-car brake systems grew out of NHTSA's efforts to harmonize its standards with international ones. After review of comments to the NPRM and SNPRM, a second SNPRM proposed refined and revised test procedures and performance requirements which should achieve harmonization while being fully consistent with the National Traffic and Motor Vehicle Safety Act. The new standard 135 was to replace standard 105 as it applies to passenger cars. This action was originally considered significant, but subsequent events have resulted in fewer issues to be resolved, and this project is no longer considered as such.

Additional Information: A third SNPRM proposed to establish a new Standard No. 135 to replace Standard No. 105. This SNPRM responds to an ANPRM published December 27, 1991 (56 FR 67038) (RIN 2127-AE29) that asked for comments on the appropriateness of Standard No. 105 to braking systems of electric vehicles. However, upon consideration of comments received, NHTSA determined that any changes should be made to Standard 135 as well as existing Standard 105. Hence, both Standards are proposed to be revised to incorporate definitions and test conditions deemed appropriate.

Docket No. 85-06. RIN 2127-AC63, Passenger-Car Brake Systems, was consolidated into this proceeding.

Significance: Regulatory Program

Legal Authority: 15 USC 1392; 15 USC 1407; PL 101-500

CFR Citation: 49 CFR 571.108

Legal Deadline: NPRM, Statutory, February 3, 1991. Final, Statutory, November 3, 1992. Pursuant to the Sanitary Food Transportation Act of 1990.

Abstract: This action requires the improvement of conspicuity of commercial vehicles by establishing in FMVSS 108 performance requirements for the total lighting and marking system of commercial vehicles (excluding headlights). This rulemaking was considered significant because of substantial public and congressional interest. Related issues pertaining to the recently enacted Sanitary Food Transportation Act were incorporated into this rulemaking.

CFR Citation: 49 CFR 571.216

Legal Deadline: None

Abstract: On April 17, 1991, the agency published a final rule to extend its requirements to multipurpose passenger vehicles, trucks, and buses with a gross vehicle weight rating (GVWR) of 6,000 pounds or less (56 FR 15510, effective September 1, 1993). This action delays for one year the effective date of the final rule requirements for light trucks. The agency believes that this delay would ease the economic burden of this regulation on the manufacturers of these vehicles with a minimal impact on occupant safety. This action was considered significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 15 USC 1657; 15 USC 2002

CFR Citation: 49 CFR 531

Legal Deadline: None

Abstract: In response to an order of the U.S. Court of Appeals for the District of Columbia Circuit, the agency published a request for comment to reopen the rulemaking proceeding it commenced in 1988 to consider whether to reduce the corporate average fuel economy (CAFE) standard for model year (MY) 1990 passenger cars. This action was considered significant because of substantial public interest. However, after consideration of the court decision and public comments, it was determined not to amend the statutory standard and this proceeding was terminated.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 1.50; 49 CFR 571.214

Legal Deadline: None

Abstract: This action amended Standard 214 to clarify how the quasi-static door strength test procedure is to be conducted in case of several types of vehicles. During rulemaking that extended the quasi-static test requirements to trucks, buses, and multipurpose passenger vehicles with a gross vehicle weight rating of 10,000 pounds or less several issues were raised concerning the application of the current test procedure to certain types of vehicles. This action amended the standard to resolve these issues. This action addressed the positioning of the loading cylinder in testing four different types of doors: (1) a door whose lower edge is not at all points parallel to the sill; (2) a door whose lower or rear edge has molding; (3) double cargo doors; and (4) a door which does not have a window. This action is no longer classified significant, as it imposes no new performance requirements, but merely clarify existing ones.

Significance: Nonsignificant

Legal Authority: PL 100-562

CFR Citation: 49 CFR 591

Legal Deadline: None

Abstract: The partial final rulemaking action, in response to the original NPRM, requires that persons (other than original motor vehicle manufacturers who certify compliance with the safety standards) who wish to import nonconforming vehicles or equipment for research, investigation studies, demonstrations or training, or competitive racing events submit in advance of importation information supporting a request for admission and obtain a letter of permission from NHTSA. Upon further evaluation, the final action requires that importers required to furnish bonds upon importation of nonconforming vehicles be permitted, as an alternative to sureties, to furnish cash deposits or obligations. It would also allow importation of vehicles less than 25 years old for study under certain conditions.

Abstract: The agency amended the standard to require automatic brake adjustment indicators on all air-braked vehicles and adjustment indicators on air-braked vehicles with external adjustment mechanisms and to require automatic brake adjusters on vehicles with hydraulic brake systems. Rule does not require adjustment indicators on hydraulically-braked vehicles because there do not appear to be any significant problems with monitoring automatic brake adjusters on such vehicles.

Abstract: An investigation was conducted to see if the voltage to exterior truck body lights is adequate to produce the required illumination from the side marker, identification tail and brake lights as required in Standard 108, Lamps, Reflective Devices, and Associated Equipment. The present requirement tests at the voltage at which light flux is measured rather than at the voltage which actually occurs on vehicles, which is often less. The agency does not believe rulemaking is necessary at this time.

Abstract: In response to a petition for rulemaking, this action proposed an additional type of standardized replaceable light source to be used in replaceable bulb headlamp systems on motor vehicles. It incorporates a single filament, and would be known as Type HB6. However, with subsequent adoption of 49 CFR 564, establishing a replaceable light source informational docket, rulemaking is no longer required for new light sources in motor vehicles subject to safety standards. Manufacturers may now use new light sources after submitting required information to NHTSA for inclusion in the docket. As the information for the H7(HB6) light source has been placed in the docket, this action was terminated.

CFR Citation: 49 CFR 213

Legal Deadline: Final, Statutory, September 3, 1994.

Abstract: The track regulations have not been comprehensively reviewed in the past decade. This regulatory action will consist of a revision of existing track safety standards, as mandated by Congress in the Rail Safety Enforcement and Review Act of 1992 (PL 102-365). With this revision FRA will also respond to a Brotherhood of Maintenance of way petition regarding numerous changes to the existing track standards. FRA will also incorporate input from research on internal rail defects and continuous welded rail. This rulemaking is significant because of substantial public interest and safety implications.

Abstract: FRA proposes to amend the Railroad Operating Rules and Radio Standards and Procedures by removing requirements that railroads file operating rules, radio rules, and certain other documents with the Federal Railroad Administration and by substituting requirements that will enable the railroads to maintain records of such documents and make them available to FRA representatives during regular business hours. This action is considered significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: PL 100-342, Rail Safety Improvement Act of 1988; 45 USC 431(m)

CFR Citation: 49 CFR 218; 49 CFR 229

Legal Deadline: Final, Statutory, December 22, 1989.

Abstract: FRA is acting to improve the safety of railroad operations and to enhance the quality of information available for post-accident investigations by requiring event recorders on fast trains, by requiring that event recorders be effectively maintained, and by requiring that the data recorded by event recorders be preserved following a reportable accident.

This project is considered significant because of substantial public interest and safety concerns.

Deadline is for an interim final rule.

Abstract: FRA has been petitioned to reconsider several aspects of its final rule on locomotive engineer qualifications. Some technical changes requested in those petitions are warranted and the final rule will be amended to resolve these issues. Significance: Agency Priority

Legal Authority: 45 USC 431; 45 USC 438; PL 100-342

CFR Citation: 49 CFR 218

Legal Deadline: None

Abstract: FRA regulations prescribe minimum requirements for certain railroad operating rules and practices, including blue signal protection of railroad employees engaged in the inspection, testing, repair and servicing of rolling equipment. Such activities may require employees to work on, under, or between such equipment and subject them to the danger of personal injury posed by any movement of such equipment. Train and yard crews are excluded from blue signal protection, unless assigned to perform such work on railroad rolling equipment that is not part of the train or yard movement and that they have been called to operate. FRA proposes to restate the exclusionary language to accommodate augmentation of a crew by using a "utility" employee which will permit increased efficient use of employees by the railroads. Alternative safety procedures are proposed to prevent injury. This action is considered significant because of substantial public interest for safety of railroad employees.

Significance: Agency Priority

Legal Authority: PL 102-533, Amtrak Authorization and Development Act

CFR Citation: 49 CFR 229

Legal Deadline: Other, Statutory, December 31, 1992.
Deadline is for an interim final rule.

Abstract: This interim final rule would identify several auxiliary external lighting arrangements as acceptable interim locomotive conspicuity measures. This rule would encourage the installation and use of such lighting arrangements as are now widely used and available. Lighting devices installed in conformance to acceptable current practice will not be immediately rendered obsolete when FRA issues final standards in this area. This rule will help alert motorists and pedestrians of an approaching train, thus reducing the number of accidents that occur at points where highways cross railroad tracks. This action is considered significant because of substantial congressional and public interest in promoting rail safety.

Abstract: Section 303 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 directed the agency to issue guidelines for evaluating cost-effectiveness and local financial commitments in developing new fixed guideway projects. However, section 3010 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) directs the agency, in its evaluation of new fixed guideway projects, to consider a number of matters in addition to cost-effectiveness and local financial commitment--specifically, costs related to congestion, improved mobility, air and noise pollution, and energy consumption, and the degree to which a project may promote economic development and serve the needs of transit dependent population. Thus, the agency has withdrawn its April 25, 1989 NPRM and will prepare a new NPRM that responds to the directive of ISTEA section 3010. This rulemaking is considered significant because of substantial public interest.

2634. TRANSPORTATION FOR THE ELDERLY AND PERSONS WITH DISABILITIES

Significance: Nonsignificant

Legal Authority: 49 USC app 1612(b)(2)

CFR Citation: 49 CFR 609

Legal Deadline: None

Abstract: The regulation sets forth requirements regarding transportation for the elderly and persons with disabilities mandated by section 16 of the Federal Transit Act, as amended. The ADA and DOT's implementing regulations supersede many provisions of part 609. The Federal Transit Administration will revise part 609 to acknowledge new ADA provisions and to update continuing provisions emanating from the Federal Transit Act.

Additional Information: Section 12(h) of the FT Act, as amended, defines a "new bus model" as a bus model which has not been used in mass transportation service in the United States before the date of production of such model, or a bus model which has been used in such service, but which is being produced with a major change in configuration or components. A third interim final rule, published on 07/28/92, added two new categories of buses required to be tested. On 10/13/92 FTA published a notice postponing the application of the interim final rule for these vehicle types until 02/10/93. A January 7, 1993, notice reopened the comment period on this interim final rule until January 29, 1993.

Significance: Nonsignificant

Legal Authority: PL 102-240, sec 1048

CFR Citation: 49 CFR 661

Legal Deadline: Final, Statutory, May 30, 1992.

Abstract: The Intermodal Surface Transportation Efficiency Act of 1991 amended section 165(a) of the Surface Transportation Assistance Act of 1982 (23 USC 101 note) by adding "iron" to the list of products subject to "Buy America" provisions. The Federal Transit Administration's "Buy America" regulations are being amended to include this new statutory provision.

Significance: Nonsignificant

Legal Authority: 49 USC 1377; 49 USC 1441

CFR Citation: 14 CFR 241

Legal Deadline: None

Abstract: Historically, the source document for the Passenger Origin-Destination Survey was the auditor's coupon of the ticket. Until recently, these coupons provided all the information that was needed for the Survey. In the last few years, the carriers have begun using trip passes in conjunction with the tickets, thereby eliminating some of the data that is required to be reported in the Survey. Other innovations used by the industry, such as funnel flights and code-sharing, have impacted the Survey and obscured some of the data that is required to be reported, such as change of planes and junction points. This rulemaking will explore whether there are alternative sources for the data and modernize the collection system to keep pace with the industry.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.
Deadline pertains to pipe inventory and State agency information.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of congressional and State concerns about the need for appropriate public officials to have pipeline information.

Abstract: Currently commuter air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other schedule provides the origination and destination for each carrier's on-line passengers. The Department has installed a new traffic and market data system for certificated and foreign air carriers called the T-100 system. This system could be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Nonsignificant

Legal Authority: 49 USC 2002; PL 102-508, Sec 206

CFR Citation: 49 CFR 195

Abstract: The Federal pipeline safety standards governing hazardous liquid pipelines do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe. When the standards were issued in 1969, these pipelines were thought not to pose an unreasonable risk to public safety because of their low operating stress levels. Since then, however, a number of accidents have been reported on low stress level pipelines, particularly involving harm to the environment. This rulemaking action would extend the Federal safety standards to cover these low stress level pipelines (except gathering lines) where warranted.

Abstract: This action proposes to revise the Hazardous Materials Regulations to permit the use of certain portable tanks and IM (intermodal) portable tanks to transport certain hazardous materials that pose a relatively low or moderate hazard in container-on-flatcar (COFC) service by rail without obtaining prior approval from the Federal Railroad Administration. Based on comments to the ANPRM, earlier proposals to allow cargo tanks and multi-unit tank car tanks in trailer-on-flatcar (TOFC) service by rail without prior approval are not included in this action.

Significance: Nonsignificant

Legal Authority: PL 102-508, Sec 115

CFR Citation: 49 CFR 192

Legal Deadline: Final, Statutory, October 24, 1993.

Abstract: The gas pipeline safety standards do not require operators to maintain customer-owned lines that connect customer buildings or houses to operator-maintained lines. These customer-owned lines, often called "yard lines," are subject to the same safety problems as operator-maintained lines. This action would require operators who do not maintain yard lines to advise customers with such lines of the potential hazards of not maintaining the lines, and the requirements and resources available for maintenance.

2664. +HYDROSTATIC TESTING OF CERTAIN HAZARDOUS LIQUID PIPELINES

Significance: Regulatory Program

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines that are subject to part 195. This rulemaking is significant because of substantial public interest in the safety implications.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Adequate procedures for pipeline operation and maintenance, backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel.

Significance: Agency Priority

Legal Authority: 49 USC 1672(a); 49 USC 2002(e)

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid and carbon dioxide pipeline operators to provide damage prevention programs, and gas operators would have to expand their programs to cover rural areas. This is a significant action because of widespread interest in the use of "one-call" programs to prevent damage to buried pipelines. Where appropriate, operators would have to participate in "one-call" programs.

Legal Deadline: None

Abstract: This proposed action would amend the reporting requirements of 14 CFR 234 to require the on-time reporting performance of all flights, in response to an Inspector General's audit finding and recommendation, and to various industry comments. Under the current regulations, flights that are cancelled or late by 15 minutes or more because of a mechanical problem are not reported. The proposal would also require reporting of the aircraft tail number and wheels-up and wheels-down time for each flight. This data would be used, among other things, to reduce airport delays. This rulemaking is considered significant because it involves important Department policy concerning reporting of flight delays.

2676. DETERMINING THE EXTENT OF CORROSION ON EXPOSED GAS PIPELINES

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Significance: Nonsignificant

Legal Authority: 49 USC 1672; 49 USC 1804

CFR Citation: 49 CFR 192

Abstract: In a few reported instances, excessive amounts of hydrogen sulfide were introduced into natural gas pipelines. High concentrations of hydrogen sulfide are very detrimental to steel pipelines and extremely toxic. This action examined the need to establish a maximum allowable concentration and other control measures. Based upon public comments and the views of its gas pipeline advisory committee, RSPA has decided that the proposed rule is unnecessary to public safety

2679. LEAKAGE SURVEYS

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Many gas distribution operators look for signs of dying vegetation as a leak survey technique. This technique is not as effective as other available methods, and leaks have occurred in areas found safe by vegetation surveys. This action would require the use of alternative methods to meet the leak survey requirements, where appropriate, and clarify that leakage surveys must be conducted at least at 3-year minimum intervals on cathodically unprotected pipelines that are not electrically surveyed for corrosion.

Legal Authority: 49 USC 1804

CFR Citation: 49 CFR 172; 49 CFR 174 to 177

Legal Deadline: Final, Statutory, May 16, 1992.

Abstract: This rule established detailed training requirements for persons involved with the transportation of hazardous materials. Establishing more detailed training requirements should diminish the number of hazardous materials transportation incidents which can be attributed to human error. CFR Citation: 49 CFR 171 to 174; 49 CFR 176

Legal Deadline: None

Abstract: This rulemaking amends the Hazardous Materials Regulations (HMR) to list and regulate, in all modes of transportation, those materials identified as marine pollutants by the International Maritime Organization. The rule is necessary to implement annex III of the 1973 International Convention for the Prevention of Pollution from Ships, to increase the level of safety associated with the transportation of environmentally hazardous materials. The rule is significant because of substantial congressional and public interest. Annex III was effective for all parties to the treaty on July 1, 1992.

Significance: Agency Priority

Legal Authority: 49 USC 403

CFR Citation: 14 CFR 221

Legal Deadline: None

Abstract: This action proposed to accept electronic filing of passenger rules and cargo fares and rules required by 49 USC 403. Passenger fares are already filed electronically, and this action was to ensure that all tariff information is automated. This action was considered significant because it was intended to relieve regulatory burden. However, industry commenters, including representatives from major air carriers, computer reservation systems, and filing agents, expressed concern about the feasibility, costs, and benefits. Therefore, the NPRM was withdrawn to allow for reconsideration in light of industry comments. Should this issue be reinitiated, a new RIN will be assigned.

2699. +DETERMINATION OF FAIR AND REASONABLE GUIDELINE RATES FOR THE CARRIAGE OF BULK AND PACKAGED PREFERENCE CARGOES ON U.S.-FLAG COMMERCIAL VESSELS

Significance: Agency Priority

Legal Authority: 46 USC app 1114; 46 USC app 1241

CFR Citation: 46 CFR 382

Legal Deadline: None

Abstract: These regulations would amend the procedures for the calculation of guideline rates for certain preference cargoes carried in U.S.-flag vessels that have been in effect since January 1, 1990. Based on MARAD's experience gained in administering these regulations and observing their effect on the industry, MARAD is proposing to make amendments that are more equitable to the operator and that will improve the performance of the fair and reasonable guideline rates. This action is considered significant because of substantial public interest.

2701. AGENCY AGREEMENTS AND APPOINTMENT OF AGENTS

Significance: Nonsignificant

Legal Authority: 50 USC app 1744

CFR Citation: 46 CFR 315; 46 CFR 316

Legal Deadline: None

Abstract: The National Shipping Authority (NSA) within the Maritime Administration (MARAD) proposes to amend its regulations at 46 CFR part 315, concerning Agency Agreements, and incorporate therein provisions as revised, now found in parts 316, 319, and 331, which parts are being removed in other rulemakings. This rulemaking would formalize MARAD's existing policy and procedure for appointing general agents and administering agency agreements by including in the regulations pertinent information that is consistent with a revised Service Agreement and Application for Appointment as General Agent, that are being adopted by MARAD, and a Ship Manager Contract that has been adopted.

Significance: Nonsignificant

Legal Authority: 46 USC app 1114

CFR Citation: 46 CFR 340

Legal Deadline: None

Abstract: This revision would broaden the scope of the regulations to include chassis (a specialized trailer used in transporting a container) and chassis suppliers in the scheme of priority use and allocations of shipping services, containers and port facilities and services for national security and defense related operations to ensure that chassis are available for use by a defense agency in time of deployment of U.S. Armed Forces. The rule would be exempt from APA requirements of 5 USC 553(a)(1), since "a military or foreign affairs function of the United States" is involved.

Significance: Nonsignificant

Legal Authority: 46 USC app 1114; 46 USC app 1173

CFR Citation: 46 CFR 252

Legal Deadline: None

Abstract: This rule would modify the methodology and procedure MARAD uses for calculating and paying maintenance and repair (M&R) subsidy to operators of bulk cargo vessels that receive M&R subsidy under their ODS agreements. Payment is subject to findings by MARAD that M&R costs submitted by the subsidized operators are fair and reasonable and is subject to audit by the Department's Office of Inspector General. The amendment is intended to eliminate delay in determining final ODS payment for M&R expenses.

TREAS—FMS

Proposed Rule Stage

Abstract: This regulation revises collection and deposit regulations requiring timely methods for the collection and deposit of Federal funds. The revisions, authorized by the Cash Management Improvement Act of 1990, as amended, require executive agencies to use effective, efficient disbursement mechanisms in the delivery of payments. Noncompliance by agencies may result in a charge equal to the cost of noncompliance to the Treasury's General Fund. By implementing the Act, the amended regulations will ensure efficient and effective disbursements of funds. These regulations have as a goal the electronic disbursement of all Federal funds.

Significance: Agency Priority

Legal Authority: 31 USC 321; 31 USC 3322; 31 USC 3332

CFR Citation: 31 CFR 209

Abstract: The Financial Management Service is revising and clarifying 31 CFR Part 209. The Federal Government disburses payment by both check and Electronic Funds Transfer methods. This revision generalizes the regulation to show that financial institutions may receive payment on behalf of a Federal Government payment recipient by Electronic Funds Transfer or check. A nomenclature change is being made to change references to "check" to read "payment." This revision also reflects procedural changes for savings allotment for payment recipients who receive their payment by Direct Deposit. The intended effect of this notice is to clarify the meaning of the rule by revising the language to comply with current operating procedures. The regulation also has been amended to reflect gender neutral terms. In addition, the word "shall" is to be changed to "may" in 209.4(c) to give agencies the discretion to NOT issue Direct Deposit checks. This will make that part of the rule conform with the authorizing language.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291 entitled "Federal Regulation," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive order within the next 6 months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the Federal Register of October 1993.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Angela Shanks, Revenue Programs Division, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue NW., Washington, DC 20226, (202) 927-8230.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Dated: February 19, 1993.

Significance: Agency Priority

Legal Authority: 26 USC 7805

CFR Citation: 27 CFR 290

Legal Deadline: None

Abstract: ATF is proposing the recodification of 27 CFR part 290 in order to reduce recordkeeping and reporting requirements. This proposal will provide for the use of commercial records in lieu of U.S. Customs' supervision and certification. The elimination of the certification forms as well as other forms will also result from this proposal.

Abstract: This regulation will allow winemakers to use new wine treating materials and processes in the production, cellar treatment, and finishing of wine, if such materials and processes are found by the wine industry to be in accordance with "good commercial practice." No alternatives are being considered. No cost is associated with this action. This action will benefit winemakers by giving them more tools to produce quality wine and will benefit consumers by ensuring that more quality wine is available for purchase. This regulation will also allow a slightly more liberal alcohol label tolerance for wines under 7 percent alcohol by volume. This action is being taken because of the difficulty producers of the new light wine cooler products have in meeting the current alcohol label tolerance requirements. No other alternatives are being considered. No cost is associated with this action. This action will benefit producers of light wine cooler products by liberalizing alcohol label tolerance requirements which have been found to be too restrictive.

Abstract: ATF is proposing to amend the regulations in 27 CFR part 4 to permit the use of the phrases "fermented outside the bottle," "secondary fermentation outside the bottle," "not fermented in the bottle," or "not bottle fermented," as alternatives to "bulk process" to further describe sparkling wine produced by fermentation in a large closed container. The term "charmat method" may be used as additional information to describe this process, provided it appears immediately before or after one of the above mentioned phrases. In addition, ATF proposes to establish a clearer standard with respect to placement and type size requirements applicable to the optional designation on sparkling wine labels.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (OCC) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Regulatory actions taken since the publication of the OCC's previous semiannual agenda on November 3, 1992 (57 FR 51793), are also included. It is expected that this semiannual agenda will enable the public to be more aware of and allow it to more effectively participate in the OCC's regulatory activity.

ADDRESSES: The mailing address for all contacts: Office of the Comptroller of the Currency, 250 E Street SW., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda, contact John Ference, Financial Analyst, Legislative, Regulatory, and International Activities Division, (202) 874-5090.

For further information about a particular item on this semiannual agenda, contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: Set forth below are regulatory projects currently under review or scheduled for review. Some of these regulations may be issued jointly with other Federal Government agencies.

2759. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS (CONFLICTS OF INTEREST)

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 9.12

Legal Deadline: None

Abstract: This rulemaking would address the conflicts of interest created when a national bank is the trustee to an issue of debt securities and enters into additional banking relationships with the issuer, including, but not limited to, the following: securities underwriter, letter of credit enhancer, originator of loans to collateralize the debt securities, or a commercial credit provider. Such multiple roles may serve to reduce the quality of disinterested services provided to both issuers and investors and further expose the bank and the depositors to significant liabilities if investors or issuers suffer losses as a result of a bank trustee's failure to act in their best interests. To the extent possible, the OCC would like to ensure that national banks do not assume conflicting roles which may become unmanageable if the security goes into default.

Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 1828(Note); 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: Final, Statutory, June 19, 1993.

Abstract: Under section 305 of the Federal Deposit Insurance Corporation Improvement Act of 1991, Federal banking agencies must review their capital standards to ensure that those standards take adequate account of interest rate risk, concentration risk, and risks from nontraditional activities. National banks may become exposed to interest rate risk due to the composition of their asset, liability and off-balance sheet portfolios. This rulemaking will formulate a methodology to include an assessment of interest rate risk in the OCC's capital standards. In addition, this rulemaking will formulate standards to take into account concentration risk and risks from nontraditional activities.

2768. STANDARDS FOR SAFETY AND SOUNDNESS

Significance: Regulatory Program

Legal Authority: 12 USC 93a

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, August 1, 1993.

Abstract: This rulemaking would implement section 39 of the Federal Deposit Insurance Act, as added by section 132 of the Federal Deposit Insurance Corporation Improvement Act of 1991. Section 39 requires the OCC and other Federal banking agencies to prescribe certain safety and soundness standards for insured depository institutions and depository institution holding companies. Standards must be prescribed in three principal areas: (1) operational and managerial; (2) asset quality, earnings, and stock valuation; and (3) employee compensation. If an insured depository institution does not meet one of these standards, section 39 requires that the institution establish a plan, acceptable to its primary regulator, to achieve compliance with the standard.

VOL 58 ISS 78 AP 26 1993 UMI

Abstract: This rulemaking would revise the OCC's regulation implementing the Change in Bank Control Act. The revision would clarify certain recurring issues that have arisen under the Change in Bank Control Act and the existing regulation, and would implement section 205 of the Federal Deposit Insurance Corporation Improvement Act of 1991. The intent of the revision is to reduce unnecessary regulatory burden and cost on those persons required to comply with the Change in Bank Control Act by providing banks and proposed acquirors with a better understanding of: (a) when a notice under the Change in Bank Control Act is required; (b) what must be contained in the notice; and (c) the procedures associated with filing a required notice. Legal Authority: 12 USC 93a; 12 USC 161; 12 USC 1818; 12 USC 3907; 12 USC 3909

CFR Citation: 12 CFR 3

Legal Deadline: None

Abstract: This proposed rule amends the capital treatment of deferred tax assets by restricting the amount of deferred tax assets that a national bank may include in Tier 1 capital. This proposed rule is prompted by the recent change in instructions to the Consolidated Report of Condition and Income (Call Report), which generally permits national banks to report a greater amount of deferred tax assets in the Call Report. Because the Call Report is the basis for the calculation of regulatory capital, the reporting change also automatically increased the amount of deferred tax assets that could be included in capital. This proposed rule is intended to somewhat limit that effect. However, while this proposed amendment technically would restrict the amount of deferred tax assets that could be included in Tier 1 capital, the overall effect of this change, when considered in conjunction with the changed Call Report instructions, generally is to permit more deferred tax assets to be included in capital.

CFR Citation: 12 CFR 24; 12 CFR 7.7480

Legal Deadline: None

Abstract: This rulemaking would implement section 6 of the Depository Institutions Disaster Relief Act of 1992 which clarified national bank authority to make investments in community development corporations (CDCs) and community development projects (CD projects). The proposal would allow national banks, under certain conditions, to increase the amount of their aggregate and per project investments in CDCs and CD projects above current investment limits, with OCC approval. The rule would also permit national banks to make certain CDC and CD project investments without prior OCC approval by providing a brief self-certification of compliance with the rule. The rulemaking is intended to promote economic growth by enabling national banks to increase CDC and CD project investments to low- and moderate-income housing and small businesses, particularly in low- and moderate-income areas. Small banks without supervisory problems could make project or aggregate investments up to 5 percent of capital and surplus without OCC prior approval, if the structures and activities planned are included in those listed in the rule.

Some national banks currently must maintain duplicative information under both the FHHLDS and the Home Mortgage Disclosure Act (HMDA). 2781. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS

Significance: Agency Priority

Legal Authority: 12 USC 92a; 12 USC 93a; 12 USC 481

CFR Citation: 12 CFR 9.18

Legal Deadline: None

Abstract: This rulemaking would amend OCC's regulations governing the exercise of fiduciary powers by national banks. The intent of the amendment is twofold: First, it would codify recent court decisions regarding collective Individual Retirement Account (IRA) funds; and second, it would make less burdensome the requirements of 12 CFR 9.18, regarding the management of collective investment funds by institutions exercising fiduciary powers. Further, the rulemaking would preserve appropriate protections for trusts and persons with interests therein. In addition to codifying court decisions that national banks are authorized to establish collective IRA funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940, the rulemaking would codify administrative decisions that national banks are authorized to establish registered collective funds whose assets consist of Keogh accounts or any other retirement accounts authorized under section 401 and 408 of the Internal Revenue Code (26 USC 401 and 408). The rulemaking would streamline the process for the review of new types of funds, clarify the authorization for (cont)

Legal Authority: 12 USC 1 et seq; 12 USC 93a

CFR Citation: 12 CFR 5; 12 CFR 16

Legal Deadline: None

Abstract: This rulemaking would amend the OCC's disclosure requirements for offers and sales of national bank securities. The OCC is considering eliminating regulations detailing the contents of offering documents covering national bank securities and instead requiring that offering documents contain the information that would be required by the appropriate Securities and Exchange Commission (SEC) form for registration. The OCC also is considering cross-referencing certain definitions and exemptions in the Securities Act of 1933 as well as a number of SEC rules.

Legal Authority: 12 USC 24; 12 USC 92a; 12 USC 93a

CFR Citation: 12 CFR 12

Legal Deadline: None

Abstract: This rulemaking would amend OCC's recordkeeping and confirmation requirements for securities transactions undertaken by a national bank for its customers. It would broaden an exemption from requirements that banks maintain certain records and establish certain policies and procedures. The exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year, exclusive of transactions in U.S. Government and Federal agency obligations. This action would reduce the regulatory burden on banks of all sizes that engage in a low number of securities transactions per year. With respect to transactions, as agent, in U.S. Government and Federal agency obligations, the amendment would make the OCC's recordkeeping and confirmation requirements consistent with requirements under the Government Securities Act of 1986 (GSA), which governs Government securities brokers and dealers. The effect of the amendment with respect to transactions, as agent, in U.S. Government and Federal agency obligations, would (cont)

Legal Deadline: None

Abstract: The OCC, as part of an interagency task force, has designed a uniform multi-agency criminal referral form. The form will facilitate financial institutions' compliance with criminal activity reporting requirements, and will enhance law enforcement agencies' ability to investigate the matters reported in the criminal referrals. The information from the form will also be entered into a new interagency data base which will enhance the regulatory and law enforcement agencies' ability to track criminal and administrative cases. This uniform criminal referral form is intended to replace the various criminal referral forms currently used by Federal bank, thrift, and credit union regulatory agencies and by financial institutions. This rulemaking would conform OCC's regulations to the new procedures for completion and submission of the uniform criminal referral form. This action is intended to improve reporting of crimes relating to financial institutions and to serve as a basis for a new interagency computer data base.

2801. RECEIVERSHIP

Legal Authority: 12 USC 1 et seq; 12 USC 93a

CFR Citation: 12 CFR 5.49

Legal Deadline: None

Abstract: This rulemaking would remove the OCC's regulation regarding receivership and containing factors for determining insolvency. Section 133 of the Federal Deposit Insurance Corporation Improvement Act of 1991 provides the OCC, and the other Federal banking agencies, with uniform grounds for appointing either a conservator or a receiver. In light of the statute, the OCC no longer is required to make this "insolvency" determination; and the receivership regulation is not necessary.

Semiannual Agenda

AGENCY: U.S. Customs Service, Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Public Law 96-354, the "Regulatory Flexibility Act," and Executive Order 12291 "Federal Regulation," Customs is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "Agency Contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The projects listed below are not considered to be "major" regulations within the meaning of E.O. 12291 and will not have a significant economic impact on small entities within the meaning of the Regulatory Flexibility Act.

VOL 58 ISS 78 AP 26 1993 UMI

TREAS—CUSTOMS

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). When appropriate, additional specific statutory authority is indicated as the legal authority for the project.

Dated: February 24, 1993.

John B. O'Loughlin,

Acting Assistant Commissioner, Office of Commercial Operations.

Significance: Regulatory Program

Legal Authority: 19 USC 1584; 19 USC 1594; 19 USC 1595a; 21 USC 960; 21 USC 961; PL 99-570

CFR Citation: 19 CFR 162

Legal Deadline: Final, Statutory, February 17, 1989.
Required by 19 USC 1584 note.

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from April 1, 1993, through March 31, 1994. Determinations with respect to the agenda were made as of January 31, 1993. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Mike Slaughter, (202) 622-7190, not a toll-free call, Regulations Unit, Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Washington, DC 20044, Attention: CC:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in October of 1993.

Description

This semiannual agenda of regulations lists all projects within the Internal Revenue Service (IRS) as of January 31, 1993, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Field Service), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Criminal Tax), Assistant Chief Counsel (General Litigation), Associate Chief Counsel (Employee Benefits and Exempt Organizations), and Associate Chief Counsel (International) of the Office of Chief Counsel, IRS. The following information is provided for each regulation project: The title; priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Michael P. Dolan,

Acting Commissioner of Internal Revenue.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in regulations, sections 382(b)(3)(A) and (d)(1) of the Internal Revenue Code of 1986 provide that income or net operating loss for the taxable year that includes the change date is allocated ratably. Notice 87-79, 1987-2 C.B. 387, states that regulations will, in certain cases, provide taxpayers with an election to allocate income and loss between the periods ending with and after the change date on the basis of a closing of their books. This regulation project provides a closing of the books election, and in cases where the closing of the books election is not made, provides that (1) extraordinary pre-change items are allocated to the pre-change period to net extraordinary pre-change loss that would otherwise be ratably allocated if the post-change period exceeds a threshold and (2) extraordinary post-change items are similarly allocated.

Abstract: A tax matters partner (a "TMP") of a partnership must keep each partner informed of all administrative and judicial proceedings for the adjustment at the partnership level of partnership items. A TMP also may file a petition for readjustment, file an administrative adjustment, and extend the statute of limitations on behalf of all partners. A partnership may only designate a general partner as the TMP. If a partnership does not designate a TMP, a general partner will be designated as the TMP either by statute or by the Internal Revenue Service. If it is impractical to designate a general partner as the TMP, the Service will designate a limited partner as the TMP. Because a limited liability company does not have a general partner, a limited liability company cannot designate a TMP. Guidance is needed that will allow a limited liability company to designate a TMP.

Abstract: The regulation will provide guidance in obtaining the issuance of a certificate of release of a notice of Federal tax lien. The regulation will revise existing regulations relating to the size of the exemption from levy available for certain property. The proposed regulation also increases the length of post-sale redemption period currently specified in the regulations. The proposed regulations provide rules for service employees administering the Code for providing notice of intention to levy upon the property of a delinquent taxpayer. The proposed regulations increase the amount of damages allowed where property has been levied wrongfully.

2869. TO CLARIFY THAT THE SERVICE HAS AUTHORITY TO AMEND THE STANDARD INDUSTRY FARE LEVEL (SIFL) AIRCRAFT VALUATION FORMULA

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 61(a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Taxpayers want more timely publication of the Standard Industry Fare Level (SIFL) rates, preferably publication in the last quarter of the year before the year in which the rates will be applicable. Difficulties arising from the need to coordinate with the Department of Transportation which furnishes the rates make it virtually impossible to satisfy the request for timeliness under the current system. Therefore, the Service proposes to adopt a Cost of Living adjustment to be published in the last quarter of each year. The rate adjustment will be applied to a base SIFL rate. The Service believes that adopting a COLA adjustment will meet taxpayers needs for timely information and that it will significantly reduce the volume of telephone calls that the Service currently receives on this issue.

Abstract: In Section 11322(a) of Pub. L. 101-508, Congress amended section 305(c) of the Code to modify the treatment of preferred stock issued with a redemption premium. The amendment to section 305(c) applies the economic accrual rules that are applicable to debt instruments issued with OID to certain preferred stock issued with a redemption premium if the stock will be redeemed, or it can reasonably be assumed that the stock will be redeemed, on a fixed date. The regulations under 305(c) will be amended to provide for the economic accrual, rather than the ratable inclusion, of redemption premiums, in accordance of OID principles.

Legal Authority: 26 USC 337(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. It has been determined that GU repeal can be circumvented by conversion of for-profit corporations to tax-exempt entities and other transactions involving tax-exempt entities. This project will develop regulations to assure corporate gain or loss recognition in such transactions.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The income tax regulations under section 367(a) will be amended to reflect the changes made to that section by the Technical and Miscellaneous Corrections Act of 1988. Section 367(a)(5) now provides that a transfer of assets to a foreign corporation in an exchange described in section 361 is subject to section 367(a)(1) unless certain ownership requirements and other conditions are met. The regulations will provide guidance regarding the application of this section. The change in the statute was necessitated by the repeal of "General Utilities."

2912. SUSPENSION OF PARTNERSHIP INCOME AND EXPENSES ARISING FROM UNPAID GUARANTEED PAYMENTS ACCRUED BY CERTAIN PARTNERS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: These proposed regulations suspend the recognition of income and expenses if certain partners, such as loss corporations, accrue unpaid guaranteed payments. The partner's income as well as the partnership's expense will be recognized in the taxable year in which the partnership pays, with an unrestricted transfer of money, the accrued guaranteed payment. The proposed regulations prevent loss corporations, and other covered taxpayers not subject to U.S. tax, from structuring partnership guaranteed payment that diverts taxable income to the loss corporation or other non U.S. taxpayer which is greater than the ultimate economic benefit realized from the guaranteed payment.

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 23 CFR 1.382

Legal Deadline: None

Abstract: The section 382 segregation rules (S. 1.382-2T(j)(2)(iii)) divide groups of less than 5% shareholders into separate public groups following certain transactions. The proposed regulations exempt certain de minimis transfers of loss corporation stock from the application of the segregation rules. The proposed regulations also modify the segregation rules to apply only to a certain portion of the stock issued by the loss corporation for cash during the taxable year.

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (cont)

2963. TIERED PARTNERSHIP RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will address whether a foreign partner in a tiered partnership arrangement is engaged in a trade or business in the United States by virtue of membership in that tiered partnership where the second tier partnership meets the requirements of being in U.S. trade or business. The alternatives are 1) to conclude the foreign partner is engaged in U.S. trade or business because any member of the tiered partnership arrangements is; and 2) to conclude the foreign partner is not engaged in a U.S. trade of business where the first tier partnership is not so engaged. Other considerations include the meaning of "principal place of business" and whether an entity may have more than one, and attribution rules applicable to the entities. A problem with the second alternative is that it arguably gives priority to form over substance, however, there are several methods by which the first alternative could be avoided and their appears to be no policy reason to prefer one form of doing business over another. Furthermore, no additional tax would be collected by following alternative 1.

3004. CLARIFYING DELETION OF REQUIREMENT OF SECTION 1.1502-47(D)(12)(C) THAT IN APPLYING THE TACKING RULE, PROFIT LIFE ACTIVITIES NOT BE SEPARATED FROM LOSS LIFE ACTIVITIES

Legal Authority: 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.1502

Legal Deadline: None

Abstract: Section 1.1502-47(d)(12)(C) restricted the separation of profitable life activities from loss life activities to prevent the gaming that otherwise could occur under the "bottom-line" consolidation rule mandated by section 818(f) as in existence prior to the Enactment of the Tax Reform Act of 1984 (TRA 1984), Public Law 98-369. As a result of the new method of taxing life insurance companies enacted in the TRA 1984, the bottom-line consolidation abuse potential is eliminated, thus eliminating the need for section 1.1502-47(d)(12)(C). Removing this provision will remove an unnecessary restraint on transactions, and a potential device to voluntarily deconsolidate.

CFR Citation: 26 CFR 3406; 26 CFR 7805

Legal Deadline: None

Abstract: Under the regulations payors can pre-check the name/TIN combinations furnished by payees prior to their filing an information return and thereby carryout the purposes of section 3406 in obtaining correct TIN/name combinations. Accordingly, prior to filing an information return a payor may contact the Service concerning the TIN furnished by a payee. Upon receiving such an inquiry, the Service will advise the payor whether the name/TIN combination furnished matches the name/TIN combination contained in the Service's records. If the name/TIN combination does not match, then the payor has the opportunity to contact the payee for correction before filing the information return, thus reducing the likelihood of a notice to start backup withholding and of a penalty for filing an information return.

Abstract: Under section 6205(a)(1) of the Code if less than the correct amount of tax imposed under the FICA, the RRTA, or the income tax withholding provisions is paid with respect to any payment of wages or compensation, proper adjustments; with respect to both the tax and amount to be deducted, must be made without interest in such manner and in such times as the Secretary may by regulations prescribe. The proposed amendments would add language to clarify that an interest-free adjustment can be made in certain situations in which th error is ascertained before the appropriate return is filed. The proposed amendments are intended to apply only to situations in which no return was filed because the employer improperly failed to treat its workers as employees.

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a State has adopted a Federal law establishing a place for the filing of liens under a national filing system, the State is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not subject to any other Federal law establishing a national filing system.

3053. CLARIFICATION OF PERIOD DURING WHICH INTEREST IS ALLOWED WITH RESPECT TO CERTAIN OVERPAYMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Under section 6611(b)(1), if an overpayment is credited against an underpayment, interest on the overpayment runs from the date of the overpayment until the due date of the amount against which the credit is taken. Section 301.6611-1(h)(2)(v) of the regulations provides that in the case of a credit against assessed interest, the due date is the assessment of such interest. Section 301.6611-1(h)(2)(vi) of the regulations provides that in the case of a credit against an amount assessed as an additional amount, addition to the tax or assessable penalty, the due date is the date of assessment. A literal application of these regulations' provisions may give a taxpayer interest where none should be paid. The proposed regulations correct this problem by changing the due dates of interest and certain additions to the tax.

3057. USE OF FACSIMILE SIGNATURES BY INCOME TAX RETURN PREPARERS OF FORMS 1041, U.S. FIDUCIARY INCOME TAX RETURNS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses. If the purchaser does not respond within 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

Abstract: The existing language of the regulations under IRC section 7426 is ambiguous and confusing. It has been used in at least one court case as

support for the proposition that whenever the Service attempts to seize property of a delinquent taxpayer that is in the custody of a Government agency, regardless of the form of the seizure (i.e., service of a Notice of Levy or of a Request for Setoff), such a seizure is always a setoff, and any third party injured by such a seizure has no cause of action under IRC section 7426. This is not the Service's position. The regulations should be clarified to rectify this misinterpretation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 144 (a) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The proposal will clarify the information reporting requirements with respect to private activity bonds. Industrial development bonds must be publicly approved--failure to fulfill this requirement results in loss of tax exemption for the interest on these bonds. Issuers of student loan bonds, charitable use bonds and industrial development bonds are required to supply certain information to the Internal Revenue Service. Failure to comply with this requirement will result in the loss of tax exemption for the bond's interest.

3100. RECOVERY OF OVERPAYMENTS OF ARBITRAGE REBATE

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 148 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.148-13T

Legal Deadline: None

Abstract: Under section 148 of the 1986 Code, arbitrage rebate payments are not refundable. However, provision should be made for recovery of overpayments of rebate if the issuer establishes to the satisfaction of the Commissioner that: (1) the issuer paid an amount in excess of the determined rebatable arbitrage, (2) the excess was paid in error, and (3) recovery of the overpayment at the date first requested would not result in rebatable arbitrage as of such date.

Significance: Regulatory Program

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), thereby requiring corporations to recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. This project addresses issues related to the operating rules of sections 311, 331, 334, 336, and 337. Additional areas related to GU repeal, such as the scope of the repeal, will be addressed in a specific project.

3138. AMENDMENT OF THE INCOME TAX REGULATIONS UNDER SECTION 367 OF THE CODE (TRANSFERS TO FOREIGN CORPORATIONS) TO REFLECT SECTION 131 OF THE TAX REFORM ACT OF 1984 (P.L. 98-369)

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

3150. • TWENTY PERCENT WITHHOLDING ON ELIGIBLE ROLLOVER DISTRIBUTION

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 401 Internal Revenue Code of 1986; 26 USC 402 Internal Revenue Code of 1986; 26 USC 403 Internal Revenue Code of 1986; 26 USC 3405 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.401(a)(31); 26 CFR 1.402(c); 26 CFR 1.403(b); 26 CFR 31.3405(c)

Legal Deadline: None

Abstract: This project provides Temporary Income Tax Regulations relating to eligible rollover distributions from tax-qualified retirement plans and section 403(b) annuities. These regulations provide needed guidance reflecting the changes made by the Unemployment Compensation Amendments of 1992 (UCA). The UCA expanded the types of retirement plan distributions with regard to which income tax can be deferred by a rollover to an individual retirement account, another qualified plan, or section 403(b) annuity. The UCA also requires qualified pension plans and 403(b) annuities to provide a direct rollover option. Also, the UCA imposes mandatory 20 percent income tax withholding on any eligible rollover distribution that the employee does not elect to have transferred in a direct rollover.

3171. DISPOSITION OF AN INTEREST IN A NUCLEAR POWER PLANT

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.468A-6 (New); 26 CFR 1.468A-1(b) (Revision); 26 CFR 1.468A-3 (Revision); 26 CFR 1.468A-0(b) (Revision); 26 CFR 1.468A-5(a)

Legal Deadline: None

Abstract: Final regulations relating to Nuclear Decommissioning Funds did not include provisions for treatment upon disposition of an interest in a nuclear power plant. The proposed regulations will provide guidance to determine the tax consequences of such disposition on a Nuclear Decommissioning Fund and on taxpayers that establish such funds. In addition, the proposed regulations will make a number of needed changes and clarifications to the existing regulations that will aid in the administration and processing of requests for schedules of ruling amounts.

3189. PARTNERSHIP TERMINATION DISTRIBUTIONS

Significance: Agency Priority

Legal Authority: 26 USC 708 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.708-1

Legal Deadline: None

Abstract: In order to prevent the shifting of the tax consequences between partners with respect to pre-contribution gain or loss Congress amended section 704(c) of the Code in the Tax Reform Act of 1984 and again in the Revenue Reconciliation Act of 1989. Treasury believes that in order to fully implement the Congressional intent, the regulations under section 708(b)(1)(B) of the Code need to be amended to insure that the pre-contribution gain or loss is properly accounted for when a partnership liquidates and is reformed. Accordingly, it has been proposed that the regulations under section 708(b)(1)(B) be amended to insure that the pre-contribution gain or loss will be preserved in the liquidation reformation process.

Abstract: Proposed section 1.861-8(e) would provide new guidance regarding the allocation of charitable deductions to U.S. or foreign source income. A taxpayer would allocate such a deduction solely to U.S. source income if he designated the contribution for U.S. use and reasonably believed that it would be so used. He would allocate such a deduction solely to foreign source income if he knows or has reason to know that it would be used solely outside the United States or that it must necessarily be so used. In all other cases, he would ratably apportion such a deduction.

CFR Citation: 26 CFR 1; 26 CFR 301; 26 CFR 602

Legal Deadline: None

Abstract: The regulations will establish procedures for taxpayers by which they must notify the Service of a change in foreign tax liability for a taxable year for which they claimed the foreign tax credit. The regulations provide special rules for redetermining the taxpayer's United States tax liability when the dollar value of the foreign currency fluctuates between the time for which the foreign tax credit is originally claimed and the time for which the foreign tax credit is redetermined. In addition, the regulations set forth deadlines for compliance with the notification requirements.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 964 Internal Revenue Code of 1986; 26 USC 952 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations are proposed as part of Treasury's ongoing simplification efforts. The proposed regulations would modify the computation of earnings and profits (E&P) of foreign corporations by allowing taxpayers to account for inventory costs using capitalization methods used for financial accounting purposes rather than the uniform capitalization rules required by section 263A. The proposed regulations would also permit reliance on financial accounting conventions in computing depreciation for foreign corporations deriving less than 20% of gross income from U.S. sources and maintaining assets with tax bases not materially different from financial book bases. Use of these simplified rules may result in an accounting method change which would ordinarily require the filing of Form 3115 (Application for Change in Accounting Method). However, the proposed regulations waive this filing requirement if its conditions are met.

3233. USE OF PASSIVE ACTIVITY LOSS CARRYOVERS BY BANKRUPTCY ESTATES

Significance: Agency Priority

Legal Authority: 26 USC 1398(g)(8) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1398(g) which enumerated certain attributes of individual debtors that pass to the bankruptcy estate in cases under chapter 7 of or chapter 11 of the Bankruptcy Code was enacted in 1980. Section 1398(g)(8) provides that the Secretary can designate by regulation additional attributes that pass to the bankruptcy estate to the extent necessary or appropriate to carry out the purposes of section 1398. Section 469 which created passive activity losses was enacted in 1986. Passive activity losses are not attributes that are specifically enumerated in section 1398(g). This regulation addresses whether passive activity losses should be designated as an attribute that passes to the estate under section 1398(g). This regulation will provide guidance in an area of the law that is unclear.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 3406 Internal Revenue Code of 1986

CFR Citation: 26 CFR 31

Legal Deadline: None

Abstract: The regulations will provide that a tax equal to 20 percent of any reportable payment is required to be withheld if certain conditions exist. With respect to reportable interest or dividends, backup withholding applies if (1) no number is provided in the manner required, (2) the Service notifies the payor that the payee's taxpayer identification number is not correct, (3) the payee is subject to backup withholding due to a notified payee underreporting, and (4) the payee fails to certify when required that he or she is not subject to backup withholding due to notified payee underreporting. With respect to other reportable payments (such as rents, royalties, nonemployee compensation, broker transactions, or barter exchanges), backup withholding applies if (1) no taxpayer identification number is provided, or (2) the Service notifies the payor that the payee's taxpayer identification number is not correct.

Legal Deadline: None

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. It will also include rules for rounding the applicable interest rates. In addition, the regulations will modify the current regulations for gift, estate, and charitable transfers of annuity trusts, and unitrusts and pooled income funds.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; PL 100-647

CFR Citation: 26 CFR 301.7605-1 (a)

Legal Deadline: None

Abstract: The temporary regulations which are cross-referenced in this notice of proposed rulemaking provide guidance as to what is reasonable under the circumstances in the case-by-case determination as to the time and place of examination. The regulations balance the convenience of the taxpayer with the requirements of sound and efficient tax administration. The regulations provide that it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office other than the office located closest to the taxpayer's home in that district. They also provide that it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that so doing will eventually require the taxpayer to close the business.

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

Abstract: This project provides temporary regulations implementing statutory changes enacted by the Unemployment Compensation Amendments of 1992 (UCA). The UCA expands the types of pension distributions with regard to which income tax can be deferred by a rollover to an individual retirement account or annuity, another qualified plan or a section 403(b) plans to provide employees with a direct rollover option. Also, the UCA imposes a mandatory 20 percent income tax withholding upon any eligible rollover distribution that the employee does not elect to have paid in a direct rollover.

3310. TAXATION OF SETTLEMENT FUNDS

Significance: Agency Priority

Legal Authority: 26 USC 468B Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 1.468B

Legal Deadline: None

Abstract: If a liability requires payment to another person and arises out of tort, the obligor is permitted a deduction only as payments are made to such person. See IRC Section 461(h)(2)(c). The obligor is not permitted to accrue a deduction when it makes payment to a settlement fund; rather, it is permitted to accrue a deduction only as payments are made from the settlement fund to the person to which the liability is owed. IRC Section 468B provides that under certain limited circumstances a payment to a settlement fund in respect of tort liability is deductible by the obligor. The provision applies only to payments made to a designated settlement fund. The regulations will address the taxation of a designated settlement fund along with escrow accounts and other similar funds. Under prior law, income earned on amounts deposited in settlement funds were not subject to tax until distribution to the claimants. See Rev.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6045 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations in this project clarify the definition of the term "commodity" for purposes of broker reporting. Rules are provided for determining whether personal property (including gold and silver) is a commodity. Generally, the term "commodity" is defined as personal property that is deliverable in satisfaction of a regulated futures contract, certain specified personal property that the secretary determines is to be treated as a commodity or any form or quality of or any interest in such personal property. The term "commodity" does not include a security, regulated futures contract, forward contract, or a form of tangible personal property if the gross proceeds from its sale exceed by more than 15 percent its value as a commodity. The rules proposed include alternative methods (the "exact" and "approximate" methods) of tangible personal property valuation.

3329. EFFECT OF HONORING A LEVY

Legal Authority: 26 USC 6332 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6332-1(c)

Legal Deadline: None

Abstract: Section 1.6332-1(c) currently provides that any person in possession of or obligated with respect to property or rights to property subject to levy and upon which levy has been made who surrenders the property or rights to property, or discharges the obligation to the district director is discharged from any obligation or liability to the delinquent taxpayer. Section 1015(t) of Technical and Miscellaneous Revenue Act of 1988 amends Section 6332 of the Internal Revenue Code to provide that a person who honors a levy is protected from any obligation or liability to any other person as well as the delinquent taxpayer. This should cause a reduction in the number of interpleader actions filed because of concerns over liability to third parties.

3331. REQUIREMENT FOR GUARANTEED REMITTANCE TO REDEEM PROPERTY

Legal Authority: 26 USC 6337 Internal Revenue Code of 1986; 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301.6337

Legal Deadline: None

Abstract: To resolve any uncertainty as to how payments to redeem real property sold by the Internal Revenue Service after levy must be made. The present regulations do not state the form in which the redemption price is to be paid. Thus, controversy exists as to whether personal checks or other non-guaranteed forms of payment would be sufficient to constitute tender.

Legal Authority: 26 USC 7429 Internal Revenue Code of 1986 PL 100-647, Sec 6237; 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.7429

Legal Deadline: None

Abstract: Section 7429 currently provides for administrative and judicial review of jeopardy assessments, but these review procedures do not apply to jeopardy levies. The Technical and Miscellaneous Revenue Act of 1988, PL 100-647, Sec. 6237, extends the review procedures of Section 7429 to the review of jeopardy levies and provides concurrent jurisdiction to the Tax Court with Federal District courts with respect to actions challenging a jeopardy assessment or jeopardy levy, provided a Tax Court petition is filed prior to the making of the assessment or levy. The regulations incorporate the statutory amendments that modify IRC S. 7429 and in addition, extend review to include all jeopardy levy cases in which the general notice requirements of IRC S. 6331(a) and (d) are not met.

Significance: Agency Priority

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a

CFR Citation: 12 CFR 567

Legal Deadline: None

Abstract: The OTS has issued a notice of proposed rulemaking to amend its minimum regulatory capital regulations by revising the leverage ratio requirement that applies to savings associations to comport with the leverage ratio adopted by the Office of the Comptroller of the Currency.

This proposal was adopted pursuant to section 5(t) of the Home Owners' Loan Act, which requires that OTS promulgate capital standards that are uniformly applicable to all savings associations. 12 U.S.C. 1464(t).

The proposal establishes a 3.0% leverage ratio for savings associations in the strongest financial and managerial condition. All other savings associations would be required to maintain additional leverage capital of 100 to 200 basis points.

Significance: Agency Priority

Legal Authority: 12 USC 1467a; 12 USC 1817

CFR Citation: 12 CFR 574

Legal Deadline: None

Abstract: The OTS has proposed a revision to 12 CFR part 574 in order to implement section 914 of FIRREA. The proposal would add a section to part 574 which will require certain savings associations and savings and loan holding companies to file a notice with the OTS prior to adding or replacing a member of its board of directors, and prior to hiring a person in a position as a senior executive officer.

The OTS has the authority, pursuant to section 914 of FIRREA, to disapprove any potential board member or senior executive officer whose selection would not be in the best interest of the institution's depositors or the public.

Significance: Agency Priority

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a

CFR Citation: 12 CFR 567

Legal Deadline: Final, Statutory, June 19, 1993.

Abstract: As predecessor to the OTS, the Federal Home Loan Bank Board issued an advance supplemental notice of proposed rulemaking addressing interest rate risk generally. In December, 1990, the OTS issued an extensive notice of proposed rulemaking setting forth a description of methodologies to be used in calculating the interest rate risk component of the capital rule. A supplemental NPRM was issued in September 1992 seeking further comment on how to incorporate an interest rate risk component into the risk-based capital rule. The interest rate risk component is intended to ensure that savings associations maintain adequate capital based upon their level of interest rate risk exposure.

Pursuant to FDICIA, the rule must be adopted in final form by June 19, 1993.

3346. MERGERS AND OTHER COMBINATIONS OF SAVINGS ASSOCIATIONS

Significance: Agency Priority

VOL 58 ISS 78 AP 26 1993 UMI

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1468; 12 USC 1828; 12 USC 3806; 42 USC 4106

CFR Citation: 12 CFR 552; 12 CFR 563

Legal Deadline: Final, Statutory, March 18, 1992.

Abstract: The OTS has proposed amendments to its regulations governing mergers and other combinations involving Federal stock savings associations to implement sections 501 and 502 of FDICIA. In general, the FDICIA amendments to the insurance conversion provisions of the Federal Deposit Insurance Act and to the Savings and Loan Holding Company Act provisions of the Home Owners' Loan Act ease previous restrictions on conversion transactions to permit all insured depository institutions to merge, assume each other's deposits, and transfer assets to each other in exchange for assuming deposit liabilities, provided the applicable Federal banking agency approved the transaction and the resulting institution continues to pay proportionate assessments to the appropriate Federal deposit insurance fund. The OTS is amending its regulations to effect these changes.

Abstract: The OTS has proposed an amendment to its risk-based capital regulation to specify the types of intangible assets savings associations may include in calculating capital for purposes of complying with their tangible capital, leverage ratio, and risk-based capital requirements. Under the proposal, purchased mortgage servicing rights and purchased credit card relationships would be considered qualifying intangible assets that could be included in core capital, with some limitations.

Significance: Agency Priority

Legal Authority: 12 USC 1833(e)

CFR Citation: 12 CFR 517

Legal Deadline: None

Abstract: The OTS has issued a notice of proposed rulemaking that would implement a Minority-, Women-, and Individuals With Disabilities-Owned Business Outreach Program that would conform with the requirements of section 1216(c) of FIRREA. The rule is intended to ensure that business concerns owned by members of minority groups, women and individuals with disabilities participate in OTS contracting programs to the maximum extent possible.

Abstract: The OTS has issued a final rule that amends its reporting regulation to require any member savings association within the jurisdiction of a Federal Home Loan Bank, and that currently reports data from which that Federal Home Loan Bank calculates an adjustable rate mortgage index, to continue to provide such data upon the request of the Federal Home Loan Bank. Such data were previously extracted from the monthly Thrift Financial Report which was discontinued as of January 1, 1993. The collection of this data will be continued so that the Federal Home Loan Banks will be able to continue to publish adjustable rate mortgage indices.

CFR Citation: 12 CFR 563

Legal Deadline: Final, Statutory, September 19, 1992.

Abstract: The OTS has issued a final rule jointly with the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation to implement section 304 of FDICIA. The statute requires that the agencies establish real estate lending standards for insured depository institutions. The rule sets forth real estate lending standards that require each insured depository institution to adopt and maintain comprehensive written real estate lending policies that are consistent with safety and soundness standards. The policies must take into consideration loan-to-value limits and must address loan administration procedures, portfolio diversification standards, and documentation, approval and reporting requirements.

Abstract: The OTS has issued a final rule to modify or delete a number of regulations consistent with a Presidential program of regulatory review initiated in January, 1992. This program called for a review of all Federal regulations and policies for the purpose of eliminating any over-burdensome regulations, thereby promoting economic growth.

The OTS has held public hearings on this matter as well as sought public comment on all of its current regulations.

Semiannual Regulatory Agenda

VOL 58 ISS 78 AP 26 1993 UMI

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from April 1993 to April 1994. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual agency contact listed for each regulation or by writing to: Director, Records Management Service (723), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Cliff Slay, (202) 233-4251.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register**, in April and October of each year, an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB memorandum dated December 9, 1992.

3359. AID TO STATES FOR CARE OF VETERANS IN STATE HOMES

Legal Authority: 38 USC 1741; 38 USC 1742; 38 USC 1743

CFR Citation: 38 CFR 17.165; 38 CFR 17.166; 38 CFR 17.167

Legal Deadline: None

Abstract: Several laws have been enacted since the last revision and update of the regulations governing the State Home Per Diem Program. Among them is Public Law 100-322 which provided the Secretary, Department of Veterans Affairs, to evaluate per diem rates annually and increase as appropriate; the rates may not exceed the percentage increase in VA general hospitals. Numerous other changes and updates are needed to assist the States in recognition of State homes, various options for operating State homes such as contracting or leasing and clarification of States' responsibilities for providing financial support for the operation, opening of beds, after completing construction in which VA provided up to 65 percent of the cost. Timeframes for opening beds and clarification of assurance of financial support needs to be documented.

3369. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON FACILITY UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON FACILITY

Legal Authority: 38 USC 210(c)

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

3371. CHAMPVA

Legal Authority: 38 USC 1713

CFR Citation: 38 CFR 17.54 to 17.54f

Legal Deadline: None

Abstract: The Civilian Health and Medical Program of VA (CHAMPVA) provides dependents and survivors of certain veterans with a medical benefits program similar in scope to DoD's Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) through which VA would help pay for certain medical services and supplies obtained from civilian sources for persons not otherwise eligible for medical care under CHAMPUS.

3372. ISSUANCE OF PROSTHETIC DEVICES ON AN OUTPATIENT BASIS

Legal Authority: 38 USC 622(f)(1); 38 USC 612

CFR Citation: 38 CFR 17.48(d)(4); 38 CFR 17.115(a)

Legal Deadline: None

Abstract: The existing means test regulations require VA's Veterans Health Administration (VHA) to determine income for means test purposes in the same manner as income is determined for VA pension purposes. VHA is proposing to change its income determination methodology to one that is similar to the method used for VA pension. This change would allow VHA to simulate VA's Veterans Benefits Administration's (VBA's) income determination without having to hire additional staff. The change is a more liberal interpretation of the existing rules for income determination. During a technical revision to the prosthetic regulations, they were inadvertently substantively changed by deleting authority to provide prosthetic appliances to certain veterans. This error will be corrected.

Legal Authority: 38 USC 5502

CFR Citation: 38 CFR 13.57; 38 CFR 13.58

Legal Deadline: None

Abstract: 38 CFR 13.57 specifies types of Department of Veterans Affairs benefits that may be paid to spouse payee. The intended change broadens the class of payments to include Department of Veterans Affairs insurance. 38 CFR 13.58 explains in part duties expected of a legal custodian. The intended change will clarify the custodian's authority to purchase a burial agreement for the incompetent beneficiary.

Legal Authority: 38 USC 501(a); 38 USC 5502; 38 USC 5503; PL 98-543, Sec 402

CFR Citation: 38 CFR 13.70; 38 CFR 13.71; 38 CFR 13.74

Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC sec. 3203(b)(1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. The intended change requires disclosure of non-VA financial information.

Abstract: The Department of Defense Authorization Act for Fiscal Years 1990 and 1991 greatly expands the types of training permitted under the Montgomery GI Bill--Selected Reserve. The Veterans Education and Employment Amendments of 1989 also add a new type of training, flight training, to this program. Furthermore, the amendments also allow participants to receive a work-study allowance. The regulations which govern the Montgomery GI Bill--Selected Reserve must be amended to implement these new provisions of law.

Abstract: Public Law 101-237, the Veterans Home Loan Indemnity and Restructuring Act of 1989, amended 38 USC 1832(a) to require holders of VA guaranteed loans that are in default to notify VA if they refuse a partial payment of the amount owed when submitted by the veteran borrower. Notification may include a statement as to the circumstances of the default and the reason for the holder's refusal; these regulations will also set out the changed requirements with regard to establishing a veteran's liability to the Government in the event of foreclosure of a VA guaranteed loan. In the past veterans were liable if their VA loan foreclosed. Under Public Law 101-237 liability will only be established in the event of fraud, misrepresentation, or bad faith.

Abstract: VA has been reviewing regulations for the purpose of standardizing procedures whenever possible. In the course of the review rules governing time limits provided veterans training under the Montgomery GI Bill-Active Duty is not exactly the same as that provided eligible persons training under the dependent's Educational Assistance Program with regard to perfecting a claim. Furthermore, rules governing notification which had been provided to those receiving benefits under the now-expired Vietnam Era GI Bill with regard to a loss of dependant had not been extended to the Montgomery GI Bill- Active Duty Beneficiaries in similar circumstances. These regulations will standardize these rules.

CFR Citation: 38 CFR 21.4133; 38 CFR 21.4134; 38 CFR 21.4135; 38 CFR 21.4146; 38 CFR 21.4152; 38 CFR 21.4202; 38 CFR 21.4207; 38 CFR 21.4208; 38 CFR 21.4210; 38 CFR 21.4211; 38 CFR 21.4212; 38 CFR 21.4213; 38 CFR 21.4214; 38 CFR 21.4215; 38 CFR 21.4216

Legal Deadline: None

Abstract: Under certain conditions VA can suspend or discontinue payments of educational assistance to individuals even though the course in which they are enrolled is approved for VA training. Current regulations provide for a review of the circumstances at the local VA facility and another de novo review at VA Central Office. The proposal would gather in one place the procedures which VA follows in deciding whether to suspend or discontinue payments; would make a part of the Code of Federal Regulations the rules at the hearing which may be conducted in making this decision; and would eliminate the de novo Central Office review.

Legal Authority: PL 102-484; PL 102-568

CFR Citation: 38 CFR 21.5023

Legal Deadline: None

Abstract: The Veterans' Benefits Act of 1992 contains many provisions which affect the educational programs VA administers. Among these is a change in the rate of payment made to individuals who are pursuing independent study, a change in the eligibility rules for veterans and servicemembers receiving educational assistance under the Montgomery GI Bill - Active Duty. The National Defense Authorization Act for Fiscal Year 1993 also contains provisions which affect the Montgomery GI Bill - Active Duty. For example, certain individuals who have voluntarily separated from the military are given an opportunity to become eligible for the Montgomery GI Bill - Active Duty. These regulations will implement these Acts with respect to the Montgomery GI Bill - Active Duty and Dependents' Educational Assistance.

Abstract: Agencies are authorized to restrict the testimony of their employees and production of their records in private litigation. The Department of Veterans Affairs needs to conserve Government resources in the same manner as other agencies which have regulations to restrict their employees from testifying and producing their records in private litigation. This regulation would provide the authority to do this and would further the Department's mission of assisting all veterans by conserving personnel resources for official duties and controlling utilization of Government personnel in purely private controversies.

3423. REVOCATION OF DELEGATION TO ISSUE SUBPOENAS PURSUANT TO 38 USC 3311 AND SPECIFY PERMISSIBLE METHODS OF SERVICE

Legal Authority: 38 USC 210(c)(1)

CFR Citation: 38 CFR 2.1

Legal Deadline: None

Abstract: Cases have held that the head of an agency may not lawfully delegate to, or expand the authority to subpoena documents of, the Offices of Inspector General established under the Inspector General Act. (The VA Inspector General was established under that Act.) Thus, the delegation of subpoena authority under 38 CFR 2.1 does not comport with law and should be changed. Current regulations do not specify the method of service. This amendment would rescind this delegation and incorporate into 38 CFR 2.1 information on methods of service of administrative subpoenas, as other agencies do on exercising subpoena power. It would provide needed guidance to VA officials and the public on proper service of subpoenas.

Abstract: Prior to enactment of this law authorized contract non-VA hospital care for veterans rated permanently and totally disabled from a service connected disability could not be approved in advance. Instead these veterans were required to submit a claim for payment for each episode of non-VA hospital care following their discharge from the hospital. If the claim met established criteria, then VA would have to make payment; if not, the claim could be denied. This law allows VA to approve non-VA hospital care for these veterans in advance.

Abstract: A number of regulatory changes will be proposed for the VA manufactured home loan program. VA would conform to HUD's practices on certifications, invoicing and volume rebates. Lenders would be permitted to file claims upon receipt of the VA's resale price and thereafter retain the profit or loss which results from subsequent sale of the home. Broader insurance coverage would be required to cover missing items at repossession. Actual freight costs would be allowed in the invoice, and the amounts and items which could be included in the loan would be revised. In addition, a new optional procedure would be provided to holders of manufactured home loans for filing claims under the terms of the loan guaranty.

Abstract: The law prohibits the payment of educational assistance to a person who would otherwise be eligible for benefits under the Montgomery GI Bill when he or she is on active duty with the Armed Forces and the Armed Forces are paying for the courses in which he or she is enrolled. This regulation is intended to implement this provision of law. However, users of the regulation have complained that the regulation appears to contradict the law. This proposal will eliminate this unintended appearance. In addition, some minor amendments to the wording of a similar Montgomery GI Bill-Active Duty when he or she is on active duty with the Armed Forces and the Armed Forces are paying for the course in which he or she is enrolled. Since this provision occurs in the law, but not in the regulation, users of the regulations have occasionally been confused. In order to eliminate that confusion, this regulation would include that prohibition.

3448. UPDATING REHABILITATION CRITERIA

Legal Authority: 38 USC 3102; 38 USC 3107; 38 USC 3117

CFR Citation: 38 CFR 21.194; 38 CFR 21.196

Legal Deadline: None

Abstract: The Department of Veterans Affairs is proposing to revise criteria under which a veteran may be found rehabilitated. The proposed changes broaden the conditions under which a veteran who becomes employed in an occupation consistent with his or her abilities, aptitudes and interests may be declared rehabilitated when he or she has not completed all of the training prescribed by VA. The main effect of the change places greater emphasis on the achievement of suitable employment than completing all elements of the program of training and services.

Legal Deadline: None

Abstract: The Department of Veterans Affairs Nurse Pay Act of 1990 requires VA to make payments to certain military officers and former officers who were commissioned in 1977 and 1978. The law provides that if any of these officers or former officers participated in VEAP (Post-Vietnam Era Educational Assistance Program), they must disenroll from that program before receiving those benefits. The National Defense Authorization Act for fiscal year 1991 provides additional ways in which an individual may become eligible for benefits under VEAP to elect to receive benefits under the Montgomery GI Bill-Active Duty instead. These regulations will implement these provisions of law.

Legal Authority: 38 USC 3241; 38 USC 3691

CFR Citation: 38 CFR 21.5232

Legal Deadline: None

Abstract: The Department of Veterans Affairs Nurse Pay Act of 1990 contains a section which affects most of the educational programs VA administers. The section revises the rules for determining whether an individual can change programs of education. The regulation governing changes of programs of education for veterans receiving benefits under VEAP (Post-Vietnam Era Veterans' Educational Assistance Program) must be changed in order to bring it into agreement with the law. This proposal will effect this change.

OFFICE OF EQUAL EMPLOYMENT OPPORTUNITY

3478. NONDISCRIMINATION ON THE BASIS OF SEX UNDER FEDERALLY ASSISTED EDUCATION PROGRAMS AND ACTIVITIES

Significance: Regulatory Program

Legal Authority: 20 USC 1681 et seq; 38 USC 210(a); EO 12250; EO 12067

CFR Citation: 38 CFR 18

Legal Deadline: None

Abstract: To establish standards and procedures for enforcing title IX of the Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance from VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the Department is planning to repropose these regulations.

3479. OPERATION OF CHILD CARE CENTERS AT VA FACILITIES

Legal Authority: 38 USC 4209

CFR Citation: 38 CFR 17.162

Legal Deadline: None

Abstract: Section 4209 of title 38 authorizes the Veterans Canteen Service to operate child care centers at VA facilities. The centers will be established based on the demand for care and to the extent that such operation is practical and in the best interest of VA. The centers will be available for the children of VA employees and, to the extent space is available, the children of other Federal and Department of Veterans Affairs affiliated employees. Also, these centers should provide an incentive for personnel recruitment. The regulations will prescribe the requirements and standards for the operation of VA child care centers.

3480. DELEGATIONS OF AUTHORITY/ CLAIM FOR COST OF MEDICAL CARE AND SERVICES

Legal Authority: 38 USC 510; 38 USC 1729

CFR Citation: 38 CFR 2.6; 38 CFR 14.619

Legal Deadline: None

Abstract: Attorney General Order 1594-92, published in the Federal Register on June 19, 1992, established a new limit of $100,000 on claims which may be settled by VA without referral to the Department of Justice. This authority was previously $40,000 and was delegated to officials within the Office of the General Counsel and District Counsels. This regulation will redelegate the new limit of $100,000, add a new official, the General Counsel's Director of Debt Management, and require that cases being settled in field offices by District Counsels be cleared with the General Counsel when they are in amounts in excess of $40,000.

3481. RELEASE OF VA LISTS OF NAMES AND ADDRESSES AND PENALTY PROCEDURES FOR UNAUTHORIZED USE

Legal Authority: 38 USC 5701(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None

Abstract: VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA name and address lists of veterans/dependents, and give advance notice to recipients of what constitutes an authorized/ unauthorized use of veterans/ dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

3482. NEW RESTRICTIONS ON LOBBYING

Significance: Regulatory Program

Legal Authority: 31 USC 1352

CFR Citation: 38 CFR 45

Legal Deadline: None

Abstract: This regulation implements section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the executive or legislative branches of the Federal Government in connection with a specific contract, grant or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, cooperative agreement, loan, or a Federal commitment to insure or guaranty a loan, must disclose lobbying.

Legal Authority: 5 USC 552; 38 USC 5701

CFR Citation: 38 CFR 1.519; 38 CFR 1.553; 38 CFR 1.557

Legal Deadline: None

Abstract: VA is amending its information access regulations to: (1) clarify procedures for initial requests and appeals received under FOIA and 38 USC 5701 which are received by facsimile, (2) view a "no record" response to FOIA requests as an adverse determination requiring notification of appeal rights; and (3) establish a time limit on the right of appeal of initial denial under FOIA. Technical amendments are being made to update the organizational titles contained in regulation 38 CFR 1.519 to reflect the current organization and to update references to citations in 38 USC to reflect changes made by Pub. L. 102-40.

VOL 58 ISS 78 AP 26 1993 UMI

ACTION (ACTION)

ACTION

45 CFR Ch. XII

Executive Order 12291 "Federal Regulation"; Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision, or review during the next year. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to provide the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the agency official listed for the particular agenda item. For other information concerning ACTION regulations or this semiannual agenda, contact Stewart A. Davis, Acting General Counsel, ACTION, 1100 Vermont Avenue NW., Washington, DC 20525, (202) 606-4833.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 601), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

ACTION has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Dated: February 12, 1993

John Seal,

Acting Director

3529. FREEDOM OF INFORMATION ACT REGULATIONS

Legal Authority: 16 USC 470 Nat. Historic Preservation Act of 1966, as amended

CFR Citation: 36 CFR 810.5

Legal Deadline: None

Abstract: The regulation will increase the fees charged to requesters of information to better reflect the cost to the Government of locating and copying the documents requested. Copying charges would be increased from $0.10 to $0.13 per page; fees for searches by professional staff from $2.00 to $4.65 per quarter hour; and fees for searches by clerical staff from $1.00 to $2.30 per quarter hour. The regulation would thus impose a "user's fee" to users of the Government FOIA system which is more consistent with other agencies' fees.

Semiannual Agenda of Regulations

AGENCY: U.S. Commission on Civil Rights.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the U.S. Commission on Civil Rights will have under development during the 6-month period from April 1, 1993, through October 31, 1993. The purpose for publishing this agenda is to give notice of any regulatory activity by the Commission in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For further information on any items in the agenda, contact: Emma Monroig, Solicitor, U.S. Commission on Civil Rights, Room 632, 624 Ninth Street NW., Washington, DC 20425, (202) 376-8375.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. 605), executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by the Commission are not "major" rules within the meaning of E.O. 12291, and no Regulatory Impact Analysis is required. The Commission has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public nor will the regulations have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required.

Emma Monroig,

Solicitor.

Regulatory Agenda

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA's regulatory agenda is published each April and October. It serves as a semiannual summary of current and projected rulemakings, reviews of existing regulations, and Agency actions completed since the previous publication of the agenda. By providing the public with current and advance information about pending regulatory activities, the Agency hopes to encourage more effective public participation in the regulatory process.

ADDRESSES: To be placed on the mailing list for future agendas, contact Bridgette Dent, Regulatory Development Branch (PM-223Y), EPA, 401 M Street SW., Washington, DC 20460, (202) 260-5475.

If you have suggestions to improve this publication or need general information about the agenda, contact Angela Suber, Regulatory Development Branch (PM-223Y), EPA, 401 M Street SW., Washington, DC 20460, (202) 260-7205.

FOR FURTHER INFORMATION CONTACT: The name, address, and telephone number of an agency contact are provided for each entry.

SUPPLEMENTARY INFORMATION: The agenda provides the title, an abstract, legal authority, CFR reference, any analysis EPA is preparing, contact person, and schedule for completing the action for each regulation under review. The following statutes are covered in the agenda:

Asbestos Hazard Emergency Response Act (AHERA)
Atomic Energy Act (AEA)
Clean Air Act (CAA)
Clean Water Act (CWA)
Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)
Federal Food, Drug, and Cosmetics Act (FFDCA)
Hazardous and Solid Waste Amendments (HSWA)
Marine Protection, Research, and Sanctuaries Act (MPRSA)
National Environmental Policy Act (NEPA)
Resource Conservation and Recovery Act (RCRA)
Safe Drinking Water Act (SDWA)
Superfund Amendments and Reauthorization Act (SARA)
Toxic Substances Control Act (TSCA)
Water Quality Act of 1987 (WQA)
General (Other acts, including grant and procurement regulations that apply to several program areas.)

EPA's agenda also illustrates the Agency's compliance with various mandates. Included among these is the requirement of Executive Order 12498 to submit the Agency's priority regulatory activities for inclusion in the Administration's annual "Regulatory Program." Those priority activities are noted in the "Significance" section of the rule entry.

EPA's agenda entries also provide evidence of compliance with the requirements in Executive Order 12291 that the Agency ensure that the costs of a rule are justified by its benefits. This compliance is noted in the "Analysis" section of an entry, which indicates the Agency's performance of a Regulatory Impact Analysis (RIA) for any proposed or final regulation that may have:

1. A minimal economic effect of $100 million annually;

2. a major effect on the general economy in terms of costs, consumer prices, or production;

3. a major increase in costs or prices for any notable segment of the population; or

4. significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Regulatory Flexibility Act (RFA) requires the identification of those regulations which are likely to have a "significant economic impact on a substantial number of small entities" (i.e., small governments, small businesses, and small nonprofit organizations). Under the requirements of the Act, such regulations must be subjected to a "regulatory flexibility analysis." This analysis must address the likely economic impacts on small entities and must consider any significant alternatives to the rule which accomplish the objectives of applicable statutes and which minimize any significant economic impact of the rulemaking on small entities. In April 1992, EPA adopted a new policy which goes beyond the minimum requirements of the Regulatory Flexibility Act (this new policy applies to rulemakings which start after April 8, 1992). For rules subject to this new policy, EPA will perform a regulatory flexibility analysis if the rule is likely to have *any* economic impact on *any* small community.

Under each rulemaking listed in this regulatory agenda, the "Analysis" section indicates whether EPA expects to conduct a regulatory flexibility analysis. If EPA believes small entities will be affected by a rulemaking, this is indicated under "Small Entities Affected" and/or the "Government Levels Affected" section of the write-up for each listed rule. EPA invites public comment regarding EPA's assessment of which of the listed rules are appropriate for regulatory flexibility analysis.

The agenda is organized by statute and ordered numerically within each statutory area. Entries within each statute are divided into four categories: (1) Prerule, (2) proposed rule, (3) final rule, and (4) completed actions (i.e., regulations that EPA is deleting from the agenda because the Agency has completed, withdrawn, or postponed them indefinitely). Detailed information on each of these categories is presented below. A dot (•) preceding an entry indicates that this is the first time this entry appears in an agenda.

I. Prerulemakings

Prerulemaking actions are activities intended to determine whether to initiate rulemaking. These activities include anything that influences or leads to rulemaking, such as advance notices of proposed rulemaking, significant studies or analyses of the possible need for regulatory action, requests for public comment on the need for regulatory action, or important pre-regulatory policy proposals.

This section also includes a review of existing EPA regulations. The purpose of such reviews is to determine whether the Agency should revise, rescind, or leave the existing rule unchanged. If EPA decides to revise or rescind an existing regulation, that action will appear in the next agenda in the proposed rule section along with a timetable for completing the revision or rescission.

II. Proposed and Final Rules

This section includes all "significant" EPA regulations. EPA generally lists regulations in this category of the agenda once they are within a year of proposal or promulgation. The listings, however, exclude (a) specialized categories of actions (e.g., EPA approvals of State plans and other actions that do not apply nationally) and (b) routine actions (e.g., pesticide tolerances and minor amendments to existing rules).

III. Completed Actions

These are actions that appeared in the previous agenda, which EPA is deleting because they are completed or are no longer under consideration for rulemaking.

The Agency has attempted to list all regulations and regulatory reviews except those considered as minor, routine, or repetitive actions. There is no legal significance to the inadvertent omission of an item from the listing.

The agenda reflects dates for actions on each item; these dates are honest estimates but should not be construed as an Agency commitment to act on or by the date shown. The Administrator of EPA will be reviewing the items contained in this agenda over the next 6 months. Items in this agenda may be deleted, or new items may be added, as a result of that review.

Dated: March 24, 1993.

Wendy Cleland-Hamnett,

Acting Assistant Administrator, Office of Policy, Planning, and Evaluation.

Abstract: The Agency is proposing to revoke food additive tolerances for a number of pesticide carcinogens in processed food because of the Delaney clause. The Delaney clause prohibits chemicals in processed foods that induce cancer in man or lab animals. This rulemaking is the result of a decision by the Court of Appeals for the Ninth Circuit which rejected the Agency's de minimis interpretation of the applicability of the Delaney clause.

Abstract: EPA is proposing to amend its current pesticide tolerance regulations to clarify how raw agricultural commodities and processed foods are defined for conducting residue data development and analysis used in establishing and enforcing a tolerance. This proposed rule amendment restates, updates, clarifies, and makes more uniform the analytical practices that have been developed over the years, and therefore, should facilitate and improve efficiency in pesticide residue analysis on food commodities.

Legal Authority: 21 USC 346/FFDCA 408 and 409

CFR Citation: 40 CFR 180.1

Legal Deadline: None

Abstract: EPA sets tolerances under FFDCA section 408 for pesticide residues in raw agricultural commodities (RACs) and establishes food additive regulations under section 409 for pesticide residues in processed foods if, as a result of processing, residues in the "ready to eat" processed food will exceed the raw food tolerance. To promote greater consistency in tolerance setting and enforcement, EPA is now proposing to amend its pesticide regulations to clarify how RACs are defined.

Significance: Regulatory Program

Legal Authority: 7 USC 136/FIFRA 3, 4, 5, and 25

CFR Citation: 40 CFR 158

Legal Deadline: None

Abstract: This amendment will update the existing data requirements (40 CFR 158) for evaluating the registrability of pesticide products. Reasons for the revisions include recent health and environmental concerns (e.g., groundwater contamination, worker exposure and neurotoxicity) and advancements in testing technology. The revisions will clarify data requirements to reflect current practice. Also, comparative product performance data requirements for use in risk/benefit analysis and in preparation of regulatory options used in making risk/benefit decisions will be added to 40 CFR part 158. Procedural and explanatory sections of 40 CFR 158 will be amended to make them consistent with the revised data requirements.

Abstract: The Agency is proposing to amend its regulations to establish standards for claims that a water treatment unit or product (whether a pesticide or device) will microbiologically purify water for human consumption. The rule would establish standards for when microbiological water purification claims may be legally made on the label. This proposal would base the acceptability of purifier-related claims on efficacy data demonstrating that the product met the criteria for microbiological reductions indicated in EPA's Guide Standard and Protocol for Testing Microbiological Water Purifiers.

Legal Deadline: None

Abstract: EPA is developing a proposal to revise the crop grouping regulations to promote the greater utilization of crop grouping for pesticide tolerance-setting purposes. These revisions will establish crop subgroups, smaller groups of more closely related commodities for larger crop groups. Tolerances established for a subgroup would apply to all members of the subgroup. EPA will also propose other revisions to the crop groups that should promote greater utilization of crop groupings. Revisions to the crop grouping scheme that would increase its utilization will reduce the regulatory burden associated with residue data development in support of pesticide tolerances and registration.

Final Container Design and Residue Removal

Abstract: The 1988 amendments to FIFRA significantly expand EPA authority to regulate the management of pesticides, including storage, transportation, and disposal of pesticides. The Agency may exercise this authority through labeling provisions, and other regulations for storage, transport, and disposal of pesticides. As required under Section 19, EPA has conducted a study on pesticide container design. The Report to Congress on this study was submitted in June 1992.

Abstract: Pesticides are necessary for production of agricultural food and fiber commodities, yet have the potential to harm threatened or endangered species. EPA will develop and implement an endangered species pesticide labeling program designed to conserve federally listed species and to minimize the impacts to persons who use pesticides. The program will include development of species maps and pesticide use limitation bulletins to be distributed as an extension of pesticide labels. Pesticides that are determined to cause harm to endangered species will require label changes which display precautionary statements and directions on how to obtain county bulletins. The program will be coordinated with EPA, U.S. Fish and Wildlife Service of the Department of Interior.

Abstract: EPA proposes to amend its experimental use permit regulations for pesticides to clarify the circumstances under which an experimental use permit is presumed not to be required. As part of that clarification, EPA proposes to implement a screening procedure that requires notification to the Agency before initiation of small-scale testing of certain microbial pesticides. Two options for defining the scope of the notification requirement are presented for comment. The Agency will review notifications to assess the potential for adverse impacts on human health or the environment and will then determine whether to approve the test and/or whether to require an experimental use permit. This notification scheme would implement provisions of the Agency's policy statement of June 26, 1986, with modifications.

Abstract: FIFRA section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6(a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is reissuing it as a proposal to clarify the types of information which registrants must report to EPA.

Abstract: FIFRA 19(f)(2) states that after December 24, 1993, a State may not exercise primary enforcement authority under FIFRA 26, or certify an applicator under FIFRA 11, unless the Administrator determines that the State is carrying out an adequate program to ensure compliance with regulations promulgated under FIFRA 19(f). 3569. POLICY STATEMENT IMPLEMENTING THE PRIOR INFORMED CONSENT PROCEDURES FOR THE EXPORT/IMPORT OF INDUSTRIAL CHEMICALS

Legal Authority: London Gdlns for Exchange of Info on Chemicals in Intl Trade

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The EPA intends to publish a proposed policy statement implementing the Prior Informed Consent (PIC) procedure for industrial chemicals. The principle of PIC was accepted by the United National Environment Programme (UNEP) as an amendment to the London Guidelines for the Exchange of Information on Chemicals in International Trade. The US is a member of UNEP and a signatory to the Guidelines. Hence, EPA is preparing this policy statement to further comply with the London Guidelines, specifically the provisions of the PIC procedure.

The goal of the Guidelines is to enhance the safe management of chemicals in all countries through the exchange of scientific, technical, economic, and legal information on chemicals in international trade. The policy statement will provide the current proposed list of industrial chemicals banned or severely restricted in the US which will include chemicals subject to regulatory action taken by agencies other than EPA. EPA believes this policy statement will establish a mechanism for information exchange which will advance the protection of human health and the global environment.

3570. ENVIRONMENTAL HAZARD COMMUNICATION RULE

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: Not applicable

Legal Deadline: None

Abstract: The Office of Pollution Prevention and Toxics (OPPT) is considering development of a voluntary program to provide for Environmental Hazard Communication (EHC) with the sale of commercial chemicals. The goal of the voluntary program would be to ensure that chemical processors, distributors, and users receive information enabling them to avoid environmental damage caused by inappropriate releases. It models the Occupational Safety and Health Administration's (OSHA) hazard communication standard by recommending that Material Safety Data Sheets include environmental hazard information. The program would not require testing to be performed if data were not available. The program may include OPPT specifying a list of chemicals for which EHC would be recommended. The program may also include other voluntary elements such as the publication of guidelines for the application of EHC to potentially hazardous chemicals. (cont)

Legal Authority: 42 USC 11023/EPCRA 313; 42 USC 11048; 42 USC 11076

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This action would add seventeen chemicals to the list of toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-to-Know Act (EPCRA). Sixteen of these chemicals are from a list of hazardous air pollutants subject to requirements of the Clean Air Act Amendments of 1990. Most of these hazardous air pollutants are already covered by Section 313 reporting including some categorical listings. Adding these chemicals will establish a Comprehensive Inventory of Air Toxics Releases and will also provide information on releases of these chemicals to other environmental media. The seventeenth chemical is to be added because it is extremely toxic to aquatic organisms.

3572. EMERGENCY PLANNING AND COMMUNITY RIGHT-TO-KNOW ACT SECTION 313 EXPANDED REPORTING REQUIREMENTS

Significance: Agency Priority

Legal Authority: 42 USC 11013/EPCRA 313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: The current Toxics Release Inventory is limited, both in the numbers of chemicals and types of facilities required to report. EPA is considering an expanded list of chemicals and facilities that will have to submit information for the Toxics Release Inventory. Rather than attempting a broad revision to the current regulation, EPA is attempting to selectively propose groupings of chemicals and industries to be added.

This is an amendment to a regulation that carries with it significant demands in the form of reporting requirements and data management. Therefore, the Agency is also considering options for reducing or eliminating the reporting burden, particularly for small sources.

Legal Authority: 42 USC 11001 and 11023/EPCRA 313

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: The purpose of this action is to explore strategies for EPA's handling of an increasing volume of corrections or changes to Toxic Release Inventory (TRI) Form R reports that facilities have been voluntarily submitting to EPA. The volume of revisions to reports for all years has steadily increased, as has the Agency's burden of processing revised data. The burden of processing revised data has affected the Agency's processing of current TRI reports. This action may or may not result in a new policy or a rule concerning some or all types of revisions to TRI reports.

Abstract: The following table lists chemicals for which EPA will initiate rulemaking to require testing, obtain testing through negotiated consent orders, or publish a notice which provides the reasons for not doing so. The list includes chemicals which have been designated for priority testing consideration by the Interagency Testing Committee as well as those chemicals (i.e., recommended and non-designated chemicals) for which the 12-month statutory requirement does not apply. Significance: Regulatory Program

Legal Authority: 15 USC 2603/TSCA 4

CFR Citation: 40 CFR 799.5050

Legal Deadline: None

Abstract: A multi-chemical endpoint test rule will require the testing of many chemicals for a specific effect or endpoint, e.g., bioaccumulation. This type of rule is an alternative to single chemical rules which require testing of one chemical for many effects. The multi-chemical endpoint rule approach will obtain testing while conserving on Agency resources. The multi-chemical rule for persistent bioaccumulators will obtain environmental effects and chemical fate data on chemicals that are believed to persist and bioaccumulate in the environment. Emerging environmental concerns have

focused on sediments contaminated with chemicals which are persistent (do not degrade) and bioaccumulate (may enter the human food chain). In addition, such chemicals are also typically toxic to aquatic and terrestrial organisms. EPA has identified over 30 chemicals for possible inclusion in the bioaccumulator test rule. EPA is also considering developing a multi-chemical test rule to obtain needed health and environmental effects testing for the 189 chemicals listed under Section 112 of the Clean Air Act (CAA). These rules may be amended in the future to require (cont)

3580. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES (SNURS) TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: When the Agency determines that uncontrolled manufacture, import, processing, distribution, use or disposal of a premanufacture notification notice (PMN) substance may present an unreasonable risk, it may issue a section 5(e) consent order to limit these activities. However, such orders apply only to the PMN submitter. Once the new substance is entered on the Toxic Substances Control Act (TSCA) chemical inventory, others can manufacture, import or process the substance without controls. Therefore, EPA extends the controls to apply to others by designating manufacture, import or processing of the substances for uses without the specified controls as significant new uses. Under the Expedited Follow-Up Rule, which became effective on October 10, 1989 (54 FR 31314), EPA routinely publishes batch SNURs containing routine section 5(e) and non-5(e) SNURs. However, certain activities, such as modifications, withdrawals, revocations, and SNURs upon which comments are received in the direct final publication process, are subject to notice and comment rulemaking and are listed below.

Legal Authority: 15 USC 2694/TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of manufacture or processing for a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

Significance: Regulatory Program

Legal Authority: 15 USC 2604/TSCA 5

CFR Citation: 40 CFR 700; 40 CFR 720; 40 CFR 721

Abstract: EPA is planning to propose a regulation under the Toxic Substances Control Act (TSCA) for the oversight of certain microbial products of biotechnology. The proposed rule would be issued under the authority of Section 5 of TSCA, which generally requires that new chemical substances must be reviewed by EPA before they are introduced into commerce.

The proposed rule will contain mechanisms for exemption as well as actual proposed exemptions, guidance on how the TSCA Inventory will be used, and EPA's approach to Research and Development with biotechnology microorganisms.

Legal Authority: 15 USC 2604/TSCA 5; 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 721; 40 CFR 750

Abstract: This action initiates a regulatory investigation under the Toxic Substances Control Act (TSCA) section 6 to determine if uses of lead (Pb) present an unreasonable risk to human health and the environment. The investigation will involve examination of the potential sources of human exposure to lead throughout the life cycle. Based on information gathered, EPA may propose TSCA section 6(a) rules to control existing or new uses of Pb which pose an unreasonable risk to human health or the environment, and to explore the desirability and feasibility of discouraging overall consumption of Pb in general. In particular, EPA has begun regulatory investigations on three uses of lead: solder in drinking water systems, plumbing fixtures, and fishing sinkers.

CFR Citation: 40 CFR 765

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for reducing the exposure to formaldehyde of: (1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes; (2) similarly exposed residents of conventional homes; and (3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. When the Occupational Safety and Health Administration (OSHA) proposed a revised workplace standard in December 1985 that applies to all occupational exposure, EPA terminated its investigation with respect to apparel manufacturing employees. An investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with the Department of Housing and Urban Development (HUD) and the Consumer Product Safety Commission (CPSC). Toxic Substances Control Act (TSCA) sections 4 and 6 regulations may be developed to address certain pressed wood products that contain urea formaldehyde resins.

Significance: Regulatory Program

Legal Authority: 15 USC 2605(e)(1)(A)/TSCA 6(e)

CFR Citation: 40 CFR 761, subparts C, D, E, G

Legal Deadline: None

Abstract: The ANPRM solicits comments on alternate disposal methods for non-liquid PCBs and invites public input on modifications to the PCB disposal regulations. In February 1990, several parties petitioned EPA under Section 21 of TSCA to amend the regulations at 40 CFR 761, which govern the disposal of PCBs, and issue an interpretive rule or declaratory order construing the existing PCB disposal regulations. In responding to the petition, EPA agreed to initiate a regulatory investigation to determine whether or not to amend the disposal regulations. After analyzing the comments received in response to the ANPRM, a proposed rule will be drafted which will also address alternative disposal methods for newly identified scenarios such as large volume solids; mixed wastes such as PCB/radioactive wastes; and other issues, such as disposal of household wastes, small capacitors, and used paints. This notice will also solicit comments on a modification to the disposal regulations which would allow for the recognition of PCB waste management activities under other Federal or State authorities.

Abstract: This rule would relax the regulatory requirements for reclassifying PCB transformers to a lower regulatory status by modifying the current reclassification requirements of 50 degree centigrade temperature and 90-day testing. EPA—TSCA

Proposed Rule Stage

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA has instituted a program to monitor the commercial development of existing chemicals of concern and/or to gather information to support risk assessments on such chemicals. As these chemicals are identified, EPA will initiate rulemakings under the Toxic Substances Control Act (TSCA) sections 5 and/or 8 to require reporting by the manufacturers, importers and/or processors of these chemicals. Proposed rules may be published on at least the chemicals listed on the timetable below.

3591. MANDATORY POLLUTION PREVENTION REPORTING FOR TOXIC RELEASE INVENTORY (TRI)

Legal Authority: 42 USC 11013/Pollution Prevention Act of 1990

CFR Citation: 40 CFR 372

Legal Deadline: None

Abstract: This proposed regulation would implement the "Source Reduction and Recycling Report" provision of the Pollution Prevention Act of 1990. Under this requirement, facilities that file EPA Form R must include information on the amount of the chemical entering wastestreams prior to treatment, recycling or disposal, amounts that are treated or recycled both on-site and off-site and projections for the following two years of expected amounts treated and recycled. Additional information will identify types of pollution prevention activities employed by the facility and other information that will allow the data user to identify progress toward toxic chemical use reduction

Abstract: The following table lists chemicals for which EPA has issued proposed test rules and will take final action under the Toxic Substances Control Act (TSCA) section 4. The Agency defines final action as a promulgation of a test rule, issuance of a consent order, withdrawal of a proposed test rule or a decision not to test. 3593. MULTI-CHEMICAL ENDPOINT(S) TEST RULE

Legal Authority: 15 USC 2603/TSCA 4

CFR Citation: 40 CFR 799.5050

Legal Deadline: None

Abstract: A multi-chemical endpoint test rule will require the testing of many chemicals for a specific effect or endpoint, e.g., neurotoxicity. This type of rule is an alternative to single chemical rules which require testing of one chemical for many effects. The multi-chemical endpoint rule approach will obtain a significant amount of testing while conserving on Agency resources. The multi-chemical rule for developmental and reproductive toxicity testing will require testing of twelve chemicals for developmental and/or reproductive effects; the multi-chemical rule for neurotoxicity testing will obtain base set neurotoxicity testing of ten high production solvents. These rules may be amended in the future to require the same testing for other chemicals. Also, future multi-chemical rules will require testing of additional endpoints and chemicals.

Legal Authority: 15 USC 2604/TSCA 5; 15 USC 2607/TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 721

Legal Deadline: None

Abstract: EPA has instituted a program to regulate the commercial development of new chemicals that have completed premanufacture notice (PMN) review where activities described in the PMN did not present an unreasonable risk but uncontrolled manufacture, import, processing, distribution, use, or disposal outside the activities described in the PMN may present an unreasonable risk. EPA will issue Significant New Use Rules (SNURs) requiring 90-day notification to EPA from any manufacturer, importer, or processor who would engage in activities that are designated as significant new uses. Under the Expedited Follow-up Rule which became effective on October 12, 1989, EPA will identify such new chemicals and publish them in a batch SNUR 6-12 times per year. Chemicals that were subject to a proposed SNUR before the effective date of the EFUR or do not qualify under the EFUR may be regulated individually by notice and comment rulemaking.

3597. PREMANUFACTURE NOTIFICATION (PMN) RULE AMENDMENTS

Legal Authority: 15 USC 2604; 15 USC 2607; 15 USC 2613/TSCA 5

CFR Citation: 40 CFR 720 to 723

Legal Deadline: None

Abstract: This action will amend the PMN rules (40 CFR 720 to 723) under Section 5 of the Toxic Substances

VOL 58 ISS 78 AP 26 1993 UMI

Control Act (TSCA) to conform to current policy needs. These changes are necessary to increase efficiency and incorporate proposed program improvements. They are expected to reduce the administrative burdens/cost of the New Chemicals Program and the overall number of Section 5 submissions while maintaining an effective and environmentally sound program. EPA has identified "low-risk" categories that meet certain established criteria and can be screened out of the full PMN review process at an early date based on low health/environmental concern or low exposure scenarios. EPA would like to reduce the burden to PMN submitters and maximize the efficiency and resources of the program by modifying the rule to reduce reporting requirements for low risk categories. This would enable the Agency to reduce the number of Section 5 submissions and concentrate its resources on PMNs with potential health or environmental concerns.

Legal Authority: 15 USC 2605TSCA 6(e)(3)(B)

CFR Citation: 40 CFR 761

Legal Deadline: None

Abstract: Section 6(e)(3)(B) of the Toxic Substances Control Act (TSCA) provides that the Administrator may grant, by rule, exemptions from the prohibitions on the manufacturing, processing, and distribution in commerce of PCBs upon finding: 1) that granting the exemption will not pose an unreasonable risk of injury to health or the environment; and 2) that good faith efforts have been made to develop a PCB substitute which does not pose an unreasonable risk of injury to health or the environment.

3600. REGULATORY INVESTIGATION OF DIOXIN IN PULP AND PAPER MILL SLUDGE

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 744

Legal Deadline: NPRM, Judicial, April 30, 1991. Final, Judicial, November 30, 1992.
The Consent Decree between EPA, EDF, and NWF signed July 27, 1988, requires that EPA make best efforts to issue a final rule by November 30, 1992.

Abstract: The objective of this project is to reduce the unreasonable risks posed by dioxins and furans in bleached wood pulp and paper mill industrial sludge. In response to a July 1988 Consent Decree with the Environmental Defense Fund and the National Wildlife Federation, EPA announced on April 30, 1990, its schedule for a proposed rule under the Toxic Substances Control Act (TSCA), addressing the practice of industrial sludge land application, including mine reclamation and distribution/marketing. The Consent Decree required that this rule be proposed by April 30, 1991, and that EPA make its best efforts to issue a final rule by November 30, 1992. The analysis of new data received during the public comment period and by the Office of Water under section 308 of the Clean Water Act may require an additional comment period and delay promulgation of the final rule. On December 14, 1992, EPA informed EDF and NWF of the status of its efforts to evaluate and control risks from the land application of sludge produced from the treatment of wastewater from pulp and paper mills using chlorine and chlorine-derivative bleaching processes. ABSTRACT CONT: The EPA Office of Water and Office of Air Quality Planning and Standards are in the process of developing integrated effluent guidelines and emission standards for the pulp and paper industry. In light of these proceedings and to promote multi-media pollution prevention, the Agency has chosen to defer the decision on promulgation of the final land application rule to take into account the effect of the process changes under consideration for these rules on the resulting levels of dioxin and furan contamination in the sludge. Once this determination has been made, the Agency will re-evaluate the risk from sludge land application and will be able to choose, if necessary, the appropriate regulatory or non-regulatory mechanism to address the situation. The Agency expects to make this determination in 1995. In the interim, the Agency plans to pursue a voluntary program with industry and States to reduce risk.

Legal Authority: 15 USC 2605/TSCA 6(e); 5 USC 556/et seq

CFR Citation: 40 CFR 761.1(b)

Legal Deadline: None

Abstract: Under section 6(e) of the Toxic Substances Control Act (TSCA), the Agency is proposing to reinstate the phrase "on a dry weight basis" to 40 CFR 761.1(b). This phrase was inadvertently omitted from the PCB final rule that was published in the Federal Register on July 10, 1984 (49 FR 28172). This action was withdrawn from OMB review on January 13, 1993. It will either be resubmitted at a later date or incorporated into the PCB Disposal Amendments.

Significance: Regulatory Program

Legal Authority: 15 USC 2605/TSCA 6

CFR Citation: 40 CFR 764

Legal Deadline: None

Abstract: On October 2, 1991, EPA proposed a regulation of acrylamide and NMA grouts based on the unreasonable risk associated with their usage. EPA's proposed rule would prohibit the manufacture, distribution in commerce, and use of acrylamide grout; and would prohibit all uses of NMA grout, except its use for sewer line repair. The proposed rule would also prohibit, after a period of three years, the manufacture and distribution in commerce of NMA grout for any purpose, and the use of NMA grout for sewer line repair. EPA will review the public comments and develop a final rule.

Legal Authority: 15 USC 2646/TSCA 6

CFR Citation: 40 CFR 763

Legal Deadline: Final, Statutory, November 28, 1992.

Abstract: The Asbestos School Hazard Abatement Reauthorization Act (ASHARA) amended TSCA to require that EPA revise its asbestos model accreditation plan to extend training and accreditation requirements to include persons performing certain asbestos-related work in public and commercial buildings, to increase the minimum number of training hours required for accreditation purposes and to effect other changes necessary to implement the amendments. This action will increase regulatory costs for the owners and managers of public and commercial building, but will also reduce asbestos exposures in these buildings.

3606. EXPORT NOTIFICATION REQUIREMENTS; CHANGES TO REPORTING REQUIREMENTS

Legal Authority: 15 USC 2111/TSCA 12

CFR Citation: 40 CFR 707

Legal Deadline: None

Abstract: The amendment will change the current annual export notification requirement for exporters of chemicals subject to test rules under Section 4 of the Toxic Substances Control Act (TSCA) to a one-time export notification requirement. Additionally, the amendment will change the current process internally within the Office of Pollution Prevention and Toxics by providing only one notice of export per Section 4 chemical to each importing country rather than annually.

This change in the regulation will reduce the paperwork burden to EPA and industry while increasing the value of the notifications to importing countries by emphasizing, through continued yearly notifications, exports of chemicals which are of greater concern. Alternative burden reduction mechanisms will be considered including adopting a percentage cut-off for mixtures and requiring one-time notification for chemicals the subject of TSCA Section 5 actions, among others.

3609. WATER QUALITY GUIDANCE FOR THE GREAT LAKES SYSTEM

Significance: Regulatory Program

Legal Authority: 33 USC 1251/CWA 118(c)(2)

CFR Citation: 40 CFR 132

Legal Deadline: NPRM, Statutory, June 30, 1991. Final, Statutory, June 30, 1992. NPRM, Judicial, April 16, 1993.

Abstract: The Great Lakes are a valuable national resource, with unique environmental problems. In 1990 the Great Lakes Critical Programs Act was enacted, requiring States to adopt minimum water quality standards for the protection of the Great Lakes System. This regulation constitutes the Water Quality Guidance for the Great Lakes System required by section 118(c)(2) of the Clean Water Act (Pub. L. 92-500 as amended by the Great Lakes Critical Programs Act of 1990, Pub. L. 101-596). This guidance specifies minimum water quality standards, antidegradation policies, and implementation procedures for the Great Lakes System to protect human health, aquatic life, and wildlife.

CFR Citation: 40 CFR 439

Legal Deadline: NPRM, Judicial, August 1994. Final, Judicial, February 1996.
Dates contained in Consent Decree (NRDC v. Reilly).

Abstract: The Agency will review and revise as appropriate the effluent limitation guidelines and standards for the pharmaceutical manufacturing industry. A major part of the review will consider the inclusion of limitations on toxic and non-conventional volatile organic pollutants. The 1983 proposal covering New Source Performance Standards (NSPS) for conventional pollutants will also be reevaluated.

Significance: Regulatory Program

Legal Authority: 33 USC 1344/CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will amend the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

Abstract: EPA issued revised regulations in 1988 specifying the procedures and requirements for approving and monitoring State wetlands protection programs. The regulations have been criticized for being burdensome and providing for excessive oversight of approved State programs. EPA will continue to consult with State officials while we work with the Corps of Engineers to revise the State Program Regulations and develop performance based criteria for the approval of State wetlands programs.

Abstract: This action would revise the testing provisions of the Clean Water Act section 404(b)(1) Guidelines by providing for comparisons between dredged material proposed for discharge and a reference sediment that is substantially free of contaminants. This action would make a technical improvement in the testing provisions and make dredged material testing more consistent with that under section 103 of the Marine Protection, Research, and Sanctuaries Act, which currently employs a reference sediment approach.

Legal Authority: 33 USC 2601/Shore Protection Act of 1988 (PL 100-6-88),4103(b)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Administrator, in consultation with the Secretary of Transportation, is developing regulations which may include the following: (1) requiring waste sources, receiving facilities and vessels to assure that municipal or commercial waste will not be deposited into coastal waters during loading, offloading, and transport; (2) requiring the adoption by each responsible party of a manual identifying procedures to prevent, report, and clean up deposit of waste into coastal waters including recordkeeping requirements; and (3) if the Administrator determines that tracking systems are required to assure adequate enforcement of laws preventing the deposit of waste into coastal waters, requiring installation of the appropriate systems within eighteen months after the Administrator makes that determination. Benefits resulting from regulation will be reduction of municipal and commercial waste deposited into coastal waters. This will also facilitate more effective enforcement programs to prevent such deposition.

Abstract: On April 10, 1992, EPA proposed a rule to limit the discharge of pollutants into waters of the United States and into publicly owned treatment works by existing and new facilities that manufacture pesticide active ingredients. EPA also proposed new test procedures for the analysis of pesticide pollutants in the Pesticide Chemicals Category. The agency will take final action by July 1993. In a separate action, EPA intends to propose effluent guidelines and standards for facilities which formulate, package and/ or repackage pesticide active ingredients into final products, by January 1994.

CFR Citation: 40 CFR 414

Legal Deadline: Final, Judicial, May 1993.
Final (Remand Issues) Date contained in Consent Decree (NRDC v. Reilly).

Abstract: On October 10, 1989, the U.S. Court of Appeals for the Fifth Circuit remanded a portion of the Organic Chemicals, Plastics, Synthetic Fibers (OCPSF) regulation that was originally promulgated on November 5, 1987 (54 FR 42522). The revocation notice that implemented the provisions of the remand was published on June 29, 1990 (55 FR 26691). The remanded portion was reproposed on December 6, 1991 (56 FR 63897) with a Notice of Data Availability on December 1, 1992 (57 FR 56883), and repromulgation is scheduled for May 1993.

In the interim, EPA has promulgated amendments to 40 CFR 414 to implement the provisions of settlement agreements negotiated with petitioners during litigation of the OCPSF regulation. The amendments allow regulatory authorities to establish cyanide limitations and standards based on best professional judgment for elevated levels of non-amenable cyanide that result from the unavoidable complexing of cyanide at the process source of cyanide-bearing waste streams. ABSTRACT CONT: Another amendment allows regulatory authorities to establish metals limitations and standards to accommodate low background levels of metals in non-"metal-bearing waste streams" that result from corrosion of construction materials or from contamination of raw materials. EPA also amended Appendices A and B in 40 CFR Part 414 to correct listing errors. The last amendment specifies the method for determining BOD5 and TSS effluent limitations for direct discharge plants with manufacture processes in more than one subcategory.

Legal Authority: 33 USC 1251 /CWA 304(l); 33 USC 1314 /CWA 314(a)

CFR Citation: 40 CFR 130

Legal Deadline: None

Abstract: EPA published a final rule in the Federal Register on January 4, 1989, amending 40 CFR Parts 122, 123, and 130. This regulation sets out EPA's interpretation of section 304(l) of the CWA. Section 304(l) requires states to list those waters that are adversely affected by toxic, conventional, and nonconventional pollutants. In addition, the regulation requires states to identify the point sources discharging to certain listed waters, and to prepare individual control strategies (ICSs) that will control point source discharges of toxic pollutants. On September 28, 1990, the Ninth Circuit remanded a portion of EPA's regulations. The remand requires EPA to amend its regulations to require an expanded list of point sources that impair water quality. EPA is to reconsider whether ICSs should be required for the expanded list of point source discharges.

Legal Deadline: None

Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to address more specifically procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only the limited number of municipal treatment plants which met the 1982 statutory deadline for applying for a secondary treatment waiver.

Abstract: EPA, Army Corps of Engineers, and Soil Conservation Service are proposing to incorporate portions of the Federal Manual for Identifying and Delineating Jurisdictional Wetlands into the regulations governing the agencies' wetland protection programs. These portions reflect revisions to the manual proposed on August 4, 1991 (56 FR 40446), and the final rule adopted by the agencies will be consistent with the final manual adopted by the agencies after consideration of all public comments on the manual and this proposal.

Abstract: This action will revise the Clean Water Act Section 404(b)(1) guidelines to provide an exception from the wetlands mitigation sequence (i.e., avoid, minimize, and compensate) for proposed discharges of dredged or fill material into wetlands in the State of Alaska. This action is being taken to implement the provision of the President's Wetlands Plan which allows States with less than a one percent historic rate of wetlands development to satisfy permit requirements through minimization of impacts.

CFR Citation: 40 CFR 191

Abstract: On August 15, 1985, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environment. Subsequent to promulgation of this rule, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. On September 23, 1987 the Court vacated and remanded Subpart B of the Standards to the Agency for revision consistent with its ruling. In PL 102-579, "The Waste Isolation Pilot Plant Land Withdrawal Act," Congress reinstated containment and assurance requirements vacated in 1987, and gave EPA a 6-month deadline (5/31/93) to complete the individual and groundwater protection requirements.

Abstract: The U.S. Environmental Protection Agency (EPA) approves analytical methods for analyzing regulated drinking water contaminants. Periodically, the Agency withdraws approval of outdated methods, updates older methods, and/or approves new methods. In this regulatory effort, EPA will propose to accomplish all three actions for a number of contaminants

regulated under the Safe Drinking Water Act. These revisions have been evaluated and recommended for use by EPA's Office of Research and Development and by various standards setting organizations. Laboratory acceptance limits, detection limits and other method performance requirements that were specified under previous rules will not be changed in this rulemaking. This rule should decrease the cost of monitoring by broadening the number of regulated chemicals that can be measured by a method. It will also improve monitoring accuracy and precision for many regulated contaminants, since better methods would replace older ones.

Abstract: This rule will set an MCLG and revised NPDWR for arsenic in drinking water, pursuant to the SDWA amendments of 1986. The SDWA requires EPA to promulgate national primary drinking water regulations for 83 specific contaminants of which arsenic is one. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects on the health of persons occur and which allows for an adequate margin of safety." MCLs are the federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration.

Abstract: EPA is scheduled to propose MCLGs and NPDWRs for 25 contaminants from the Drinking Water Priority List, as required by the SDWA of 1986. The SDWA requires regulation of at least 25 contaminants, which are known or anticipated to occur in public water systems, every three years starting in 1991. The SDWA directs EPA to promulgate MCLGs at a level at which, in the Administrator's judgment, "no known or anticipated adverse effects occur and which allows for an adequate margin of safety." MCLs are federally enforceable standards and are set as close to the MCLGs as is feasible, taking costs into consideration. The 25 contaminants come from two groups of contaminants: disinfection by-products (Phase VI A) and organic and inorganic chemicals (Phase VI B). The disinfection by-products portion of this rule is currently undergoing regulatory negotiation.

Abstract: EPA is reconsidering the NPDWRs for aldicarb, aldicarb sulfoxide aldicarb sulfone, and atrazine. New analyses of critical studies have caused the RfDs for all four chemicals to be re-examined. Consequently, EPA is considering the need to revisit the MCLGs and MCLs as well. Legal Authority: 42 USC 300f/SDWA 1421 to 1425

CFR Citation: 40 CFR 147

Legal Deadline: None

Abstract: The Safe Drinking Water Act (SDWA) requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. EPA is proposing amendments to its Underground Injection Control (UIC) program regulations for the Osage Mineral Reserve in Oklahoma (40 CFR 147 Subpart GGG) to allow the Regional Administrator flexibility to waive certain technical requirements for temporary abandoned wells and to designate a portion of the Happy Hollow and Z-Sand aquifers in Western Osage County, Oklahoma as exempted aquifers. The proposed changes will provide the Regional Administrator with the same flexibility that presently exists in the generic Federal regulations (40 CFR 144.28(c)(2)(iv) and 144.52(a)(6)) to waive certain technical requirements applicable to active injection wells upon a demonstration by the owner or operator that the well will not endanger underground sources of drinking water during the period of temporary abandonment.

Abstract: Part C of the SDWA directs EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. The greatest number of injection wells are Class II (oil and gas related) wells operated by the petroleum industry for disposal of produced brines and enhanced recovery projects. EPA is considering proposing standards for all newly constructed or converted (from production operations) Class II injection wells. These standards may establish new or incremental performance criteria to ensure protection of underground sources of drinking water (USDWs).

Abstract: The SDWA requires EPA to develop regulations for the protection of underground sources of drinking water from contamination by injection wells. Previously promulgated regulations specified minimum standards and technical requirements for Class I-IV wells. Class V wells, including certain septic systems and a variety of drainage wells, are the subject of this action. EPA intends to establish a regulatory framework for the management of these wells that will protect against contamination of groundwater while recognizing the difficulties of this diverse well class. Development of any regulatory program will focus on providing maximum flexibility to State, sub-state, and local entities. EPA will characterize risks associated with various Class V injection wells since data are unavailable for risk assessments on an individual subcategory basis.

3658. NATIONAL PRIMARY DRINKING WATER REGULATION: RADIONUCLIDES

Significance: Regulatory Program

Legal Authority: 42 USC 300/SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Final, Statutory, June 19, 1989. NPRM, Judicial, June 15, 1991. Final, Judicial, April 17, 1993. EPA has requested an extension to this deadline from the Court.

Abstract: EPA has proposed Maximum Contaminant Levels Goals (MCLGs) and Primary Drinking Water Standards for radionuclides in drinking water. These radionuclides include radium, uranium, radon, total alpha, and beta particle and photon emitters. This rule also establishes analytical techniques to identify Radium 228 in drinking water, which was being developed independently in the past (see RIN 2040-AB90, SAN No. 2782).

3664. GUIDELINE FOR FEDERAL PROCUREMENT OF PLASTIC PIPE PRODUCTS

Legal Authority: 42 USC 6912(a)RCRA 6002

CFR Citation: 40 CFR 248

Legal Deadline: None

Abstract: RCRA Section 6002(e) requires EPA to prepare guidelines for use by procuring agencies in complying with the requirements of section 6002. The guidelines must first designate items that are or can be produced with recovered materials for which a federal procurement guideline is appropriate. Second, the guidelines must provide product information concerning the availability and performance of products produced with recovered materials. Third, the guidelines are to set forth recommended procurement practices to aid procuring agencies in complying with section 6002. After the date specified in an applicable guideline, section 6002(c) requires each procuring agency which procures any item designated in a guideline to procure the item composed of the highest percentage of recovered materials practicable except in statutorily specified circumstances. To date, EPA has issued five procurement guidelines. This action will designate plastic pipe products for which the procurement requirement of RCRA section 6002 apply.

CFR Citation: 40 CFR 234

Legal Deadline: Final, Statutory, October 28, 1990.

Abstract: Plastic ring carriers have been found in the marine environment and fish and other wildlife have become entangled in them. Ring carriers were identified as an article of concern in the marine environment in EPA's February 1990 report to Congress on plastics. Congress has determined that degradable carriers should reduce the incidence of entanglement and has directed EPA to develop regulations that ring carriers be made of degradable material unless EPA finds that degradable rings pose more risk than non-degradable rings. EPA may specify degradability time frames and testing methods. A number of States currently require degradable rings. Nearly all rings manufactured in the United States are currently photodegradable.

Significance: Regulatory Program

Legal Authority: 42 USC 6901/RCRA 1001

EPA—RCRA

Proposed Rule Stage

CFR Citation: 40 CFR 268

Legal Deadline: None

Abstract: The Hazardous and Solid Waste Amendments of 1984 require EPA to promulgate regulations prohibiting one or more methods of land disposal of hazardous wastes. The rules define treatment standards that must be met before hazardous waste may be disposed of on land. The final rule for scheduled wastes (those listed as hazardous prior to November 8, 1984) became effective on May 8, 1990. The present rulemaking revises existing standards for soil contaminated with hazardous wastes.

VOL 58 ISS 78 AP 26 1993 UMI

Abstract: The delisting program intends to promulgate the use of EPA's Composite Model for Landfills (EPACML) into the delisting regulations, for predicting the potential impact on human health and the environment of hazardous constituents that may be released from the petitioned wastes. In the past, the Agency has used the EPACML in the promulgation of the Toxicity Characteristic rule (55 FR 11798, March 29, 1990), and in the evaluation of a specific delisting petition (56 FR 32993, July 18, 1991 and 56 FR 67197, December 30, 1991).

Currently, the RCRA regulations do not include any specific model for use in delisting. The Agency must now propose the use of a specific model in each separate delisting decision, and respond to comments in each case. This codification will reduce this burden.

3679. IDENTIFICATION AND LISTING OF HAZARDOUS WASTE: CARBAMATE CHEMICALS

Legal Authority: 42 USC 6912(a)/RCRA 3001; 42 USC 6921; 42 USC 9602(a); 42 USC 6905; 42 USC 6922

CFR Citation: 40 CFR 261; 40 CFR 271; 40 CFR 302

Legal Deadline: Final, Statutory, February 8, 1986. NPRM, Judicial, December 31, 1993. Final, Judicial, January 31, 1995.

Abstract: Section 3001(e) of RCRA requires EPA to make a determination of whether or not to list carbamate wastes as hazardous wastes. Carbamate chemical production includes all carbamates, carbamoyl oxime, thiocarbamate and dithiocarbamate chemicals for all end uses, including but not limited to: intermediates, herbicides, insecticides, fungicides or rubber processing additives. Carbamate production also includes intermediate compounds used primarily as inputs to carbamate processes. The Agency committed to propose by December 31, 1993, and to promulgate its determination by January 31, 1995. These wastes may also be designated as hazardous substances under CERCLA.

Legal Deadline: NPRM, Judicial, March 31, 1993. Final, Judicial, December 31, 1993.

Abstract: This action will propose to list or not to list as hazardous under RCRA wastewaters, process residuals, protectant drippage, and discarded formulations from wood protection processes at facilities that currently use or have previously used chlorophenolic formulations. These chemicals are applied to freshly cut lumber at sawmills to protect the wood against sap stain and molds which can grow on the wood during storage.

Legal Deadline: None

Abstract: Under the existing exclusion, up to 1000 kg of non-acutely hazardous waste may be treated from a single waste stream with a maximum of 250 kg (less than two drums) per day. This quantity limit is insufficient for testing many pilot-scale technologies and serves as an impediment to the development of new technology and inhibits broader treatability testing at hazardous waste sites. The proposed action involves a revision of the RCRA Treatability Study Exemption Rule (40 CFR 261.4(e)-(f)). A new limit will be considered based on needs for testing and de minimus risk.

Abstract: The Agency is proposing to amend the regulations for hazardous waste management under RCRA by amending the basis for listing a hazardous waste (i.e., pentachlorophenol production wastes) under 40 CFR 261.31. The Agency is also proposing to amend one hazardous waste (i.e., delete part of FO27 - discarded unused formulations of pentachlorophenol and compounds derived from pentachlorophenol) listed in 40 CFR 261.33 and to add one waste (i.e., U242 - pentachlorophenol) to the list of hazardous wastes in 40 CFR 261. FO21 and U242 would no longer be subject to management standards for acute hazardous wastes. Lastly, the Agency is proposing to clarify the criteria used in 40 CFR 261.11 for listing solid wastes as hazardous. This rule proposes less stringent hazardous waste management standards for FO21 and discarded unused portions containing pentachlorophenol.

Abstract: This amendment may require States to modify their hazardous waste reporting system to collect additional data elements from their large quantity generators and treatment, storage, and disposal (TSDs) facilities. Currently, States are required to collect only minimal data from generators on quantities and types of waste generated and how such wastes are managed at TSDs. These minimal data requirements were last revised in 1985 with amendments to parts 40 CFR 262.41 (generators) and 40 CFR 264.75 and 40 CFR 265.75 (TSDs).

Legal Deadline: None

Abstract: On January 13, 1992, the Utilities Solid Waste Activities Group (USWAG) petitioned EPA to create a conditional exemption from full Subtitle C permitting requirements for certain small commercial mixed waste generators that are already permitted by the NRC. The generators include medical schools, universities,

biotechnology laboratories, and pharmaceutical companies. This new category would include NRC licensees that generate less than 1000 kg/month of mixed waste, counting mixed waste as distinct from other hazardous waste. EPA and NRC must together determine how to ensure adequate protection of human health and the environment in order for any streamlined permitting of NRC licensed facilities to be implemented.

Abstract: The Agency has decided to authorize Indian Tribes to implement the Subtitle C program. This regulation will establish the definition of an Indian Tribe and the criteria an Indian Tribe must meet for authorization purposes. Since the Agency also decided that Indian Tribes may be authorized for partial programs (States are not allowed partial State programs under RCRA authorization), the regulation will address this program difference. The regulation will also address Indian capability, including criminal enforcement capability. CFR Citation: 40 CFR 258.51(b)

Legal Deadline: None

Abstract: The RCRA Subtitle D Solid Waste Disposal Facility Criteria, among other provisions, require owners/operators of municipal solid waste landfills to monitor groundwater to detect a release from their landfills. The Criteria ban the filtering of groundwater samples in the field because filtering potentially removes some of the contamination found in the solid phase of the samples. Since promulgation of the Criteria, a number of States and industry groups have stated that it is important to field filter groundwater samples for metals to avoid potential false indications of a landfill release to groundwater. The commenters maintain that the analytical results using filtered samples are sufficiently protective and are as effective as unfiltered samples required in the Criteria. This notice of proposed rulemaking (NPRM) announces the Agency's intent to perform additional study on field filtering and solicits further public comment and data on this issue. In addition, this NPRM seeks comment on the appropriateness of allowing States/Tribes with EPA-approved permit programs to lift the ban on a site-specific basis.

Significance: Regulatory Program

Legal Authority: 42 USC 6945/RCRA 4005

CFR Citation: 40 CFR 239

Legal Deadline: None

Abstract: Regulations will describe procedures EPA will use to make determinations of adequacy for State/Tribal solid waste permitting programs, as required by Section 4005 of the Solid Waste Disposal Act, as amended (RCRA). This adequacy determination regulation is critical to the successful implementation of the Revised Criteria (40 CFR 258). Section 4005(c)(1)(B) requires States to adopt and implement a permit program, or other system of prior approval, within 18 months after the promulgation of revised criteria under Section 4004(a), as required by Section 4010(c). 3700. GUIDELINE FOR FEDERAL PROCUREMENT OF PAPER AND PAPER PRODUCTS CONTAINING RECOVERED MATERIALS

Legal Authority: 42 USC 6912(a)/RCRA 6002

CFR Citation: 40 CFR 250

Legal Deadline: None

Abstract: RCRA Section 6002 states that if a procuring agency purchases certain designated items, such items must be composed of the highest percentage of recovered materials practicable. EPA is required to designate these items, prepare guidelines to assist procuring agencies in complying with the requirements of Section 6002, and revise these guidelines "from time to time." To date, EPA has issued five procurement guidelines, including one for paper and paper products containing recovered materials, promulgated on June 22, 1988. Much has changed in the papermaking industry over the past three years in terms of technological advancement and the willingness to respond to consumer demand for recycled products. The proposed notice will revise the existing paper procurement guideline by recommending new minimum recycled content standards for various grades of paper. These revised standards will better reflect the capabilities and practices of paper manufacturers and increase the utility of the paper guideline.

Abstract: RCRA Section 6002(e) requires EPA to prepare guidelines for use by procuring agencies in complying with the requirements of section 6002. The guidelines must first designate items that are or can be produced with recovered materials for which a federal procurement guideline is appropriate. Second, the guidelines must provide product information concerning the availability and performance of products produced with recovered materials. Third, the guidelines are to set forth recommended procurement practices to aid procuring agencies in complying with section 6002. After the date specified in an applicable guideline, section 6002(c) requires each procuring agency which procures any item designated in a guideline to procure the item composed of the highest percentage of recovered materials practicable except in statutorily specified circumstances. To date, EPA has issued five procurement guidelines. This action will designate hydraulic mulch products as products for which the procurement requirement of RCRA section 6002 applies.

3704. CLARIFY LENDER LIABILITY FOR UNDERGROUND STORAGE TANKS

Significance: Regulatory Program

Legal Authority: 42 USC 6991/RCRA 9001; 42 USC 6991/RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: None

Abstract: This regulation will clarify the liability of secured creditors ("lenders") regarding contaminated properties they hold as collateral. The clarification is needed to remove a current barrier to the financing of underground storage tank (UST) facilities and increase the amount of capital available to UST owners. Without adequate financing, many UST owners will be unable to make the improvements to their facilities necessary to comply with environmental regulations. EPA committed to preparing this rule under a similar rule promulgated under CERCLA (57 FR 18344) on April 29, 1992. This rule should help both private and public entities in obtaining financing for their UST-related activities.

Legal Authority: 42 USC 6991/RCRA 9003

Abstract: This regulation will establish, under Subtitle I of RCRA (as amended by SARA), requirements for demonstrating financial responsibility for taking corrective action and compensating third parties for bodily injury and property damage caused by releases from underground storage tanks (USTs) containing hazardous substances. An ANPRM was published to help gather data (e.g., frequency of releases from such USTs, costs of corrective action and third-party damages, and the regulated community's financial condition and use of financial assurance mechanisms) needed for the development of a proposed rule.

Abstract: Following a major inland oil spill with substantial environmental impacts (i.e., Ashland Oil in Floreffe, PA, in January, 1988) an interagency task force reviewed the adequacy of existing EPA regulations concerning the prevention and control of oil spills (40 CFR 112). The task force recommended a number of steps to improve and extend the regulations. The final rule implements some of the task force recommendations. It will clarify that many provisions of the existing regulations that may be interpreted as recommended practices by the regulated community are in fact required practices.

Abstract: This rule interprets 1) the requirements of Section 112(d)(3) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA as amended by the Superfund Amendments and Reauthorization Act of 1986 (SARA) and codifies the revised off-site policy directive (November 13, 1987). CERCLA Section 121(d)(3) and the directive describe procedures that must be followed when conducting a response action funded under CERCLA or dealing with CERCLA wastes. Section 121(d)(3) specifies that wastes from removal or remedial actions under CERCLA that se transferred off-site only be transferred to: 1) facilities that are in compliance with Sections 3004 and 3005 of the Resource Conservation and Recovery Act (RCRA) and other applicable Federal laws and State requirements, and 2) facilities where receiving land disposal units are not leaking and where releases from other (non-receiving units) are under a corrective action program. The rule prescribes procedures whereby affected facilities may ask EPA for review of the off-site acceptability determinations.

Abstract: EPA is promulgating treatment standards for certain ignitable and corrosive wastes pursuant to the September 25, 1992 decision of the U.S. Court of Appeals in Chemical Waste Management v. EPA, 976 F. 2d (D.C. Cir. 1992). The underlying rule at issue in the court opinion was signed on May 8, 1990, and published June 1, 1990 (55 FR 22520). Because land disposal of these wastes would be prohibited if

Abstract: This rulemaking will propose to modify the regulatory program for hazardous waste recycling. A number of specific modifications may address activities such as battery recycling, and management of recalled pesticides. Abstract: This action proposes to suspend the Toxicity Characteristic (TC) rule in States with adequate petroleum response programs, as it applies to non-UST petroleum contaminated media and debris, for a period of three years. This action would generally be consistent with the UST deferral in the TC rule. During this period the Agency would collect additional data, perform additional analyses, and explore other administrative and legal options and issues in preparation for making a final decision as to the appropriate RCRA regulatory treatment for these materials.

Legal Authority: 42 USC 6921/RCRA 3001

CFR Citation: 40 CFR 261

Legal Deadline: None

Abstract: In the final hazardous waste Toxicity Characteristic (TC) rule, EPA decided to temporarily defer a final decision on the application of the TC rule to media and debris contaminated with petroleum from underground storage tanks (USTs) that are subject to UST corrective action requirements under 40 CFR Part 280. The Agency believed the UST regulations governing cleanups at these sites would be adequate in the interim. The application of the TC rule to UST cleanups was temporarily delayed so that the Agency could evaluate the extent and nature of these impacts and alternative mechanisms for implementing UST cleanups. The Agency has completed studies of the characteristics of UST corrective action sites, and current practices for management of media and debris under subtitle I State programs. After evaluation of public comments on the studies, EPA will make a final determination, through the issuance of a proposed and final rule, regarding the applicability of the TC rule to UST petroleum-contaminated media and debris.

Abstract: On March 30, 1992, the Organization for Economic Cooperation and Development (OECD) adopted the Council's Final Decision on the Control of Transfrontier Movements of Wastes Destined for Recovery Operations. The United States, a member of the OECD, supported the Decision, which is legally binding. The Decision establishes a graduated system of procedural controls for the export and import of wastes for recovery, depending on whether a waste is included in the green, amber, or red lists. Green waste are subject only to controls imposed in normal international commercial shipments. Amber and red wastes that are considered hazardous are subject to additional controls regarding notification to and consent from the exporting, importing, and transit countries; contracts, tracking documents; and recordkeeping. These provisions are being codified in a final rule which will replace the current RCRA export/import regulations for hazardous waste destined for recovery within the OECD. (cont)

Abstract: As required by consent decree, the Agency determined that it will undertake additional study of the remaining fossil fuel combustion wastes before making Final Regulatory Determination on these wastes. The phrase "remaining wastes" refers to (1) fly ash, bottom ash, boiler slag, and flue gas emission control wastes from the combustion of coal by electric utility power plants when such wastes are mixed with, co-disposed, co-treated, or otherwise co-managed with other wastes generated in conjunction with the combustion of coal or other fossil fuels, and (2) any other wastes subject to section 8002(N) of RCRA other than fly ash, bottom ash, boiler slag and flue gas emission control wastes that are not mixed with, co-disposal, co-treated, or otherwise co-managed with other wastes generated in conjunction with the combustion of coal or other fossil fuel. The additional studies will be completed by September 30, 1997, and will be followed by a Final Regulatory Determination by April 1, 1998.

Abstract: This action is deregulatory. Currently, used fluorescent lamps often test hazardous under the Toxicity Characteristic because of their mercury content. However, available information Indicates that these lamps may not create an environmental problem when disposed in municipal landfills. In addition, there are substantial environmental benefits from using fluorescent lamps, primarily due to energy savings. Therefore, the Agency is looking at options for exempting fluorescent lamps from the Toxicity Characteristic.

Abstract: These regulations set forth the technical and procedural requirements for conducting corrective action to clean up significant releases to air, surface water, groundwater and soil at solid waste management units (SWMUs) at operating, closed, or closing RCRA facilities. The regulations will be used to define the structure of the program, and the requirements for implementing remedial action, remedy selection and corrective measures. Legal Deadline: Final, Statutory, May 1987. Final, Judicial, November 1994.

Abstract: The purpose of this action is to investigate the health and environmental impacts of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Sources include surface impoundments, landfills, waste piles, land treatment operations and wastewater treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach, with Phase I concerning organic emission leaks and vents, Phase II concerning hazardous waste storage tanks impoundments, and Phase III dealing with residual risks from particular hazardous organic constituents.

3722. EXTENSION OF STATES INTERIM AUTHORIZATION OPTION TO CARRY OUT POST-HSWA REGULATIONS

Legal Authority: 42 USC 6926/RCRA 3006(g)

CFR Citation: 40 CFR 271.24

Legal Deadline: None

Abstract: This action will extend the interim authorization option available to States beyond January 1, 1993. Interim authorization allows a State which has been granted RCRA base program authorization to carry out post-HSWA regulations once it has submitted evidence that these regulations are substantially equivalent to the federal requirements. The Agency proposes to extend the availability of interim authorization to January 1, 2003.

Legal Authority: 42 USC 6924/RCRA 3004(u), 3004(y), 3008(h)

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None

Abstract: EPA has finalized regulations that provide for the use of corrective action management units (CAMUs) and temporary units when cleaning up sites under RCRA and Superfund. These provisions are expected to address the difficulties associated with management of remediation wastes that current Subtitle C regulations have created for the management of remediation wastes. Under this final rule, placement (or replacement) of hazardous wastes into a CAMU will not automatically trigger land disposal restrictions (LDRs) and/or minimum technology requirements (MTRs). The temporary unit provisions allow EPA to modify Subtitle C design, operating and closure standards for tanks and container storage used for remediation wastes for a period of one year. Under the rule, appropriate treatment plan for a particular site. This is expected to result in more expeditious cleanups, and will promote the use of new, innovative treatment technologies.

3730. • REPORT TO CONGRESS AND REGULATORY AGENDA FOR VOCS FROM CONSUMER AND COMMERCIAL PRODUCTS

Legal Authority: Clean Air Act as amended in 1990, Section 183(e)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The use of consumer and commercial products has been identified as a potential source of VOC emissions. Section 183(e) of the Clean Air Act, as amended in 1990, requires that EPA conduct a study of VOC emissions from consumer and commercial products. The objectives of the study are (1) to determine the potential of these products to contribute to ozone nonattainment; and (2) to establish criteria for selecting categories of products for regulation under Section 183(e). Not later then November 1993, EPA must submit a report to Congress that documents the results of the study. Upon submission of the report to Congress, EPA must list those categories of consumer and commercial products that have been determined, based on the study, to account for at least 80 percent of the VOC emissions from consumer and commercial products. This list, which is to be divided into four groups by priority according to the selection criteria, will comprise the regulatory agenda.

Abstract: Section 606 requires the Agency to grant or deny petitions received to promulgate regulations to accelerate the phaseout of Class I chemicals (CFCs, methyl chloroform, carbon tetrachloride) within 180 days of receipt. If the Agency grants a petition and proposed regulations accelerating the phaseout, it must promulgate a final rule one year after the proposal. The Agency has received two petitions to date requesting the acceleration of the phaseout, the first of which was submitted on December 3, 1991.

Abstract: The purpose of this action is to amend EPA's existing new source review regulations, including prevention of significant deterioration, and associated requirements for best available control technology. In addition, certain other revisions will be made to improve the clarity of the existing regulatory language. This rulemaking will satisfy obligations under Exhibit B of the settlement agreement in Chemical Manufacturers vs. EPA, No. 79-112 (D.C. Cir.). The

VOL 58 ISS 78 AP 26 1993 UMI

regulations contain procedures for reviewing, permitting, and specifying controls for the construction and modification of major air pollution sources in attainment and nonattainment areas. Several new source review regulations will be affected, including the State implementation requirements for the review of new sources and modifications (40 CFR 51.160-166 and Appendix S), the Federal prevention of significant deterioration program (40 CFR 52.21), and Federal restrictions on new source construction (40 CFR 54.24).

Abstract: These rulemakings will establish uniform provisions for state programs to require certain centrally fueled fleets to include some clean-fuel vehicles in their new vehicle purchases. Two rulemakings are involved. The first establishes guidelines for a clean-fuel fleet credit program, regulations governing transportation control measures exemptions for clean-fuel fleet vehicles, and provisions affecting Federal Fleet Facilities. The second includes regulations governing the conversion of conventional vehicles to meet clean-fuel fleet vehicle requirements, heavy-duty standards for all vehicle/engine classes, and general provisions for state implementation of the Clean-Fuel Fleet program.

Significance: Regulatory Program

Legal Authority: 42 USC 7410/CAA 110

CFR Citation: 40 CFR Not applicable

Legal Deadline: None

Abstract: In order to determine compliance with the volatile organic compounds rules for certain types of printing and coating operations, it is necessary to determine the effectiveness of the system for collecting the vapors to be ducted to a control device, referred to as capture efficiency (CE). EPA is undertaking a 12-month study to investigate less expensive ways of using the current CE guidance, as well as possible alternatives for determining CE. EPA will issue alternative CE methods guidance followed by rulemaking to incorporate CE methods into EPA regulations.

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 129

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, November 1992.

Abstract: The EPA is developing new source performance standards (NSPS) and emission guidelines (EG) for existing sources under Sections 111 and 129 of the Clean Air Act. The NSPS is to reflect the maximum degree of reductions in emissions that have been demonstrated for new units. The EG may be less stringent than the standards for new units. States must submit plans for implementing and enforcing the guidelines. Section 129 requires emission limits be established for particulate matter, sulfur dioxide, hydrogen chloride, oxides of nitrogen, carbon monoxide, lead, cadmium, mercury, and dioxins and dibenzofurans.

Significance: Regulatory Program

Legal Authority: 42 USC 4111/Clean Air Act Amendments of 1990, Section 129

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, November 1991.
Final deadline for Phase II/Large MWCs is November 1991. Final deadline for Phase III/Small MWCs is November 1992.

Abstract: The Clean Air Act Amendments of 1990 direct EPA to set standards of performance and emission guidelines for new and existing municipal waste combustors under Sections 111 and 129; to base these standards and guidelines on maximum achievable control technology; and to include emission limits for particulate matter, sulfur dioxide, hydrogen chloride, oxides of nitrogen, carbon monoxide, mercury, lead, cadmium, and dioxins and dibenzofurans. The standards for both large and small municipal waste combustors have been combined into one set of standards.

Legal Authority: 42 USC 7411/CAA 111; Clean Air Act Amendments of 1990, sec 403

CFR Citation: 40 CFR 60

Legal Deadline: Final, Statutory, November 1993.

Abstract: Subpart Da of 40 CFR part 60 applies to large electric utility steam generating facilities. EPA is revising this NSPS, pursuant to Section 403 of the Clean Air Act Amendments of 1990. This section requires the SO2 emission limitations be revised to reflect changes in Section 111. The revised emission limitations are to result in emissions compliance with the existing NSPS. Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: Chromium compounds are among the pollutants listed as hazardous air pollutants in Section 112 of the Clean Air Act Amendments of 1990. Industrial process cooling towers that use chromate-based water treatment programs have been identified by EPA as potentially significant sources of chromium air emissions and, as such, a source category for which national emission standards may be warranted. Emission standards would substantially reduce the amount of chromium discharged to the atmosphere from industrial process cooling towers.

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline:
Consent Decree to propose by 11/15/93; promulgate within 12 months of proposal.

Abstract: An NSPS was proposed for this source category in 1980. Subsequently, in 1987, the Agency solicited public participation in information gathering in preparation for a decision on whether to regulate this source category under the NESHAP program, the NSPS program, or both. The NESHAP regulations are being developed and would apply to new and existing organic halogenated solvent cleaners (degreasers) using any of the hazardous air pollutants listed in the Clean Air Act, as amended. By consent decree, the Agency has to propose a rule for this project by November 15, 1993, and promulgate the rule within twelve (12) months of the proposal.

3759. NESHAP: PULP AND PAPER

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: None

Abstract: This standard would control air emissions of hazardous air pollutants from pulp and paper mills. The regulation could address air emissions from process vents, storage tank vents, spills, kraft, soda, sulfite, and semichemical mills, and wastewater collection and treatment associated with the following noncombustion mill areas: pulping, turpentine recovery, oil recovery, pulp washing, prebleaching, bleaching, evaporation, and paper making. This regulation may also control air emissions from units associated with the liquor recovery cycle such as the recovery of furnace, lime kiln, causticizing tanks, and smelt tanks. Air emission standards for noncombustion sources at kraft, soda, sulfite, and semichemical mills are being integrated with the Clean Water Act effluent guideline limitations under development for these mills (see RIN 2040-AB53). The standards for this industry will be proposed and promulgated on a phased schedule.

Abstract: Section 112(a) of the CAA Amendments of 1990 defines major source as any source that emits 10 tons or more per year of any hazardous air pollutant (HAP) or 25 tons or more per year of any combination of HAP. The ton quantities are inappropriate for radionuclides, as very small emissions of radiation may be extremely hazardous. The statute authorizes different criteria to be established for radionuclides. Significance: Agency Priority

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 1994.
EPA is required to promulgate 25% of the listed source categories by November 15, 1994. EPA is planning to promulgate this action by that date to satisfy part of this statutory obligation.

Abstract: Gasoline vapors contain about ten of the hazardous air pollutants HAPs listed in Section 112 of the Clean Air Act Amendments of 1990. These HAP emissions occur during transferring and storage operations. Facilities being analyzed are bulk gasoline terminals and plant pipe facilities, and gasoline service stations. Control alternatives of major sources of emissions (large size terminals and pipeline facilities) are the only alternatives being considered. Costs average about eighteen million dollars per year with benefits of about two thousand tons of HAP reduced, and about forty thousand tons of volatile organic compounds.

EPA is required to promulgate 25% of the listed source categories by November 15, 1994. EPA plans to promulgate this standard by that date to satisfy part of this statutory obligation.

Abstract: EPA is developing a NESHAP for the major source category of magnetic tape manufacturing. This industry manufactures audio video and computer tape by coating a plastic substrate (tape) with a solvent-based magnetic coating. The primary HAPs used in this industry are methyl ethyl ketone, methyl isobutyl ketone, and toluene. These are used both as a solvent for heating and as a cleaning solution for cleaning operations. EPA promulgated an NSPS for this industry in 1988. The standards for the NESHAP are to be technology-based and are to require the maximum achievable control technology (MACT) as described in section 112 of the CAA.

3771. ESTABLISHMENT OF GUIDANCE FOR IMPLEMENTING CLEAN AIR ACT, SECTION 112(J) PROVISIONS FOR MAKING MACT DETERMINATIONS WHEN EPA FAILS TO PROMULGATE A FEDERAL STANDARD

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 112(j)

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, May 1992.

Abstract: In the event that EPA fails to promulgate MACT standards on time, States are required by the Clean Air Act to establish case-by-case MACT compliance limits for every major source of emissions that would have been subject to the MACT standard. This guidance is intended to aid the States in making those compliance determinations which the CAA specifies be equivalent to what MACT standards would have required. The guidance is intended to resolve technical issues concerning overlap with other Section 112 programs, and will provide a basis for uniform determinations to be made across a regulated industry. The MACT determinations will be enforced through the Title V permitting process.

3772. APPROVAL AND DELEGATION OF FEDERAL AIR TOXICS PROGRAMS TO STATE AND LOCAL AGENCIES

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: The legal authority to delegate Federal Title III - Air Toxics to State and local agencies for implementation and enforcement is contained in Section 112(l). This section also gives EPA authority to approve State and local programs that are at least as stringent as the Federal program. EPA is undertaking this rulemaking to develop guidance for State and local agencies seeking approval or delegations.

3773. NESHAP: AEROSPACE INDUSTRY

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 1994.
EPA is required to promulgate 25% of the listed source categories by November 15, 1994. EPA plans to promulgate this standard by that date to satisfy part of this statutory obligation.

Abstract: This NESHAP will be based on maximum achievable control technology (MACT). The NESHAP will address all hazardous air pollutants (HAPs) emitted by all processes associated with the manufacture and rework of military and commercial aircraft, subassemblies, and aircraft parts. The majority of HAP emissions from the category come from solvent usage (i.e. MEK, MIBK, toluene, methylene chloride, etc.).

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 1994.
EPA is required to promulgate 25% of the listed source categories by November 15, 1994. EPA plans to promulgate this standard by that date to satisfy part of this statutory obligation.

Abstract: Secondary lead smelters are a major source of hazardous air pollutants, and are listed as such on the source category list. Potential pollutants from this industry include lead compounds, antimony compounds, other toxic metals, hydrogen chloride, benzene, dioxins, furans, and other organic compounds.

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 1994.
EPA is required to promulgate 25% of the listed source categories by November 15, 1994. EPA is planning to promulgate this action by that date to satisfy part of this statutory obligation.

Abstract: This rule will specify maximum control technology (MACT) for facilities that treat, store, dispose of, recycle, recover and/or rerefine solid waste received from off-site. These facilities include commercial waste treatment facilities, used oil rerefining solvent recovery plants, transfer stations, and industrial landfills. Regulatory alternatives and cost/benefit analyses have not yet been developed.

Legal Authority: 42 USC 1857 et. seq.; 44 USC 350 et. seq.; 4 USC 605; EO 12291

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, November 15, 2000.

Abstract: The Clean Air Act, as amended in 1990, requires the EPA to (1) publish an initial list of all categories of major and area sources of the hazardous air pollutants (HAPs) listed in Section 112(b) of the CAA, (2) promulgate a schedule establishing a date for the promulgation of emissions standards for each of the listed categories of HAPs emission sources, and (3) develop emission standards for each source of HAPs. These standards are to be technology-based and are to require the maximum degree of emission reduction determined to be achievable by the Administrator. The Agency has determined that the

mineral wool production industry may reasonably be anticipated to emit several of the 189 HAPs listed in Section 112(b) of the CAA. As a consequence, a regulatory development program is being pursued for the mineral wool production industry to promulgate emission standards within 10 years of enactment of the Clean Air Act Amendments.

3777. • SEQUENCE OF APPLICATION OF MANDATORY SANCTIONS UNDER SECTION 179

Significance: Agency Priority

Legal Authority: Clean Air Act as amended in 1990, Section 179

CFR Citation: 40 CFR 52

Legal Deadline: Final, Statutory, April 22, 1993.
EPA issued initial findings under section 179 on October 22, 1991. Consequently, it may be necessary to impose the first sanctions 18 months from that date.

Abstract: Section 179 of the CAA mandates the imposition of certain sanctions. These sanctions follow one of three types of findings: (1) finding of failure to submit a required SIP, (2) finding of SIP disapproval, or (3) finding of nonimplementation. The two available sanctions are highway funding restriction and a 2-to-1 emission offset requirement for major new or modified stationary sources. Section 179(a) requires EPA to select one of these two sanctions after 18 months from a finding if the deficiency prompting the finding is not corrected, and the second sanction 6 months later if the deficiency remains uncorrected. The purpose of this action is to streamline, to the extent possible, the process of deciding the order of sanction application under section 179 by promulgating a rule which states, as a general matter, the order in which EPA would apply the sanctions.

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 183

CFR Citation: 40 CFR 90

Legal Deadline: Final, Statutory, November 1992.

Abstract: This regulation will control volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) emissions from tank vessel loading operations. A regulation is required by Section 183 of the Clean Air Act Amendments of 1990. Approximately 65,000 megagrams of VOCs and 8,000 megagrams of HAPs are emitted annually from tank vessel loading operations.

Significance: Regulatory Program

Legal Authority: 42 USC 7521/CAA 202; 42 USC 7525/CAA 301; 42 USC 7601/CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will establish procedures under which vehicle manufacturers will demonstrate durability of their emission control systems during certification of passenger cars and light-duty trucks beginning with the 1996 model year. Under a separate action (SAN 2949), EPA is promulgating revised light-duty durability procedures for certification of model years 1994 and 1995, in line with revised useful life levels mandated by the Clean Air Act Amendments of 1990. The long term durability program will translate into regulation ongoing efforts by the EPA and vehicle manufacturers to develop durability procedures that will more accurately predict the emission deterioration of vehicles in actual use.

3780. • COLD TEMPERATURE CARBON MONOXIDE EMISSIONS AVERAGING

Legal Authority: 42 USC 7521/CAA 202(j)

CFR Citation: 40 CFR 86 subpart A

Legal Deadline: None

Abstract: In the Cold Temperature Carbon Monoxide Emissions notice of proposed rulemaking published September 17, 1990 (55 FR 38250), EPA solicited and subsequently received comments regarding a cold temperature CO emissions averaging program, although it did not propose such a program. In the Final Rule, promulgated July 17, 1992 (57 FR 31888), EPA stated that it would publish a proposal regarding an averaging program in the near future, taking the comments received into consideration. The Agency intends to propose an averaging, banking and trading program modelled after such programs already in place for other mobile source pollutants and vehicle classes. Such a program would allow manufacturers additional flexibility to optimize their emission control systems, thus potentially reducing control costs while achieving emission reductions essentially equivalent to those required by the non-averaged standards. The expected effective model year is 1996, which is the first year the current regulations require 100% compliance with the cold temperature CO standards.

Legal Authority: Clean Air Act sections 202, 203(a), 301(a)

CFR Citation: 40 CFR Part 86

Legal Deadline: None

Abstract: The interest in adopting California emission requirements by other States under section 177 of the Clean Air Act has raised critical implementation and enforcement questions. These questions will affect manufacturers, dealers, and distributors who sell cars in section 177 and their bordering States. Basically, a system must be developed which will allow section 177 State dealers to sell Federal cars and for dealers in those surrounding States to sell California cars, as long as these cars are primarily used in the correct state. A general solution will be similar to the system for enforcing high and low altitude sales (40 CFR Part 86.091-30).

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This action will consider amendments to the regulations in 40 CFR part 85, Subpart P to allow entry into the U.S. of vehicles which are originally sold in Canada and which are identical to their U.S. counterparts, to be certified as commercial supporters without obtaining a certificate of conformity from EPA. This action is in response to a petition for review of import rules. EPA will also clarify and change certain other issues in part 85, subpart P and subpart R, including: 1) formalizing a longstanding EPA policy regarding the importation of owned vehicles that are proven to be identical to a vehicle certified for sale in the U.S., 2) establishing new emission standards applicable to imported nonconforming vehicles, 3) clarifying the regulatory language that concerns exclusions and exemptions from meeting Federal emission requirements, and 4) providing several clarifications to the existing regulations.

3783. AMENDMENT CONCERNING THE LOCATION OF SELECTIVE ENFORCEMENT AUDITS OF FOREIGN MANUFACTURED VEHICLES AND ENGINES

Legal Authority: 42 USC 7525/CAA 206(b)

CFR Citation: 40 CFR 86 subpart G (Revision); 40 CFR 86 subpart K (Revision)

Legal Deadline: None

Abstract: This action would consider an amendment to the existing regulations to include ports of entry as a location for EPA selection of foreign produced vehicles and engines for SEA emissions testing at laboratories in the U.S. While the regulations do not specify EPA authority to conduct such port selections, the increased flexibility provided by port selections warrants amending the regulations. Presently, EPA must travel oversees to conduct SEA audits of foreign manufactured vehicles and engines, even though most manufacturers now have access to laboratory facilities in the U.S. The benefits include a reduction in Agency cost since fewer overseas trips would be necessary. Also, EPA would be able to conduct more audits of foreign manufactured vehicles and engines.

Legal Authority: 42 USC 7525/CAA 206

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1998 and later emission standards for heavy-duty vehicles (HDVs) and engines (HDEs). The availability of NCPs will allow a manufacturer of HDVs and HDEs whose vehicle engines fail to conform to certain applicable emission standards, but do not exceed designated upper limits, to be issued a certificate of conformity upon payment of a monetary penalty. The issues involving NCPs, the administration of NCPs, and production compliance audits may be addressed.

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, title V

CFR Citation: 40 CFR 71

Legal Deadline: None

Abstract: Title V of the Clean Air Act Amendments of 1990 requires EPA to promulgate regulations setting forth requirements for States to develop and implement operating permits programs for major stationary sources of air pollutants regulated under the Clean Air Act. These regulations were promulgated on July 21, 1992 (57 FR 32250). Title V also requires EPA to establish where States fail to submit an appropriate State program. These regulations are described in this notice. These regulations would be applied only in those cases where States failed to submit an appropriate State program, and would require sources to submit Federal operating permit applications containing a schedule of compliance. EPA would approve applications and issue Federal operating permits, as well as enforce the program.

Significance: Regulatory Program

Legal Authority: 42 USC 7545

CFR Citation: 40 CFR 80

Legal Deadline: Final, Statutory, November 15, 1992.

Abstract: The Clean Air Act Amendments of 1990 mandate EPA to promulgate regulations requiring the use of additives in gasoline beginning in 1995 to prevent the accumulation of deposits in the engine or fuel supply systems. The establishment of such a requirement should ensure the use of additives in the 10 to 25 percent of fuel projected not to contain additives by 1995, as well as the proper amount and type of additives to have the desired effect without causing negative side effects. Controlling engine and fuel supply system deposits is expected to result in better vehicle performance, a significant reduction in in-use emissions, and the potential for significant economic advantages due to e decreased need for premium gasoline use.

Abstract: Section 113(f) of the Clean Air Act granted to the Administrator authority to pay an award to any person who furnishes information or services which lead to a criminal conviction or a civil penalty for any violation of Title I, III, IV, V, or VI of the Act enforced under section 113. Section 113(f) authorizes the Administrator to prescribe, by regulation, additional criteria for eligibility for such an award. EPA intends that the rule set forth such additional criteria for making requests for consideration for an award, including what consideration, and describes criteria for assessing the value of information and services. Abstract: The existing regulations at 40 CFR part 15 establish a special enforcement-related program under the Clean Air Act (CAA) and Clean Water Act (CWA), commonly referred to as the "Contractor Listing Program." The Contractor Listing Program authorizes EPA to bar facilities from federal contracts, grants or loans as a consequence of criminal or civil violations of the CAA or CWA. The draft proposed revisions to these regulations incorporate new authority granted by the CAA amendments of 1990. The amendments expand the criminal violations for which a facility may be listed and also give EPA the discretion to list other facilities of the owner or operator.

Section 113(d) of the Act requires the field citation program to be implemented through regulations which provide the informal hearing procedures. These hearing procedures are not required to be as rigorous as those imposed by the Administrative Procedures Act (APA), but nevertheless must provide due process. Agency guidance providing appropriate penalties for specific minor violations will be prepared for EPA employees and made available to the regulated community. 3795. "SUBSTANTIALLY SIMILAR" DEFINITION FOR DIESEL FUELS

Significance: Regulatory Program

Legal Authority: 42 USC 7545/CAAA 211(f)

CFR Citation: 40 CFR 80

Legal Deadline: None

Abstract: Section 211(f)(1)(A) of the Clean Air Act prohibits for use in light-duty vehicles, fuels and fuel additives which are not "substantially similar" to fuels or additives used to certify vehicles to emissions standards. Section 211(f)(1)(B) expands these prohibitions to all motor vehicles. Since the term "substantially similar" is not defined in the Act, the intent of this rulemaking is to interpret the term "substantially similar" in regard to diesel fuel and diesel fuel additives and thus make more explicit which products are prohibited by section 211(f)(1)(B). The definition of "substantially similar" enables manufacturers to determine whether their fuels or fuel additives are covered by, or excluded from, the section 211(f)(1)(B) prohibitions.

Legal Authority: 42 USC 7604

CFR Citation: 40 CFR 54

Legal Deadline: None

Abstract: Section 304 of the Clean Air Act grants to citizens the authority to bring suits for violations of the Clean Air Act. This proposal amends the existing citizen suit notice provisions to: 1) reflect changes made to Section 304 in the 1990 Amendments, including the express inclusion of notice requirements for suits against the Administrator alleging Agency action unreasonably delayed; 2) clarify, for each type of citizen action requiring notice, the timing of such notice; and 3) conform CAA notice practice more closely to the practice under other, more recent citizen suit notice regulation promulgated pursuant to other Federal environmental statutes.

3798. INDIVIDUAL CONSTITUENTS STANDARDS - PHASE III OF RCRA AIR EMISSION STANDARDS

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004; 42 USC 6927/RCRA 3007

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: Final, Statutory, May 1987.

Abstract: Under RCRA, the Agency is required to promulgate standards for monitoring and control of air emissions from hazardous waste treatment, storage, and disposal facilities (TSDF), as necessary to protect human health and environment. Phases I and II of the TSDF project limit organic air emissions as a class at TSDF that are subject to regulation under Subtitle of RCRA. Phase I and Phase II actions are covered under a separate item in this Agenda entitled "Treatment, Storage, and Disposal Facility Area Source Air Emissions -- RCRA Standards." The residual risk values following Phases I and II are higher than the historical RCRA range. The Phase III project will use new data on TSDF to perform site-specific modeling of high risk facilities. Possible outcomes include the following: (1) additional RCRA 3004(n) standards for particular hazardous organic constituents; (2) a guidance document for RCRA permit writers; or (3) no additional action.

Significance: Regulatory Program

Legal Authority: 42 USC 7545

CFR Citation: 40 CFR 80

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: The Clean Air Act Amendments of 1990 require that gasoline sold in the nine worst ozone nonattainment areas be reformulated to be less polluting. Other ozone nonattainment areas may opt in to this program. EPA may delay opt-in depending on sufficiency of supply and distribution capacity. The NPRM published on 7/15/91 (56 FR 31176) also contains provisions requiring EPA to adopt anti-dumping rules for all gasoline sold outside of covered areas. Credit marketing and trading provisions will be decided in the program. The Clean Air Act Amendments contain specific formula requirements for reformulated gasoline as well as performance standards to reduce ozone-forming and toxics emissions. This additional NPRM (published 2/26/93) proposes revisions to the proposed reformulated gasoline simple model and antidumping provisions. Also included are the Agency's proposed complex model and associated revised enforcement provisions, as well as the Phase II performance standards for the year 2000.

3804. PHASEOUT OF LEAD IN GASOLINE AND TEST PROCEDURE FOR LEAD SUBSTITUTES

Significance: Regulatory Program

Legal Authority: 42 USC 7545

CFR Citation: 40 CFR 80

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: Since the late seventies, EPA has had a program to phase down lead in gasoline. This was a result of evidence that lead from automotive emissions, an air toxic, poses a serious health threat to the public. The Clean Air Act Amendments of 1990 ban the use of leaded gasoline in all motor vehicles beginning in January 1996. Additionally, it is required that a test procedure for determining lead substitute additives' ability to reduce valve wear and to identify other effects be established along with procedures for lead substitutes additive registration. These latter provisions are intended to assure availability of non-lead additives that can be used to protect valves in older engines designed for leaded fuel.

Significance: Regulatory Program

Legal Authority: 42 USC 7554

CFR Citation: 40 CFR 86

Legal Deadline: Final, Statutory, January 1, 1992.

Abstract: In recognition of the contribution of diesel engines to the nation's air quality problems, EPA promulgated emission standards for all categories of on-highway diesel engines, including those for urban buses. In the Clean Air Act Amendments of 1990, Congress revised these standards and added new requirements. The amendments revised the particulate matter (PM) standards for diesel bus engines. Within twelve months of enactment, EPA must promulgate these standards as well as retrofit-rebuild requirements for urban bus engines for cities with populations greater than 750,000.

Abstract: There are currently no emission standards for motor vehicles operating on gaseous fuels (i.e., natural gas and liquified petroleum). Also, there are no certification procedures for aftermarket conversions. In order to put gaseous-fueled vehicles on an equal footing with other vehicles, EPA has proposed emission standards and certification procedures for gaseous-fueled vehicles which are largely the same as those currently in place for other vehicles. Also, EPA has proposed certification procedures for aftermarket conversions based on the small-volume manufacturers certification procedures.

3812. DESIGNATION OF AREAS FOR AIR QUALITY PLANNING PURPOSES

Legal Authority: 42 USC 7407(d)(3)/CAA 107(d)(3)

CFR Citation: 40 CFR 81

Legal Deadline: Final, Statutory, Section 107(d)(3) provides that EPA must promulgate a redesignation no later than 240 days after notification of the affected Governor that the designation should be revised.

Abstract: Section 107(d)(3) of the amended CAA authorizes EPA to notify the Governor of an affected State that, on the basis of air quality data, planning and control considerations or any other air quality-related considerations EPA deems appropriate, EPA believes the designation of an area with respect to the national ambient air quality standards should be revised. EPA has notified the Governors of several States that certain areas should be redesignated as nonattainment for PM-10 (particulate matter with an aerodynamic diameter less than 10 micrometers) and sulfur dioxide (SO2). The affected States have responded with their recommendations concerning the designations and boundaries for these areas. Section 107(d)(3) provides that EPA is to promulgate the revised designations, making such modifications to the States' recommendations that it deems necessary. EPA proposed its redesignations for these areas in September 1992. This rule will revise the nonattainment designations for PM-10 and SO2 in 40 CFR part 81 for the affected areas.

Abstract: Perchloroethylene is one of the pollutants listed as hazardous under Section 112 of the Clean Air Act Amendments of 1990. Standards are being developed which may apply to industrial, commercial, and coin-operated dry cleaning machines and could also address auxiliary equipment and work practices.

3819. NATIONAL EMISSION STANDARDS FOR COKE OVEN BATTERIES

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 112

CFR Citation: 40 CFR 63

Legal Deadline: Final, Statutory, December 31, 1992.

Abstract: The Clean Air Act requires standards for maximum achievable control technology (MACT) for existing sources, lowest achievable emissions rate (LAER) for existing sources, MACT for new sources and work practices. When considering limits for these standards, the use of luting compounds and non-recovery technologies should be considered. Section 112 requires EPA to set allowable emission limits for coke oven doors, lids, offtakes, and seconds of charging by December 31, 1992. Existing coke oven batteries must comply with MACT by December 31, 1995, and new batteries must comply with MACT for new sources upon start-up. LAER for existing sources must be complied with by January 1, 1998. Work practice regulations will be met by November 15, 1993. Section 112(f) also requires EPA to promulgate residual risk standards by the year 2000 to be complied with by December 31, 2003. Those who meet the LAER limits by January 1, 1998 can defer residual risk until 2020. A coke oven standard has been negotiated with environmental groups, industry, associations, States and regions.

Legal Authority: 42 USC 7607(d)(7)(B)/CAA 112

CFR Citation: 40 CFR 61 Subpart T; 40 CFR 192 Subpart D

Legal Deadline: None

Abstract: In accordance with Section 112(d)(9) of the Clean Air Act Amendments of 1990, EPA may rescind 40 CFR Part 61, Subpart T as it applies to Nuclear Regulatory Commission (NRC) licensees pursuant to a finding that the NRC regulatory program protects the public health with an ample margin of safety. In October 1991, EPA and NRC (and the affected NRC Agreement States) executed a Memorandum of Understanding (MOU) to address the actions to be undertaken by EPA and NRC to eliminate regulatory redundancy and to ensure uranium mill tailings disposal sites are closed as expeditiously as practicable considering technological feasibility. The Agency plans to propose to amend the environmental regulations pertaining to uranium mill tailings disposal sites at 40 CFR Part 192, Subpart D pursuant to Uranium Mill Tailings Radiation Control Act (UMTRCA) of 1978. These amendments supplement Subpart D by ensuring timely emplacement of a permanent radon barrier and by requiring appropriate monitoring for non-operational uranium mill tailings disposal sites that are licensed by NRC or one of its Agreement States. The Agency anticipates amending 40 CFR Part 192, Subpart D (cont)

Abstract: EPA issued a Notice of Proposed Rulemaking (NPRM) that: (1) proposes to amend 40 CFR 51.166 and 52.21 to incorporate Supplement B to the "Guideline on Air Quality Models (Revised)"; (2) identifies new or updated pages, denoted as Supplement B to the revised guideline, that show additions and changes being made; and (3) proposes to amend 40 CFR 51.46, 51.63, 51.112, 51.117, 51.150 and 51.160 to codify the Guideline as the basis by which air quality models are to be used in all air impact analyses for criteria air pollutants. A public hearing on this NPRM was held on March 19-20, 1991, as part of the Fifth Conference on Air Quality Modeling. The public comment period closed on May 6, 1991.

Significance: Regulatory Program

Legal Authority: Clean Air Act as amended in 1990, sec. 182(g)(4)

CFR Citation: 40 CFR 51, subpart U, sec. 51.490 to 51.494; 40 CFR 51, app W

Legal Deadline: Final, Statutory, November 15, 1992.

Abstract: In serious, severe, and extreme ozone nonattainment areas and serious carbon monoxide areas, the Clean Air Act provides for the establishment by a State of an economic incentive program where the State fails to meet a required progress milestone. Section 182(g)(4) requires the EPA to publish rules or States to follow in developing an economic incentive program for reducing ozone precursors.

3823. CONTROL TECHNIQUES GUIDELINES

Significance: Regulatory Program

Legal Authority: Clean Air Act Amendments of 1990, sec 183(a)

CFR Citation: Not applicable

Legal Deadline: Final, Statutory, November 1993.

Abstract: The Clean Air Act Amendments of 1990 require EPA to issue control techniques guidelines (CTG) for 13 including two specifically named source categories within three years of enactment. Currently, CTGs are being developed for chemical manufacturing distillation operations, chemical plant reactor processes, wood furniture manufacturing, coating of plastic parts, offset lithography, industrial wastewater treatment, volatile organic liquid storage tanks, batch processes, aerospace coating operations, and shipbuildings and repair. The wood furniture, aerospace, and shipbuilding projects are on a later schedule than the others due to a need to coordinate with Section 112 hazardous air pollutant standards being developed for the same source categories. CTGs were also being developed for automobile refinishing and cleanup solvents. Automobile refinishing well now be addressed by a federal rule, and cleanup solvents will now be addressed by an available control technology (ACT) document.

Legal Authority: 42 USC 7525/CAA 206

CFR Citation: 40 CFR 86

Legal Deadline: None

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upper limits and penalty rates for 1994 and later emission standards for heavy-duty vehicles (HDVs) and engines (HDEs). The availability of NCPs will allow a manufacturer of HDVs or HDEs, whose vehicles or engines fail to conform to certain applicable emission standards but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This action also addresses issues related to the selection of vehicle or engine configurations for production compliance audits (PCAs), eligibility criteria for PCAs, the measurement of emission results during PCA testing.

Legal Authority: 42 USC 7541(b)/CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None

Abstract: This action would adopt an alternative testing procedure to be used in the voluntary aftermarket part certification program for certifying aftermarket parts. Currently only the full Federal Test Procedure and Emission Critical Parameters for Specified Parts are acceptable test procedures for this program. A proposed rulemaking was published on August 8, 1989. Based on the public comments received and further analysis, EPA developed a supplemental notice of proposed rulemaking which was published on January 30, 1991. Analysis of all public comments are complete and work on the final rulemaking is under way.

Abstract: General Registration requirements for Motor Vehicles fuels and fuel additives have been in effect since 1975. The current ordered regulatory action will implement the additional registration requirements contained in Section 211(e) of the Clean Air Act. These provisions require that the manufacturers of fuels currently in use and new fuel information regarding composition of emissions produced by these products, their effects on vehicle emissions and their effect on public health and welfare.

CFR Citation: 40 CFR 76

Legal Deadline: Final, Statutory, May 15, 1992. Other, Statutory, January 1, 1997.
Final deadline for Group I boilers is May 15, 1992. Final deadline for Group II boilers is January 1, 1997.

Abstract: This regulatory action establishes NOx emission limitations for Phase I tangentially-fired, dry bottom wall-fired boilers (Group I - Section 407(b)(1)) which must be met by January 1, 1995. Emissions limits for a second group of boilers (Group II - Section 407(b)(2)), including cyclones and wet bottom wall-fired units, will be effective in 2000 and will be set in a later rulemaking. Boilers from both groups that are listed under Phase II will be subject to their relevant emissions limits after 2000. In addition, the rule will determine conditions of applications for emission averaging and alternative emission limits for both groups of boilers.

Legal Deadline: Final, Statutory, May 1987. Final, Judicial, November 1994.

Abstract: The purpose of this action is to investigate the health and environmental impacts of non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Sources include tanks, surface impoundments, landfills, waste piles, land treatment operations and wastewater treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment. The Agency has adopted a three-phase approach: Phase I regulates organic emissions from equipment leaks and process vents; Phase II will address tanks, containers, surface impoundments, and miscellaneous units; and Phase III will address residual risks from particular hazardous organic constituents.

3857. RISK MANAGEMENT PLANS FOR CHEMICAL ACCIDENTAL RELEASE PREVENTION

Significance: Regulatory Program

Legal Authority: PL 101-549; Clean Air Act Amendments of 1990

CFR Citation: 40 CFR 68

Legal Deadline: Final, Statutory, November 15, 1993.

Abstract: EPA must promulgate reasonable regulations and appropriate guidance to provide for the prevention and detection of accidental releases from stationary sources. The regulations must require stationary sources where a regulated substance is present in quantities greater than a threshold amount to implement a risk management plan for detection and prevention of accidental releases.

Legal Authority: 42 USC 6905; 42 USC 6912(a); 42 USC 6921/RCRA 3001; 42 USC 6938; 42 USC 9602

CFR Citation: 40 CFR 261.33(f); 40 CFR 261 app VIII; 40 CFR 302.4

Legal Deadline: None

Abstract: This proposed rule would remove saccharin from the list of hazardous wastes under Section 3001 of the Resource Conservation and Recovery Act (RCRA) and from the list of hazardous substances under Section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This regulatory action is in response to a petition to remove saccharin from regulation under RCRA and CERCLA. The petition is based on recent studies that dispute previous scientific findings that saccharin is a possible carcinogen. It is anticipated that the proposed action would result in annual new cost savings to both government and the regulated community because saccharin would no longer be subject to regulation under RCRA and CERCLA.

Abstract: Subpart K of the NCP, entitled "Federal Facilities," is a roadmap to the entire NCP for Federal facilities, and it consolidates in one subpart of the NCP references to the requirements in the other subparts that Federal agencies must follow when conducting CERCLA response actions where the release is on, or where the sole source of the release is from, their facility. It also codifies certain other provisions of Section 120 of CERCLA relating to Federal facilities.

Significance: Regulatory Program

Legal Authority: 33 USC 1321/CWA 311(d)(1), as amended by the Oil Pollution Act

CFR Citation: 40 CFR 300

Legal Deadline: Final, Statutory, August 18, 1991.

Abstract: Under the Oil Pollution Act of 1990, EPA will prepare and publish revisions to the National Oil and Hazardous Substances Contingency Plan for the removal of oil and hazardous substances. EPA has initiated an inter-agency review process to make changes needed to implement the requirements of the Oil Pollution Act of 1990. The revised NCP will address a number of new elements including, but not limited to, response to worst case discharges and discharges that may pose a substantial threat to public health and welfare, a Fish and Wildlife Plan, and Area Contingency Plans.

Legal Authority: PL 101-549; Clean Air Act Amendments of 1990

CFR Citation: 40 CFR 68

Legal Deadline: Final, Statutory, November 15, 1992.

Abstract: EPA must promulgate an initial list of at least 100 substances that, in the event of accidental release, are known to cause or may reasonably be anticipated to cause death, injury or serious adverse human health or environmental effects. EPA must establish by rule, a threshold quantity for each substance listed considering toxicity, reactivity, volatility, dispersibility, combustibility or flammability, the amount known to cause death, injury, or serious adverse human health effects. Legal Authority: 42 USC 9615/CERCLA 115

CFR Citation: 40 CFR 300; 40 CFR 308

Abstract: Under CERCLA, potentially responsible parties defined under Section 107(a) are liable for the cost of cleanup of Superfund sites. It is Agency policy to pursue potentially responsible parties in court for costs expended if a cleanup settlement is not reached. This rulemaking will define the specific recoverable costs and describe the documentation sufficient to support EPA's cost recovery efforts. This proposed regulation will also address other related aspects, in EPA's interpretation of certain businesses statute of limitation provisions. The proposed regulation is designed to make the cost recovery process more efficient and less burdensome from a litigation standpoint.

Legal Authority: 42 USC 9602/CERCLA 103

CFR Citation: 40 CFR 302.6(c); 40 CFR 355.40(a)(2)(vi)

Legal Deadline: None

Abstract: This rulemaking will codify administrative reporting exemptions from the requirements of section 103 of the Comprehensive Environmental Response, Compensation, and Liebility Act (CERCLA) for radionuclide release from: (1) large land holdings; (2) disturbances of land for purposes other than mining; (3) the dumping of coal and coal ash at utility and industrial facilities with coal-fired boilers; and (4) coal and coal ash piles at utility and industrial facilities with coal-fired boilers. This regulatory action is in response to a court decision specified in The Fertilizer Institute v. EPA (935 F. 2nd 1303 (1991)). It is anticipated that the proposed action would result in annual net cost savings to both government and the regulated community because facilities that receive the administrative reporting exemptions would no longer be subject to the reporting requirements of CERCLA section 103.

CFR Citation: 40 CFR 112

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 (OPA) expands the scope of public and private planning and response activities associated with discharges of oil. The rule implements an OPA requirement that facility owners and operators prepare response plans to respond to a worst case discharge of oil. These plans apply to facilities that, because of their location, reasonably could be expected to cause substantial harm to the environment by a discharge of oil into or on navigable waters, adjoining shorelines, or the exclusive economic zone.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order 12291, 3 CFR, 1981 Comp., p.127, and the Regulatory Flexibility Act, 5 U.S.C. chapter 6. The agenda contains all regulations which are scheduled for review or development during the next 12 months.

FOR FURTHER INFORMATION CONTACT: Irene L. Hill, Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 1801 L Street NW., Washington, DC 20507; telephone (202) 663-4689.

SUPPLEMENTARY INFORMATION: The Commission identified eight current and projected rulemakings for inclusion in the agenda. Two have been published as ANPRMs. Two have been published as NPRMs. Two are currently under development or review by Commission staff. Two items indicate that the Commission anticipates no further regulatory activity.

Signed in Washington, DC, this 24th day of March 1993.
For the Commission.
Evan J. Kemp, Jr.,
Chairman.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC) — Prerule Stage

3899. EARLY RETIREMENT PLANS

Legal Authority: 29 USC 628

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The ADEA prohibits discrimination on the basis of age with respect to an employee's compensation, terms, conditions, or privileges of employment. In light of recent amendments to the ADEA and several cases dealing with early retirement, questions have arisen regarding the legality of early retirement plans in general and of specific plans. Since the use of early retirement has expanded greatly in recent years, the Commission deems it appropriate to consider the issuance of regulatory guidance in the area. The ANPRM seeks comment on issues such as voluntariness, plan structuring and eligibility to participate. The Commission is reassessing this project in light of the Supreme Court's decision in Public Employees Retirement System of Ohio v. Betts, 492 U.S. 158 (1989), and the enactment of the Older Workers Benefit Protection Act, Pub. L. 101-433 (Oct. 16, 1990).

3900. POSSIBLE REVISIONS TO INTERPRETATIONS RELATING TO BENEFITS UNDER EMPLOYEE BENEFIT PLANS

Legal Authority: 29 USC 628

CFR Citation: 29 CFR 1625.10

Legal Deadline: None

Abstract: The current interpretive regulations at 29 CFR 1625.10 were framed in 1979. Since that time the ADEA has been amended in a manner that necessitates considering revisions to the regulations, for example, the lifting of the age 70 cap. Accordingly, the Commission requested public comment to determine whether revisions are necessary and, if so, the nature and scope of any such revision. The continuing viability of this project is being assessed in light of the Supreme Court's decision in Public Employees Retirement System of Ohio v. Betts, 492 U.S. 158 (1989), and the enactment of the Older Workers Benefit Protection Act, Pub. L. 101-433 (Oct. 16, 1990).

3901. PROCEDURES FOR HANDLING COMPLAINTS OF EMPLOYMENT DISCRIMINATION UNDER THE GOVERNMENT EMPLOYEE RIGHTS ACT OF 1991

Legal Authority: 2 USC 1220 Government Employee Rights Act of 1991; 42 USC 2000e et seq Title VII of the Civil Rights Act; 29 USC 633 Age Discrimination in Employment Act; 42 USC 12112 to 12114 Americans with Disabilities Act

CFR Citation: 29 CFR 1603

Legal Deadline: None

Abstract: Under the Civil Rights Act of 1964 certain staff members of State and local elected officials were exempt from protection against employment discrimination. Section 321 of the Government Employee Rights Act of 1991 extends protections to the employment of persons who have been chosen or appointed by a State or local elected public official to serve on his or her personal staff, to serve the elected official on the policy-making level, or to serve as an immediate advisor with respect to the exercise of the constitutional or legal powers of the official's office. Section 320 of the Government Employee Rights Act of 1991 extends protections to certain presidential appointees who are not otherwise protected under section 17 of title VII of the Civil Rights Act of 1964. Section 320 does not cover individuals whose appointment is made by and with the advice and consent of the Senate, advisory committee members or members of the uniformed services.

These are procedural regulations for processing such complaints of discrimination by previously exempt or uncovered individuals.

3902. DISCRIMINATION BECAUSE OF RELIGION UNDER TITLE VII OF THE CIVIL RIGHTS ACT OF 1964 AS AMENDED

Legal Authority: 42 USC 2000e Title VII, Civil Rights Act of 1964 as amended

CFR Citation: 29 CFR 1605

Legal Deadline: None

Abstract: The Equal Employment Opportunity Commission is proposing a revision to section 1605.2(c)(2) of its Guidelines on Discrimination Because of Religion. These revisions will reflect Supreme Court precedent in Ansonia Board of Education v. Philbrook 479 U.S. 60 (1986) on religious accommodation. If adopted, this revision will clarify an employer's duty of religious accommodation and will prevent an employee or prospective employee from being discriminated against and unnecessarily penalized because of his or her religious practices.

Legal Authority: 42 USC 12101 et seq; PL 101-336 The Americans with Disabilities Act (ADA)

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, January 26, 1992.

Abstract: Section 107(b) of the ADA requires that agencies with enforcement authority for actions which allege employment discrimination under the ADA and section 504 of the Rehabilitation Act of 1973 must develop procedures that ensure that administrative complaints filed under the ADA or the Rehabilitation Act are processed in a manner which avoids duplication of effort and prevents the imposition of inconsistent or conflicting standards by EEOC and the Department of Justice.

These regulations will contain procedures and standards to ensure that complaints are processed in an effective manner, and that consistent standards are applied to the same requirements imposed by both statutes.

SUMMARY: The Federal Emergency Management Agency publishes its semiannual regulatory agenda in April and October to inform interested parties of progress on FEMA regulations. The agenda is published under section 5 of Executive Order 12291 "Federal Regulation." The agenda lists regulations that will be under development or review during the period April 1, 1993, to September 30, 1993.

ADDRESSES: For information about specific regulations, please contact the person listed as the agency contact in the agenda.

FOR FURTHER INFORMATION CONTACT: For general information on FEMA's regulatory agenda, contact H. Crane Miller, Office of the General Counsel, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3340.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" directs each executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also, publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 *et seq.*

In fulfillment of the requirements of Executive Order 12291 and 5 U.S.C. 601 *et seq.*, this agenda describes current and projected regulations and regulations which will be under review or development during the period April 1, 1993, to September 30, 1994. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda was published November 3, 1992, at 57 FR 52128 to 52136.

Public comment on the agenda, including comments by State and local governments, is invited and should be submitted to the Rules Docket Clerk, Office of the General Counsel, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472; FAX (202) 646-4536. Please refer to the title and the Regulation Identifier Number (RIN) of the rule about which you are inquiring or commenting.

The agenda is not limited to major or significant rules and contains information concerning all FEMA regulations to be developed, reviewed, or published in the next 6 months except for routine flood elevation determinations, listings of eligible communities under the National Flood Insurance Program and the National Crime Insurance Program, listings of suspended communities and similar designations under the National Flood Insurance Program, and FEMA organizational and management matters.

Dated: March 10, 1993.

Spence W. Perry,

Acting General Counsel.

Legal Deadline: None

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of

VOL 58 ISS 78 APR 26 1993 UMI

the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-38 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited.

Abstract: Section 544 of the Housing and Community Development Act of 1987 provided a new benefit to National Flood Insurance Program policyholders: Payment for demolition or relocation of an insured structure if it is located "along the shore of a lake or other body of water and is certified by appropriate State or local land use authority to be subject to imminent collapse or subsidence as a result of erosion or undermining caused by waves or currents of water exceeding anticipated cyclical levels." FEMA published interim regulations on this subject on September 23 and November 2, 1988, and commissioned an investigation through the National Academy of Sciences to provide a basis for further regulations.

3917. ADMINISTRATIVE REMEDIES FOR FALSE CLAIMS AND STATEMENTS

Legal Authority: 31 USC 3801-12

CFR Citation: 44 CFR 19

Legal Deadline: None

Abstract: The Program Fraud and Civil Remedies Act (the Act) enacted on October 21, 1986, and codified at 31 USC 3801 through 3812, establishes an administrative remedy against any person who makes a false claim or written statement to certain Federal agencies, including the Federal Emergency Management Agency. Any person who makes a false, fictitious, or fraudulent claim or written statement to an affected agency may be liable for a penalty up to $5,000 and an assessment up to double the amount falsely claimed. This proposed rule would comply with the Act's requirement that affected Federal agencies implement its provisions through regulations.

Unified Agenda of Federal Regulations

AGENCY: General Services Administration (GSA).

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that GSA plans for the next 12 months and those actions that were completed since November 1992. This agenda was developed under the guidelines in an Office of Management and Budget memorandum dated December 9, 1992. GSA's purpose in publishing this agenda is to allow interested persons an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: Rodney P. Lantier, Chief, Directives and Correspondence Management Branch, (202) 501-0666.

SUPPLEMENTARY INFORMATION: None of the regulations listed is considered a major rule under Executive Order 12291 "Federal Regulation."

Dated: March 4, 1993.

Dennis J. Fischer,

Acting Administrator of General Services.

3941. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, AND, WHERE APPLICABLE, SEX

Legal Authority: 40 USC 476; 42 USC 2000d-1; 20 USC 1681

CFR Citation: 41 CFR 101-8.2

Legal Deadline: None

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

VOL 58 ISS 78 AP 26 1993 UMI

GSA — Prerule Stage

Legal Deadline: Final, Statutory, October 26, 1994.

Abstract: Title I - United States Fire Administration, section 108 (1922) amends the Fire Prevention and Control Act of 1974 to require sprinklers, or an "equivalent level of safety," in all new Federal Employee Office Buildings and during renovations of such buildings if they are six stories or higher. Sprinklers (or an "equivalent level of safety") and hard-wired smoke detectors are required in federally assisted multifamily housing. The General Services Administration, the National Institute of Standards and Technology, and the Department of Defense, must issue regulations defining "equivalent level of safety." This regulation will define "equivalent level of safety" and the procedures for determining it.

Legal Authority: 40 USC 486(c)

CFR Citation: 48 CFR 515; 48 CFR 538; 48 CFR 552

Legal Deadline: None

Abstract: The Multiple Award Schedule (MAS) Improvement Project was initiated by the GSA Administrator in late 1990. As part of that project, GSA developed (and is currently testing) revised Discount Schedule and Marketing Data (DSMD) submission requirements for MAS offerors. One key aspect of the revised DSMD seeks to minimize the offerors' paperwork burden by ensuring that offerors submit only that information relevant to the GSA contracting officer's evaluation of the offers. After evaluation of the test usage of those revised DSMD, a decision may be made to adopt the revisions for the entire MAS Program or further revise the DSMD. As part of the ongoing MAS Improvement Project, revisions to several other elements of the MAS Program are under consideration. It is likely that some of those revisions will be formally proposed as MAS Program changes during the next several months. Such revisions will be coordinated with Federal customer agencies, MAS contractors and potential offerors. As required by the Paperwork Reduction Act and the Regulatory Flexibility Act, appropriate clearances and approvals will be obtained before adoption of revisions.

Significance: Regulatory Program

Legal Authority: 40 USC 486(c); 40 USC 751(f)

CFR Citation: 41 CFR 201

Legal Deadline: None

Abstract: FIRMR users have mentioned some confusion regarding the interpretation of provisions regarding delegation of procurement authority thresholds. Specific concerns involve the applicability of the thresholds to certain General Service Administration (GSA) programs. GSA is examining FIRMR provisions dealing with delegations thresholds to determine their adequacy. GSA is also reviewing agency acquisition action to determine the impact of FIRMR provisions. A FIRMR amendment will be developed to make appropriate changes. The proposed amendment is expected to improve government efficiency by clarifying regulation provisions.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Ch. V

Regulatory Agenda

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda of regulations.

SUMMARY: NASA's regulatory agenda describes those regulations being considered for development or amendment by NASA, the need and legal basis for the actions being considered, the name and telephone number of a knowledgeable official, whether a regulatory analysis is required, and the status of regulations previously reported.

ADDRESSES: Director, Management Operations Division (Code JM), Office of Management Systems and Facilities, NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Margaret M. Herring, (202) 358-2264.

SUPPLEMENTARY INFORMATION: OMB guidelines dated December 9, 1992, "April 1993 Unified Agenda of Federal Regulations," Executive Order 12291 "Federal Regulation," and NASA Management Instruction 1410.10 "**Federal Register**: Delegation of Authority and Requirements for Publication of NASA Documents" require a regulatory agenda of those regulations under development and review be published in the **Federal Register** each April and October.

Dated: February 16, 1993.

Legal Authority: 42 USC 2473; PL 85-568

CFR Citation: 14 CFR 1214.10

Legal Deadline: None

Abstract: The goal of NASA's policy on "Use of Small, Self-Contained Payloads," as stated in subpart 1214.9, is to stimulate and encourage the use of space by a wide range of users, particularly those associated with education. For a payload for flight as a domestic educational institution payload, the applying institution must be a U.S. public or nonprofit educational institution; the payload must be certified by an authorized official of the institution to be part of an educational or research project that is principally for the benefit of students, rather than nonstudents, such as faculty or research staff, payload experiments should involve students in all phases of the project, including concept development, initial planning, design, conduct, and analysis of the results of the experiments. Involvement of faculty or other professionals in a supervisory, advisory, or consultative relationship with the students is necessary. Projects may include applied research, basic research and/or other activities which have further educational uses beyond the immediate research effort.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since October 1992. This agenda was developed under the guidelines in OMB's Memorandum for Regulatory Contacts at Executive Departments and Establishments, dated December 9, 1992. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291 "Federal Regulation."

FOR FURTHER INFORMATION CONTACT: John A. Constance, Director, Program Planning and Congressional Liaison Division, (202) 501-5110.

Dated: February 26, 1993.

Raymond A. Mosley,

Acting Archivist of the United States.

NATIONAL ENDOWMENT FOR THE ARTS (NEA) — Proposed Rule Stage

4041. COLLECTION OF CLAIMS

Significance: Agency Priority

Legal Authority: PL 97-365; 31 USC 3711; 31 USC 3716 to 3718; 5 USC 5514; 5 USC 552a; 31 USC 3701

CFR Citation: 45 CFR 1150

Legal Deadline: None

Abstract: The proposed rule amends the National Endowment for the Arts regulation for collecting debts. Principally, the amendments implement the Debt Collection Act of 1982 (PL 97-365), which amended the Federal Claims Collection Act of 1966 (31 USC 3711, 3716-3718) to authorize among other things, charging of interest penalties and administrative costs, and the use of administrative offset, private collection agencies and credit agencies by the Government. The amendments also implement governmentwide regulations issued by the Department of Justice and the General Accounting Office (49 FR 8889) and Office of Personnel Management (49 FR 27470).

Unified Agenda of Regulations

AGENCY: National Endowment for the Humanities, NFAH.

ACTION: Publication of the unified agenda of regulations.

SUMMARY: Pursuant to the Regulatory Flexibility Act, Public Law 96-354, and Executive Order 12291 "Federal Regulation," dated February 17, 1981, the National Endowment for the Humanities is required to publish, in April and October of each year, an agenda of proposed regulations that the Endowment has issued or expects to issue and current rules that are under agency review.

FOR FURTHER INFORMATION CONTACT: Victoria F. Phillips, Assistant General Counsel, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., Washington, DC 20506, (202) 606-8322.

Jerry L. Martin,
Acting Chairman.

4048. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS AND ACTIVITIES

Legal Authority: 42 USC 2000(d) to 2000(d)(4)

CFR Citation: 45 CFR 1110; 45 CFR 1173

Legal Deadline: None

Abstract: This proposed regulation implements title VI of the Civil Rights Act of 1984, which prohibits discrimination on the basis of race, color, or national origin in federally assisted programs and activities, with respect to programs and activities receiving Federal financial assistance from the National Endowment for the Humanities

Programs and activities receiving Federal financial assistance from the National Endowment for the Humanities are currently covered by a regulation implementing title VI that was issued by the National Foundation on the Arts and the Humanities in 1973 (45 CFR 1110). The proposed rule will remove NEH programs from the coverage of the earlier rule and replace it with a new part applicable only to NEH-assisted programs and activities. Programs and activities assisted by the National Endowment for the Arts remain covered under the existing regulation.

Semiannual Regulatory Agenda, April 1993

AGENCY: Office of Government Ethics

ACTION: Semiannual agenda of substantive regulations.

SUMMARY: The following Office of Government Ethics (OGE) substantive regulations are scheduled for development or review during the period from April 1, 1993, through March 31, 1994. This agenda fulfills OGE's responsibility to publish a semiannual regulatory agenda under Executive Order 12291 "Federal Regulation" and has been prepared in accordance with guidance received from the Office of Management and Budget. None of the OGE regulations in this April 1993 agenda will have a significant economic impact on a substantial number of small entities as defined under the Regulatory Flexibility Act, 5 U.S.C. chapter 6. In addition, none of the listed OGE regulatory actions are major rules under E.O. 12291 nor procurement-related. Furthermore, the organizational and procedural rules of OGE are not listed herein (see section 1(a)(3) of E.O. 12291).

This publication in the **Federal Register** does not impose a binding obligation on the Office of Government Ethics with respect to any particular item on its agenda. The dates shown for the future steps of each action are estimates and not commitments to act by the date shown. Moreover, other substantive OGE regulatory actions, in addition to the entries listed, are not precluded.

FOR FURTHER INFORMATION CONTACT: William E. Gressman, Office of Government Ethics, Suite 500, 1201 New York Avenue NW., Washington, DC 20005-3917; telephone (202/FTS) 523-5757, FAX (202/FTS) 523-6325.

Abstract: Regulation revising the executive branch public and confidential financial disclosure report systems for high-level officials and certain midlevel employees, respectively, in light of the changes to the Ethics in Government Act effected by the Ethics Reform Act of 1989 (Pub. L. 101-194), as amended, including by Pub. L. 101-280 and sections 313 and 314 of Pub. L. 102-90. The new disclosure provisions apply to reports filed since January 1, 1991. Subpart I of the regulation has, effective October 5, 1992, superseded prior 5 CFR part 735, subpart D (and 5 CFR 735.106), along with executive agency regulations thereunder, and establish a revised system of confidential reporting, modeled generally on the public reporting system, for executive branch agency midlevel employees with sensitive duties and special Government employees.

Abstract: Regulation will list and describe interests which are considered to be too remote or too inconsequential to affect the integrity of the services of executive branch officers or employees, in accordance with 18 U.S.C. 208(b)(2). Such interests will be exempt from the restrictions of 18 U.S.C. 208(a), generally requiring disqualification. The regulation will also provide guidance to executive branch agencies as to the kinds of interests that are not so substantial as to be deemed likely to affect the integrity of the services the Government may expect from an employee and which, therefore, may be waived from the general rule of disqualification under 18 U.S.C. 208(a) pursuant to 18 U.S.C. 208(b)(1). In addition, guidance will be provided concerning the issuance of waivers to special Government employee advisory committee members pursuant to 18 U.S.C. 208(b)(3).

Legal Deadline: None

Abstract: Interpretive regulation giving guidance for the executive branch on the various substantive restrictions of the current version of the post-Government employment conflict of interest statute 18 U.S.C. 207, which became effective January 1, 1991, pursuant to title I of the Ethics Reform Act of 1989 (Pub. L. 101-194), as amended. Parts of the regulation, dealing with procedures for waivers by the Office of Government Ethics of certain senior official constraints (based on executive agency hardship), designated senior employees and separate agency designations, have already been published in the Federal Register. The Office of Government Ethics also has continued to publish in the CFR the interpretive regulation, 5 CFR part 2637 (but now without the no-longer-effective former Senior Employee and old agency component designation listings), under the lifetime bar of the prior version of the post-employment law which still applies to executive branch employees who left the Government before January 1, 1991.

OFFICE OF MANAGEMENT AND BUDGET (OMB)

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III and 48 CFR Ch. 99

Federal Regulations; OMB Circulars, OFPP Policy Letters, and CASB Cost Accounting Standards Included in the Semiannual Agenda of Federal Activities

AGENCY: Office of Management and Budget

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities for OMB Circulars, Office of Federal Procurement Policy (OFPP) Policy Letters, and Cost Accounting Standards Board (CASB) Cost Accounting Standards.

OMB Circulars and OFPP Policy Letters are published in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB policy guidelines are issued under authority derived from several sources including: Subtitles I, II, and V of title 31, United States Code; Executive Order No. 11541; and other specific authority as cited. OMB Circulars and OFPP Policy Letters communicate guidance, instructions, and information of a continuing nature to executive branch agencies. As such, OMB Circulars and OFPP Policy Letters are not regulations. Nonetheless, because these issuances are typically of public interest, they are generally published in the **Federal Register** in both proposed (for public comment) and final stages. For this reason, they are presented below in the standard format of "prerule," "proposed rule," and "final rule" stages.

CASB Cost Accounting Standards are issued under authority derived from 41 U.S.C. 422. Cost Accounting Standards are rules governing the measurement, assignment, and allocation of costs to contracts with the United States Government.

For purposes of this agenda, we have excluded directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact John B. Arthur, (202) 395-7250, at the above address.

Dated: March 24, 1993.

John B. Arthur,

Assistant Director for Administration

4080. POLICIES ON GOVERNMENT PUBLICATIONS (CIRCULAR NO. A-3)

Legal Authority: 44 USC 1108

CFR Citation: None

Legal Deadline: None

Abstract: OMB Circular No. A-3, "Government Publications", last revised in May 1985, prescribes policies and procedures for approving funding for government periodicals to fulfill the requirements of 44 USC 1108, and for reporting periodicals and non-recurring publications. OMB is proposing to incorporate this Circular, with revisions, into OMB Circular No. A-130, "Management of Federal Information Resources." On August 18, 1989, OMB issued OMB Bulletin No. 89-15 which effected certain revisions to Circular A-3 in reporting requirements. OMB Bulletin No. 90-09, issued July 31, 1990, repeated these revisions to Circular No. A-3. On March 4, 1991, OMB published plans for revising Circular No. A-130, of which Circular No. A-3 will become part.

Significance: Agency Priority

Legal Authority: PL 101-576, sec 503(a) and (b), CFO Act of 1990

CFR Citation: Not applicable

Legal Deadline: None

Abstract: OMB Circular A-21 establishes Governmentwide accounting principles for the direct and indirect (allocated overhead) costs of Federal grants and contracts with colleges and universities. The Circular divides allocated overhead costs into seven "cost pools" that form the basis of a university's indirect cost rate. Four of these pools are for administrative costs. In Fiscal Year (FY) 1989 estimated Federal payments for university overhead were about $2.5 billion of an estimated $9.2 billion for direct scientific research. The problem of rising overhead costs has been the subject of continuing and extensive debate.

Regulatory Agenda

AGENCY: Office of Personnel Management.

ACTION: Semiannual agenda of regulations.

SUMMARY: The following Office of Personnel Management regulations are scheduled for development or review from April 1, 1993, through March 31, 1994. This agenda carries out OPM's responsibilities to publish a semiannual agenda under E.O. 12291 "Federal Regulation" and the Regulatory Flexibility Act (5 U.S.C. chapter 6). This publication in the Federal Register does not impose a binding obligation on the Office of Personnel Management with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded.

FOR FURTHER INFORMATION CONTACT: JoAnn G. Blackler, (202) 606-1973.

4102. • AVAILABILITY OF OFFICIAL INFORMATION

Legal Authority: 5 USC 552

CFR Citation: 5 CFR 294

Legal Deadline: None

Abstract: This proposed rulemaking makes a number of editorial changes and updates to subpart A of 5 CFR 294, Availability of Official Information. In particular, the section on fees has been rearranged and edited to improve the flow of information. These changes are designed to better ensure that OPM's Freedom of Information Act implementing regulations are clear and understandable.

4104. AMENDMENT TO SELECTIVE SERVICE REGISTRATION REQUIREMENTS

Legal Authority: 5 USC 3328

CFR Citation: 5 CFR 300, subpart G

Legal Deadline: None

Abstract: We will issue revised proposed and final rules delegating authority to agencies to determine whether a Federal job applicant's failure to register with the Selective Service was knowing and willful. This change was authorized by an amendment to 5 U.S.C. 3328 which imposes the selective service registration requirement as a condition of employment in Federal executive agencies. The delegation will permit faster agency decisions for interested job seekers and reduce paperwork.

4108. RULEMAKING TO IMPLEMENT THE HRD POLICY INITIATIVES ON NEEDS ASSESSMENT

Legal Authority: 5 USC 410

CFR Citation: 5 CFR 410

Legal Deadline: None

Abstract: OEDPP is proposing to issue new regulations in part 410, "Training," in the area of needs assessment. The needs assessment regulations will require agencies to implement a systematic process for linking organizational and employee training needs. The regulations also amend section 410.302 by inserting the word "disabled" to ensure that agencies provide safeguards against unjustified denial of developmental opportunities for employees with disabilities. The term "Other Development" is introduced in subparts B and C reflecting the view that options other than formal training should be considered in establishing developmental activities.

4114. • ALLOWANCES AND DIFFERENTIALS; COST-OF-LIVING ALLOWANCE AND POST DIFFERENTIAL -.NONFOREIGN AREAS

Legal Authority: 5 USC 5941

CFR Citation: 5 CFR 591, subpart B

Legal Deadline: None

Abstract: Executive Order 10,000 requires OPM to review nonforeign area cost-of-living allowances from time to time. This review is conducted by means of annual surveys. Under 5 CFR 591.205(d), OPM is required to publish proposed revisions in allowance rates in the FEDERAL REGISTER for comment, along with a detailed description of the calculation of each allowance rate. Although reductions in allowance rates are currently prohibited by a provision in Pub. L. 102-141 (October 28, 1991), OPM is required to publish the results of the summer 1992 and winter 1993 surveys and the proposed new rates if these surveys indicate that any increases in allowance rates are justified.

4117. ABSENCE AND LEAVE; SICK LEAVE

Significance: Regulatory Program

Legal Authority: 5 USC 6311

CFR Citation: 5 CFR 630

Legal Deadline: None

Abstract: The proposed regulations would permit employees to use up to 3 workdays of sick leave each year (or in the case of a part-time employee or an employee with an uncommon tour of duty, 60 percent of the average number of hours of work in the employee's scheduled tour of duty each week) to: (1) provide care for a child, spouse, or parent as a result of sickness, injury, pregnancy, or childbirth; and (2) make arrangements necessitated by the death of a child, spouse, or parent. In addition, the proposed regulations would remove the 3-year break-in-service limitation on the recredit of sick leave.
